COMMUNITY CHAMPIONS

We partner with community champions to create playful outdoor spaces that make a happier today and a healthier tomorrow.

Our mission is to design and build intergenerational play and fitness experiences by combining excellent local service with personalized products to showcase your vision for the community.

GameTime is a leading US manufacturer of commercial playgrounds, custom play spaces and outdoor fitness equipment. Our products combine play research with thoughtful design to create award-winning outdoor spaces for people of all abilities.

Since 1929 we have partnered with local and national advocates for play to build healthy, active communities for this generation and the next. Find out more about our mission of enriching the lives of children and families through play at gametime.com.

PLAY FOR ALL

GameTime's extensive collection of freestanding play activities are designed to encourage people of all abilities to play together. Choose from swings, whirls, musical instruments, and more to make any playground more inclusive.

EXPAND INCLUSIVE PLAY

Freestanding activities expand inclusive play beyond the play structure. Consider adding **1** GT Symphony instruments p174, **2** RoxAll SeeSaw p162, **3** Expression Swing Universal p165, **4** Inclusive Whirl p154

COMMUNITY CHAMPION

Dee Nance

COMMUNITY SERVICES OFFICER

Dee Nance is a certified therapeutic recreation specialist in Hoover, Alabama. She's also a dedicated advocate for children and families affected by disabilities. When the community of Hoover, Alabama decided to create an inclusive playground they turned to Dee to lead the way.

After meeting with community leaders, families, and people with disabilities, she planned a signature destination that would benefit people throughout the region. She set out to raise the money, almost entirely by herself, to pay for what is now the largest inclusive playground in Alabama. She is a true Community Champion for children and families of all abilities.

PLAY HAS NO LIMIT[®]

Using best practice research to create inclusive play spaces ensures your playground meets the need of the whole child, the whole environment, and the whole community.

7 PRINCIPLES OF INCLUSIVE PLAYGROUND DESIGN

1. Be Fair

Musical instruments encourage inclusive, multi-generational sensory play.

2. Be Included

Opportunities for equitable and parallel play promote imagination, communication, and healthy challenge for all.

3. Be Smart

Intuitive play patterns and visual cues make the environment easy to understand and actively explore.

4. Be Independent

Accessible ramps and surfacing support physical and social inclusion.

5. Be Safe

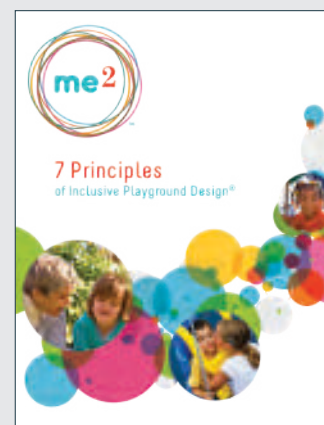

Decorative fencing creates boundaries to prevent wandering while still creating an immersive experience.

6. Be Active

Sensory-rich swinging, rocking, and spinning activities promote stimulating physical and cooperative play.

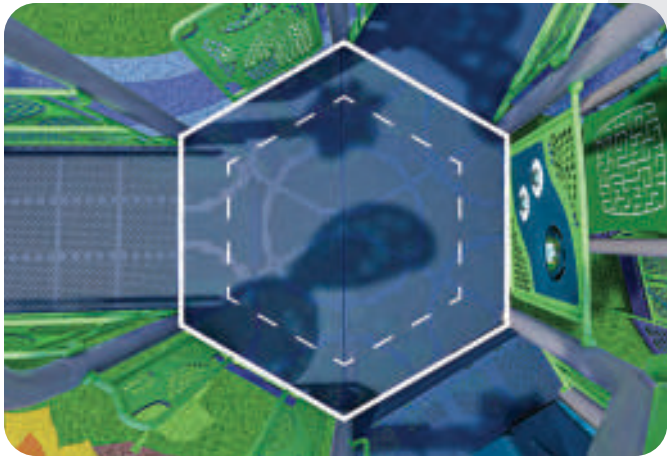

7. Be Comfortable

Shade and seating areas throughout provide comfortable areas for supervision.

**INCLUSIVE
INNOVATION**

GameTime's ADA Hex Decks offer more capacity so more children can play together! The unique punch pattern in our ADA ramps and decks also makes them more accessible for people using mobility devices.

Create an inclusive play system with a wide selection of play components, like

- 1 Patented double-wide decks and ramps p144,
- 2 Ground-level and accessible attachments p112,
- 3 Sensory play activities p128,
- 4 Interactive and musical play elements p138

THE INDUSTRY'S FIRST INCLUSIVE PLAYGROUND NET CLIMBER

GT Wave™ is the industry's first net climber with a transfer platform attached to an accessible route leading to a six-foot zip slide. As a result, children of all abilities experience a wide range of play adventures and physical, social-emotional, and cognitive skill development.

1

PLAY IS AN EQUAL RIGHT

FITNESS FOR ALL AGES

Studies show people are more likely to participate in physical activity if it's easy to access. With obstacle courses, functional fitness trainers, and more, you can prioritize community wellness in public spaces for everyone.

CELEBRATE COMMUNITY HEALTH

Create opportunities for people of all ages to be more active together. **1** The Stadium™ compact obstacle course p208, **2** THRIVE® fitness trainer p224, **3** Challenge Course obstacle courses p212

COMMUNITY CHAMPION

Ali Cross

DIRECTOR OF
RECREATIONAL SPORTS,
VIRGINIA TECH

The campus recreation team at Virginia Tech wanted to add more opportunities for students and faculty to be active. Ali Cross looked outside the walls of the fitness center and imagined a space on campus where people would stop on their way to class or their dorms to exercise, play, and socialize.

She transformed her vision into a reality with GameTime's THRIVE® outdoor fitness gym and custom fitness equipment designed just for Virginia Tech. Ali championed the cause for students to engage in fun, healthy activity outdoors and is an example for campus recreation departments everywhere.

INTRODUCING POWERSCAPE® FITKID®

As children grow older, they look for new and exciting challenges. PowerScape FitKid incorporates some of our most popular obstacle course challenges into a play structure! The result is a play experience that encourages positive risk-taking, enhances strength and agility, and makes the playground a whole new experience!

With PowerScape® FitKid®, you can design a play system that helps younger children develop physical and cognitive skills and encourages older children to keep playing! These obstacle course-style activities make any PowerScape system more exciting and gives you even more flexibility in your design choices.

Add up to eight FitKid activities to your play system to bring the energy and fun of a ninja warrior course to any playground.

COMMUNITY CHAMPION

Rebecca
Donaldson
PRINCIPAL

Principal Rebecca Donaldson had a vision to create a fun, active playground to help improve student health and wellness. She also wanted her school to be a place where nearby families can play and be active together.

Building a new playground at Weller Elementary seemed like an impossible goal. There wasn't any money in the budget for a new playground, and there were language barriers to overcome. But there was also a determination among community members to create a special place for students and families. In the end, determination overcame the obstacles and proved Play Has No Limit.

ACTIVE PLAYGROUNDS

With the Play On! Curriculum and design guide, you can create a playground that meets national standards for youth physical activity.

Learn how your playground can be a National Demonstration site for youth physical activity at gametime.com/nds

PLAY ON!® AND THE SIX ESSENTIAL ELEMENTS OF PLAY

1. Spinning

Develops kinesthetic awareness and postural control and enhances understanding of speed, force, and qualities of movement.

2. Sliding

Enhances core strength and dynamic balance while providing body and spatial awareness experience.

3. Swinging

Promotes aerobic fitness and whole-body awareness while emphasizing the importance of energy transfer during movement.

4. Climbing

Enhances spatial awareness, coordination, whole-body muscle strength and flexibility.

5. Brachiating

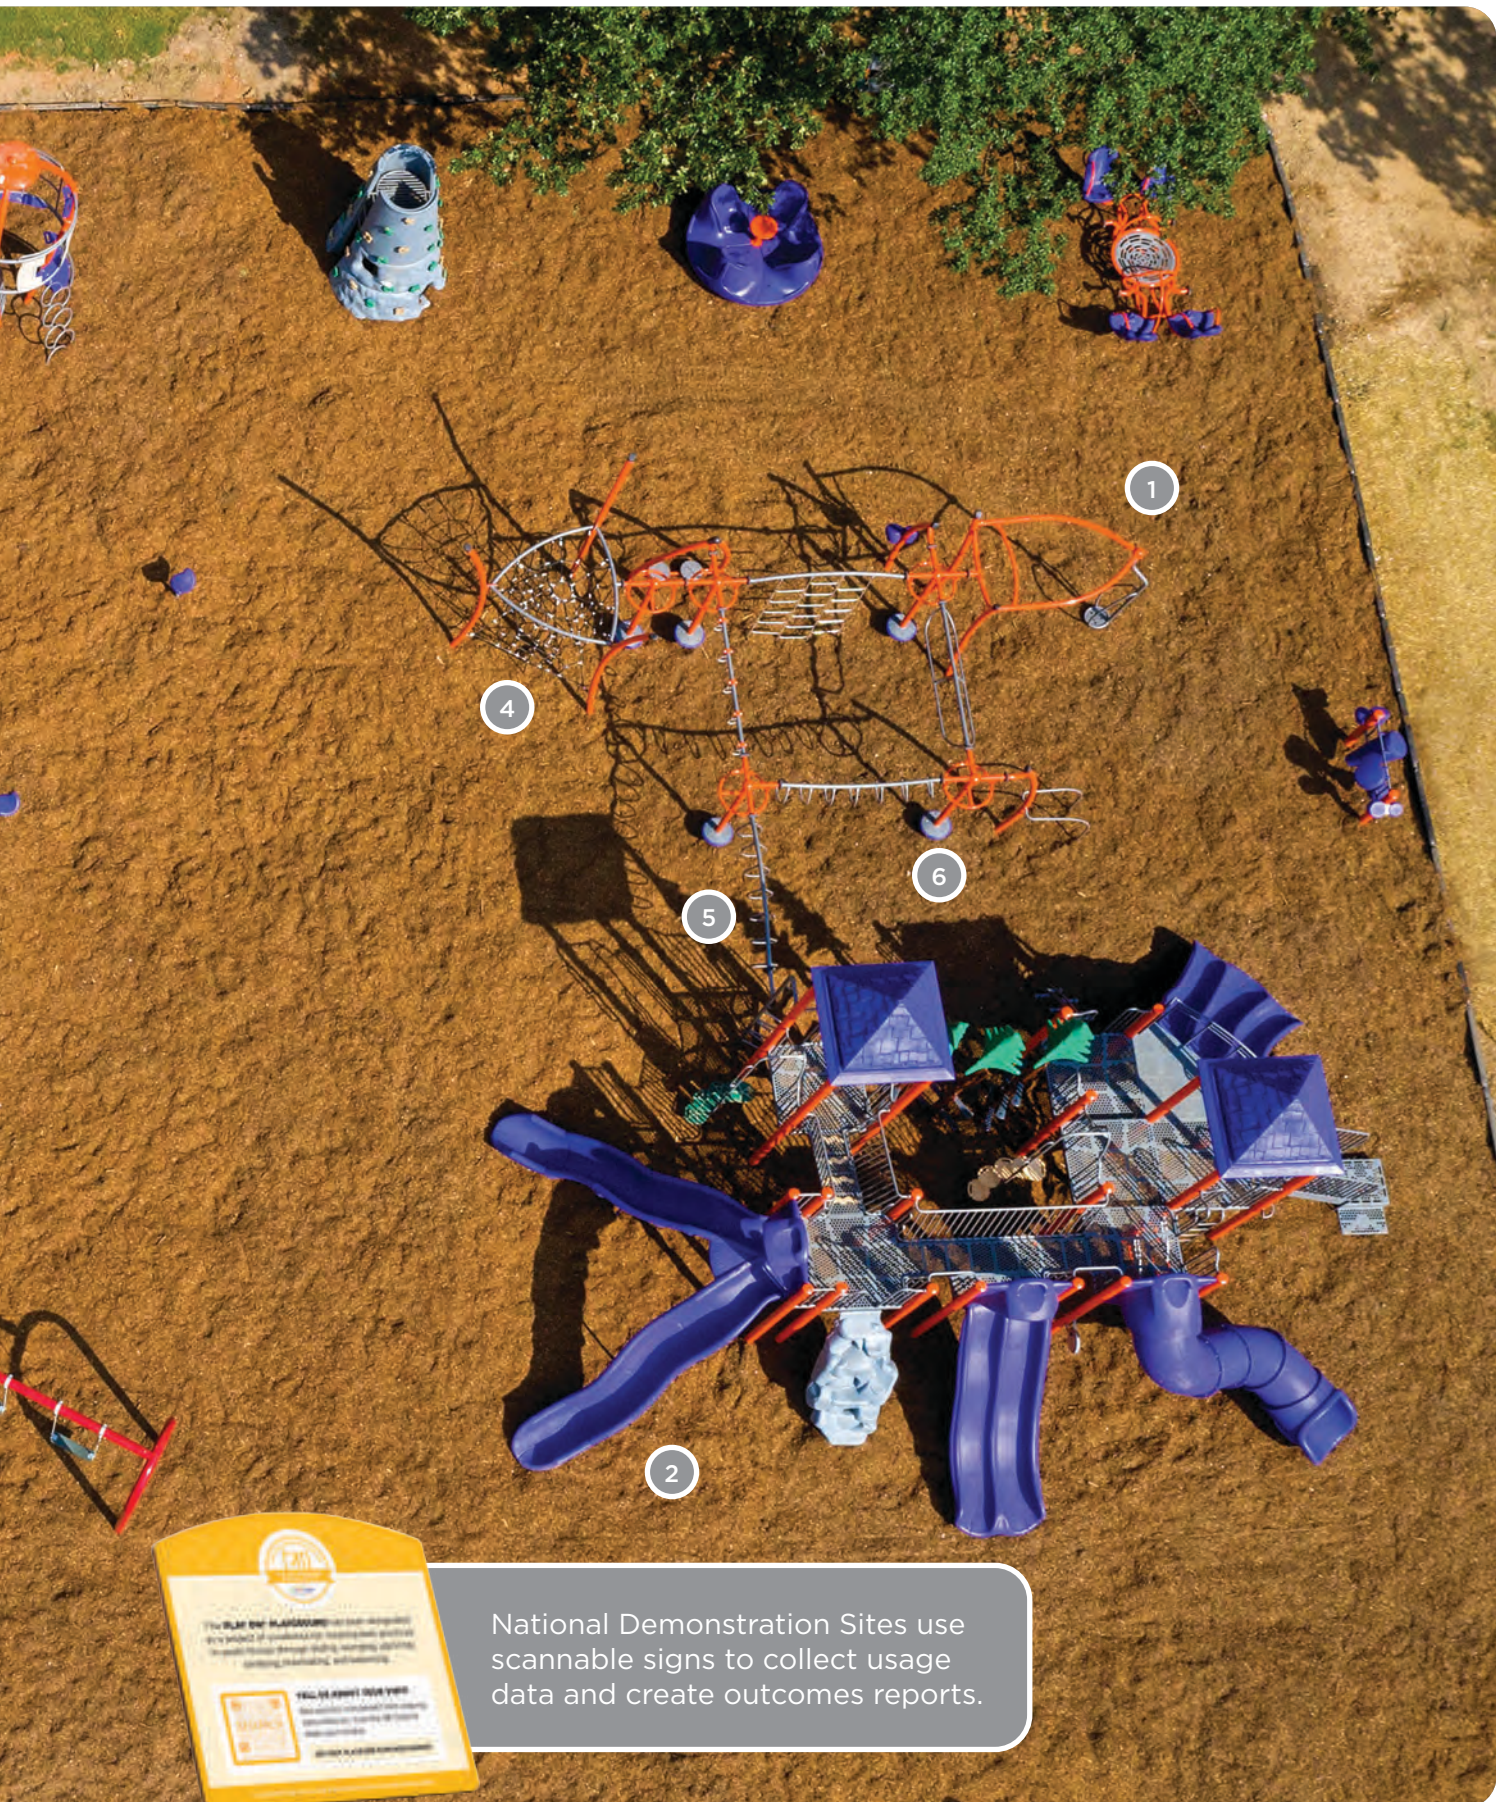

Improves upper body muscle strength and promotes hand-eye coordination.

6. Balancing

Enhances understanding of body positioning and control, coordination, and whole body strength and endurance.

Learn how to incorporate the six essential elements of play with standards-based activities for students in grades Pre-K through 5 with the Play On! Activity Guide.

National Demonstration Sites use scannable signs to collect usage data and create outcomes reports.

LANDMARK
DESIGN

**BUILD BEYOND THE ORDINARY.
BE EXTRAORDINARY.**

Landmark Design is GameTime's custom play division. Our artists and engineers work with architects, city planners, community groups, and parents to create personalized play spaces. Whatever you can imagine, we can bring it to life.

FOUR WAYS TO PERSONALIZE PLAY

GameTime's Landmark Design team uses multiple methods and materials to bring your vision to life, including: **1** PolyShield play sculptures, **2** TuffCrete sculptures and accents, **3** Custom HDPE plastics, **4** Custom metal fabrication

COMMUNITY CHAMPION

Christian
Kane

FATHER

Christian Kane, from Toms River, NJ; is father to 7-year old Gavin, who uses a wheelchair to aid in his mobility. Through parenting Gavin, Christian began to champion for a space where children with disabilities could play alongside their peers.

Christian decided to help create an inclusive space-themed playground. The space theming represents dreaming big and the dedication that goes into making your desires a reality, just like the first astronauts who went to the moon.

This mindset is what makes Christian a Community Champion.

TUFFCRETE

TuffCrete sculptures incorporate the same alkali-resistant fibers used in highrise buildings for strength and durability.

Personalize any play area with custom TuffCrete climbers or accents. Whatever you can imagine, we can create. Our artists painstakingly sculpt and paint each element by hand for a one-of-a-kind design.

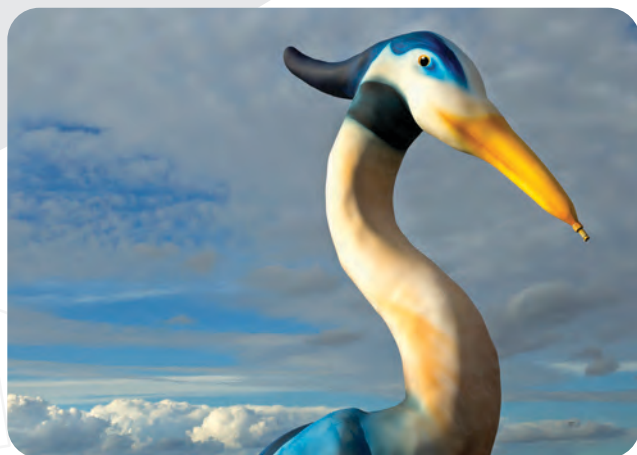

POLYSHIELD

PolyShield's superior strength and durability comes from multi-layer inner construction and a Polynamel outer shell.

We use a proprietary synthesis of polymer and resin materials to create a lightweight, yet durable form. Every detail of our PolyShield play sculptures is fashioned with precision and handpainted by our FunForms studio artists.

CUSTOM METAL

Precision-formed metals add custom touches throughout your park at a fraction of the cost of other materials.

We cut, bend, punch, and paint steel and aluminum to customize signs, play components, park accessories, and more. From simple shapes to intricate designs, you can put our creative mettle to the test!

CUSTOM HDPE

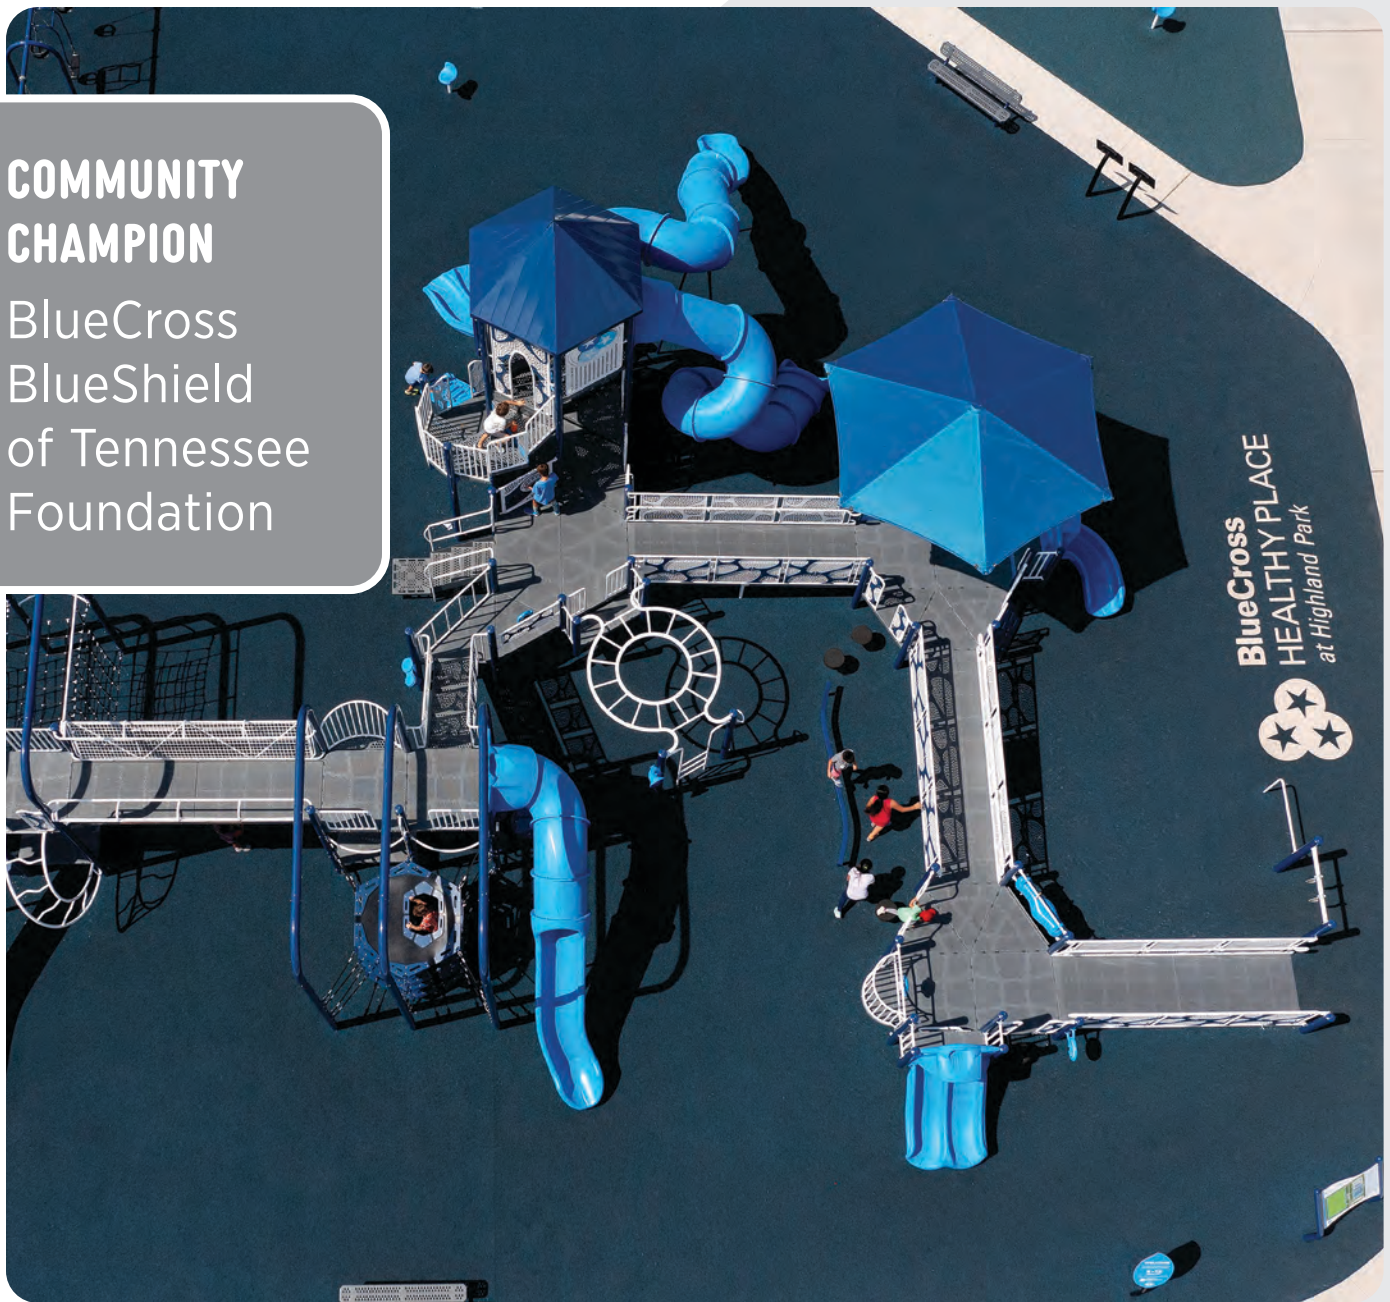

HDPE is made from 100% post-consumer recycled material and is 100% recyclable. It's colorfast and reduces VOC emissions to preserve air quality.

High density polyethylene plastic is stronger than wood, most plastics, and some metals. That makes it perfect for playground designs. It's also highly customizable with routed graphics and patterns in a range of color options.

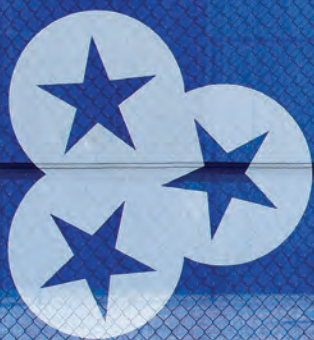

COMMUNITY CHAMPION

BlueCross
BlueShield
of Tennessee
Foundation

BlueCross BlueShield of Tennessee is the state's largest private insurer and is a major supporter of health and wellness in the state. Since 2019, their foundation's Healthy Place initiative has transformed local parks across the state into signature play and recreation destinations where families can be more active together.

With nearly 20 new parks constructed or renovated, and more in the works for the coming year, BlueCross BlueShield of Tennessee Foundation is setting the standard for corporate social responsibility. Learn more about this Community Champion at gametime.com/impact

PLAY ADVENTURES

GameTime's VistaRope™ products take climbing to the next level. From towers to adventure courses, expand and personalize your play experience with our comprehensive net collection.

ALTUS™

Take play to new heights with our Altus series. Only GameTime gives you the ability to configure a playground tower to meet your needs.

Explore the many ways to design your playground tower.

Adding a tower to your PowerScape® play system has never been easier or more fun to design.

Altus playground towers are available at 10' and 12' heights with a variety of roofs, panels, and slides to personalize the play experience. Add an Overlook to give children a fun way to ascend to the top by climbing on the outside of the tower in a fully-enclosed and accessible route of travel.

SPIRE

Spire towers use our square deck foundations for space-saving designs and thrilling play experiences.

Spire makes it easy to add a tower to your playground, even with smaller spaces and budgets.

GameTime's Spire towers are available at 10' and 12' heights, include an Overlook climber, and can be configured with one or two slides. Available for PowerScope or PrimeTime (with conversion deck).

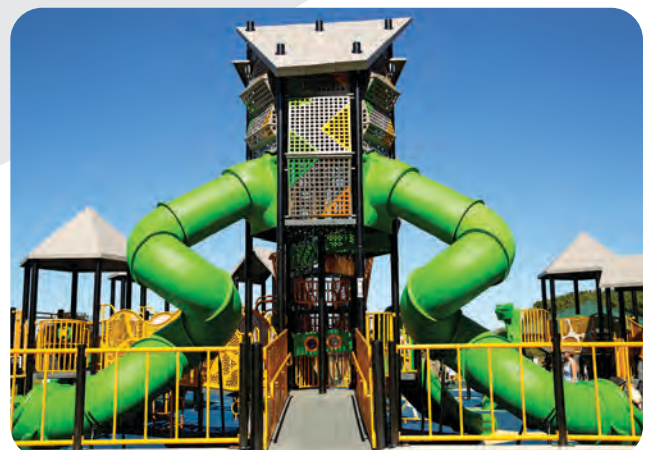

GEO

Geo towers are a great way to complement a Modern City® play structure, or as a stylish contrast to any of our PowerScape play systems.

Give your playground tower a distinctive style with bold geometric shapes combined with punched steel panels and colorful accents.

GEO towers are available at 12' heights and can be custom configured for PowerScape or Modern City® play systems.

TIMBERS

Give your playground tower a classic, rustic look with our 100% recycled plastic Timbers roofs and panels.

The kids have never seen a treehouse like this before! The playfully rustic style of our recycled plastic Timbers look great with any playground design.

Add Timbers to play systems and towers of any height for a unique and environmentally-friendly way to play.

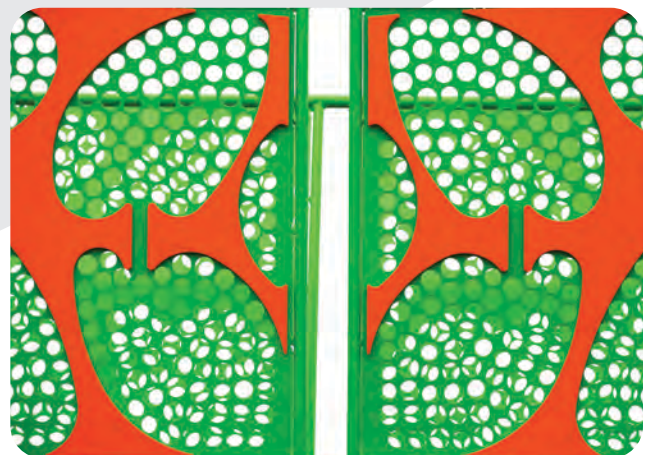

3D

The combination of punched steel panels with HDPE overlays give your playground tower a signature three-dimensional style.

PowerScape 3D is one of our most popular play system styles. The layered metal and HDPE create an exciting visual and tactile sensory experience. Now you can take that same visual appeal to new heights with our 3D Towers.

Custom configure your tower in any of our color combinations and at heights up to 12'.

- 1 Keep workouts cool and comfortable with THRIVE shade p229
- 2 The Stadium offers the only obstacle course experience with integrated shade p208
- 3 Cool a portion or all of your play system with play system shade p146
- 4 Feeling cooler can also look cool with our Modern City® shade

INTEGRATED SHADE

No matter where you live on the planet, the sun is an ever present source of heat and UV rays. Protect your investment and the people who play there with integrated shade.

GameTime offers a complete range of integrated shade options for play systems, fitness equipment, seating areas, swings, and more. Shade structures keep play and recreation spaces cooler, so people stay and play longer.

Our shades block up to 98% of harmful UV rays and feature our patented QuickRelease technology for quick and easy installation or removal.

WE'RE MAKERS

We make the places where people love to play. Our ISO-certified manufacturing facility produces high-quality products that are backed by the industry's leading warranty because we stand behind the things we make.

BETTER BY DESIGN

1 GameTime's DirectBolt® technology is the same used in bridges and skyscrapers for maximum strength, **2** Our TruLoc® Connections require 66% less hardware for faster and compliant assembly and maintenance, **3** WeaveTech™ cables contain the industry's highest steel content for stronger net climbers.

POWERSCAPE®

Design flexibility meets strength and durability with PowerScope. Create a high-capacity playground with the industry's most popular play systems.

TAKE PLAY TO NEW HEIGHTS

GameTime playground towers give children a new and exciting view of the world around them. Choose from five different tower models or design a custom signature style for your park or playground.

SYSTEM COMPONENTS

Choose from the widest selection of climbers, slides, panels, and other innovative system components to create a personalized play experience.

DESIGN YOUR TOWER

DESIGN OPTIONS

Only Altus™ towers give you the design flexibility to select the height, style, and play activities for your playground tower.

- 1 Choose 10' or 12' height
- 2 Select a foundation or base style
- 3 Pick your slide experience
- 4 Select play activity panels to match your foundation
- 5 Top it off with any of our three roof styles

Mix things up by selecting different foundations, panels, and roofs to create your signature style.

FINISHING TOUCHES

Our roofs give your play system a sense of height and provide children with a shaded area to play on even the sunniest of days.

Our Spire Towers use square decks and preset panels and roofs to save space and time. Choose one slide or two and take play to new (space-saving) heights!

BENEFITS OF MUSIC ON THE PLAYGROUND

Research has shown that children surrounded by music have greater neural activity than those not involved in music. It is also a great creative outlet for stress relief. By adding multiple music panels to your play area, you can spark an interest in music education from an early age.

FUN, HEALTHY ACTIVITY FOR CHILDREN

We took everything you love about Challenge Course obstacle courses and condensed the experience into a compact design. The Stadium™ provides a great workout and helps children build healthy habits that last a lifetime.

Center Hub (Top View)

A central multi-occupant climber with different types of climbing activities, including vertical and lateral climbing. It also serves as a social gathering spot. The center hub is used to attach stadium rooms and walls.

Over, Under, & Around

Over, Under & Around promotes balance and flexibility development. HDPE climbing surfaces with perforated metal accents create paths of travel for the user to navigate over, under, through, and around.

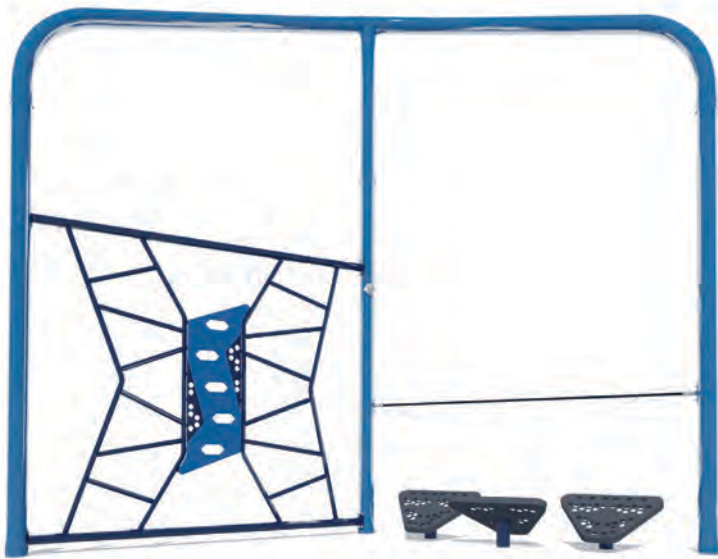

Get A Grip

Improve grip strength and upper body muscle development with this mixed-material ladder.

Sway Station

Cross the tethered balance beams as they move back and forth and side to side. The beams are linked with a rubber membrane positioned at transfer height and accessible via transfer.

Leaning Ladders

The combination of angled and leaning ladders, an HDPE climbing wall, and elevated grip rails provide multiple routes and paths of travel.

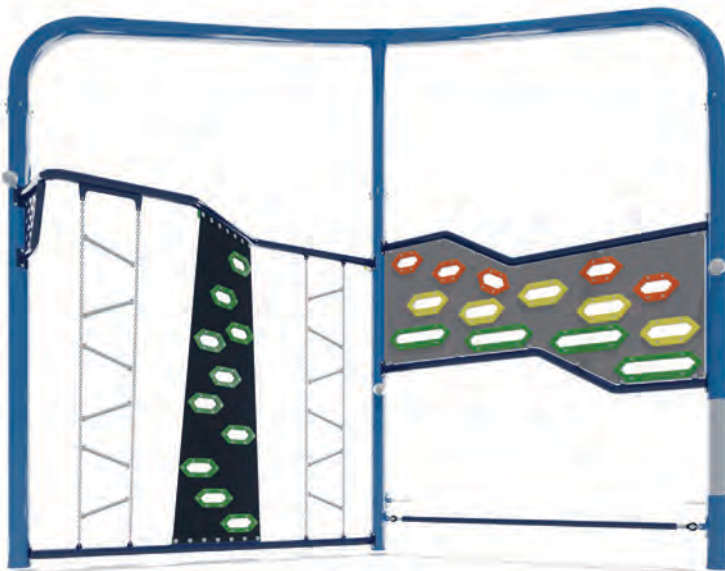

Agilty Pods

Enhance balance, coordination, agility, and problem-solving with these sturdy platforms. They feature a soft-textured rubber surface that's perfect for stepping or jumping.

Mountain Climber

The Mountain Climber combines metal rungs, HDPE inserts, and a taut rubber membrane for a multi-faceted climbing challenge. It also features a ground-level ring-trace activity for inclusive play.

Twisted Ladders

This vertical and lateral climbing wall provides many different grip variations and climbing angles and features a center rubber membrane with climbing grips.

Ledge Climber

This lateral climber is an upper-body fitness trainer with multiple paths of travel at various skill levels. Beginning users can use the tethered balance cable for assistance.

Floating Boards

With three distinct routes of travel, over, through, or along the side, Floating Boards enhance balance, flexibility, and whole-body muscle fitness.

CHALLENGE COURSE

OUTDOOR FITNESS BY GAMETIME™

The original outdoor obstacle course is still the best and keeps getting better! Choose from more than a dozen obstacles to design the perfect course for your space or budget.

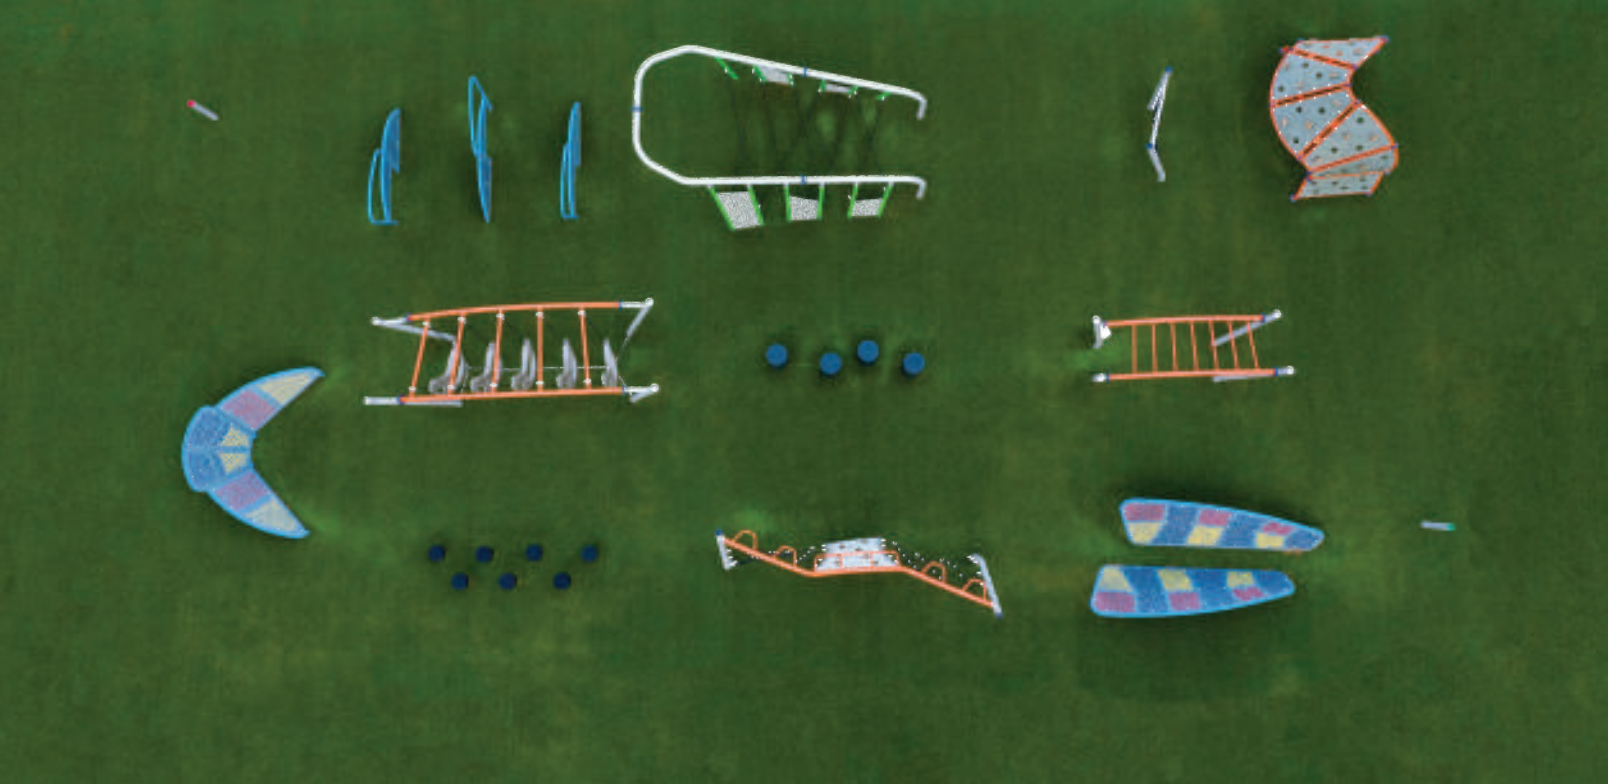

STEP UP TO THE CHALLENGE

Challenge Course provides fun, friendly competition for friends and family. These outdoor obstacle courses connect people of all ages and backgrounds and encourage a healthy lifestyle through playful activity.

1. CHOOSE YOUR COURSE

Select the Challenge Course model that fits your space. Model numbers correspond to the approximate square footage required (i.e. 3000 series requires 3,000 square feet).

2. YOUTH OR PRO

Select the series that is appropriate for your users. Challenge Course Youth is designed to meet playground equipment standards for users ages 5-12. Challenge Course Pro is designed for older users, ages 13 and up.

3. SELECT SURFACING

GameTime offers three surfacing options for your Challenge Course: GTImpax synthetic turf, poured in place rubber, or engineered wood fiber (EWF).

4. LEVEL UP

Choose accessories like timing systems or a 40 Yard Dash to complete your course!

YOUTH

- Designed for ages 5 to 12
- Compliant with standards for playground equipment
- Perfect for schools and youth organizations

PRO

- Designed for ages 13+
- Aligns with standards for adult fitness
- Perfect for parks and greenspaces
- Qualifies as a National Demonstration Site

National Demonstration Sites use scannable signs to collect usage data and create outcomes reports.

5 ELEMENTS OF A WELL-ROUNDED FITNESS SPACE

1. Muscle Fitness

Whether you are training for a sporting event or trying to achieve a greater level of functional fitness, these products are designed to strengthen the primary muscle groups that help users perform challenging tasks.

2. Core Fitness

A strong core stabilizes your body during movement whether you are exercising or playing with your children or grandchildren. Add these products to enhance core fitness and support overall health and wellness.

3. Aerobic Fitness

Aerobic workouts keep heart and lungs functioning at optimum levels. Not only is this important when you are exercising, it's essential to enhancing your every day life!

4. Flexibility

Exercises that enhance flexibility can improve posture, strength and overall physical performance.

5. Balance

Studies show that one of the leading causes of injuries is a lack of balance, particularly as we grow older. GameTime fitness lines include products specially designed to enhance balance - a key element in overall fitness.

Our parent company, PlayCore, literally wrote the book on designing outdoor fitness spaces for adults. Request a copy to learn how to apply the latest research and best practices to your outdoor fitness park project. gametime.com/fitness

CUSTOM FITNESS

Whether you're designing a health trail, fitness park, or obstacle course, GameTime's custom design team can help bring your vision to life.

A CUSTOM FIT

When it comes to community health and wellness, one size doesn't fit all. That's why GameTime offers a wide range of outdoor fitness products and custom designs like this outdoor gym in West Windsor Township, NJ. A custom-designed outdoor gym can provide a unique experience for everyone.

Poured in Place Recycled Rubber

- Ideal for themed graphics to add additional activities and sensory play
- Unitary and highly accessible
- 2-layer system customized to meet equipment's fall height requirements

Recycled Bonded Rubber

- Rubber is 100% recycled
- Natural look of loose fill surfacing without the disadvantages of displacement
- Single layer installation
- Recommended for playgrounds and trailways

Synthetic Turf

- Drains quickly for drier play conditions
- Ideal for playgrounds, dog parks and recreational common areas
- Low maintenance requirements
- Optional Enviro-Fill™, made with Microban®, to help fight the spread of bacteria

Recycled Rubber Interlocking Tiles

- Great for play and fitness spaces
- Interlocking design to ensure installation accuracy and security
- Design capabilities for branding
- Highly accessible surfacing option
- Made in America

Recycled Loose Fill Rubber

- One of the highest fall attenuation ratings
- Soft to the touch and certified 99.99% metal-free
- Mold and insect resistant

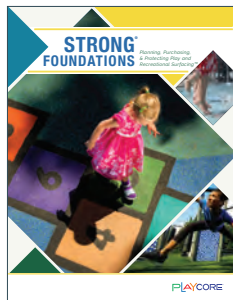

Engineered Wood Fiber

- Provides proper fall attenuation when compacted
- Lowest installation cost
- Easily installed by volunteers
- Attractive, natural look

GT Court Game Tiles

- Great for play and fitness spaces
- Athlete Protection
- Resilient Material
- Patented Locking System
- Optimal Tile Size for Peak Performance

ADD SOME COLOR!

Our surfacing options come in a wide array of colors. Choose a hue that complements your play system. See options at gametime.com/surfacing.

GT Impax Wear Mats

- #161296 8' Diameter Circular Mat
- #161292 46.5" x 46.5" x 1.25"

- Helps maintain unitary surfaces in heavy traffic areas where tears and holes can occur
- Protects loose fill surfacing resulting in a safer and more inclusive playground environment
- Can ship with playground equipment for freight cost savings
- New circular spinner wear mats for under spinners and tire swings now available!

Geotextile Fabric

- #161290 2250 square foot roll
- #161291 1125 square foot roll

- Helps prevent clogging of drainage systems for longer use of engineered wood fiber (EWf) and shredded rubber installations
- Keeps surfacing in place resulting in less maintenance
- Installed between soil and loose fill surfaces to assist in blockage of unwanted plant growth and to slow decomposition
- Ships with playground equipment for freight cost savings

Geocomposite Drainage System

- #161294 150' roll

- Self-contained and pre-assembled pieces cut installation costs
- Reduced installation time allows more budget for equipment
- Provides groundwater drawdown for extended use with less maintenance
- Combines polypropylene geotextile and a strong polyethylene core for long term performance
- Ships with playground equipment for freight cost savings

Rubber PlayCurbs

Rubber Flex Curbs are great for finishing your surfacing installation. Available in multiple colors and designs. Perfect for both loose fill and unitary installations.

Made from Recycled Materials

Pricing available upon request.

PlayCurb 4' Straight PlayCurb

- #4862 12" (0.3m) High (Recycled)
- #4850 8" (0.2m) High (Recycled)

Each PlayCurb includes one galvanized stake.

Because of the recycled PlayCurb's plastic content and its unique environmentally friendly manufacturing process, slight color variations can be expected. Therefore, color match is not guaranteed from curb to curb and some slight variation from color sample shown should be expected.

PlayCurb Adapter
(Recycled)

PlayCurb Adapter

- #4852 Left #4853 Right (Recycled)

Joins our 8" and 12" high PlayCurbs to accommodate multiple critical fall heights within a playground.

- #3785 Stake Package

PlayCurb End Caps

- #4863 12" High Recycled
- #6215 8" High Recycled

Accessible PlayCurb

- #4854 Recycled (shown)
- #4858 Recycled w/ Adapters

For use with 8" high curbs. This patented design affords smooth access to any playground without releasing vital safety surfacing. Add our PlayCurb Adapter for use with both 8" and 12" high PlayCurb systems.

Make sure your surface lasts! Ask your GT Impax™ Representative about preventative maintenance and repair services for existing surfaces. Purchase service programs tailored to your new play system's surface.

PCI 4000

Certification by the Powder Coating Institute recognizes competency and processes in place to consistently produce high-quality powder-coated products. PCI certification is the result of an extensive and rigorous audit process and GameTime's facility is the only U.S. playground manufacturer to hold PCI 4000 certification.

ISO 9001/ISO 14001

Industry certification processes issued by the International Organization for Standardization. ISO 9001 is used to measure manufacturing standards and to certify company compliance with quality management systems covering design, development, production, installation, inspection and testing. ISO 14001 also known as the green certification, specifies the requirements of an environmental management system (EMS). An EMS is a systemic approach to handling environmental issues within an organization.

GameTime is ISO 9001 and ISO 14001 certified.

ASTM

ASTM International is an independent and world renowned developer of technical standards utilized in testing a multitude of products. ASTM's F15.29 committee met regularly for over a decade in the continual development of the F1487 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use. The original standard, F1487-93 was published in 1993 and subsequently replaced by the current version F1487-17. Published February 2017.

Throughout this catalog we state ASTM Use Zones in dimensional form per the ASTM F1487 Standard Consumer Safety Performance Specifications for Playground Equipment for Public Use, which are minimum dimensions. Consideration should be given to the number of users and their circulation patterns.

IPEMA

In the interest of public playground safety, the International Playground Equipment Manufacturers Association (IPEMA) provides a Third Party Certification Service whereby a designated independent laboratory, TUV America, validates an equipment manufacturer's certification of conformance to ASTM F1487-17, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use, except sections 7.1.1, 10 & 12.6.1; to CAN/CSA Z614, Children's Playspaces and Equipment, except clauses 9.8, 10 & 11, or both. The use of the corresponding logo in GameTime's catalog signifies that GameTime has received written validation from the independent laboratory that the product(s) associated with the use of the logo conforms to the requirements of the indicated standard. Check the IPEMA website, www.ipema.org, to confirm product validation.

General Services Administration

Under the GSA Schedules Program, GSA enters into contracts with commercial firms to provide supplies and services at stated prices for given periods of time. Orders are placed directly with the Schedule contractor, and deliveries are made directly to the customer.

The GSA Schedules Program mirrors commercial buying practices more than any other procurement process in the federal government today. It provides customers with state-of-the-art, high-quality commercial supplies and services at volume discount pricing on a direct delivery basis. All customers, large or small, even those in remote locations, are provided the same services, convenience, and pricing.

OMNIA Partners

OMNIA Partners is a National Collaborative Purchasing Program that is available to all state and local government groups, educational institutions and non-profit organizations. Through OMNIA Partners, you can forgo the bid process and still secure significant discounts on GameTime products and services through a true turnkey solution.

Kinetic GPO

Kinetic GPO

Kinetic GPO is a cooperative purchasing organization established for Public Sector and MASH entities across Canada, with the specific purpose of reducing procurement cost by leveraging the purchasing power of group buying and saving our members time by simplifying steps to procure.

CPSC

The Consumer Product Safety Commission is an independent agency within the United States Federal Government with the authority to inform the public of current product safety performance information and recommended practices. The CPSC first published their guidelines for public playgrounds in 1981 and have updated their publication several times since then. The current CPSC Handbook for Public Playground Safety, publication #325, is an excellent guide for owners and operators of public play environments.

GameTime Policies

Specifications: Specifications were current at the time of publication. GameTime has an ongoing policy of product improvement and therefore reserves the right to improve specifications or discontinue products without notice.

Terms of Sale: To governmental agencies and tax supported institutions, and those with approved credit, payment is due within 30 days from the date of invoice. A 1.5% per month finance charge will be imposed on all past due accounts. We also accept payment by Visa, Master Card, or American Express with a 2.5% convenience fee charged for each transaction. GameTime's preferred method of payment is by ACH. All other orders will require a 50% deposit at the time of order entry. The balance will be due with a certified check upon receipt of shipment (C.O.D.).

Prices: Prices are F.O.B. factory and do not include freight charges. All prices listed were current at the time of publication and quoted in U.S. Funds. Prices are subject to change without notice. Current prices will apply at the time of shipment. Due to the abnormally high cost of fuel and its impact on many of the materials used in our industry, quotations are valid for 30 days only and prices may be subject to material and fuel surcharges at the time of shipment.

Freight charges: Freight charges are determined and collected by the carrier unless GameTime is requested and agrees to prepay and add these costs to the invoice.

Taxes: If applicable, taxes will be added to the invoice except when a tax exempt certificate is provided with the purchase order at the time of order entry.

Minimum Order: Our minimum order is \$50 (USD). Any order less than \$5,000 requires cash with order or payment by major credit card.

Order Cancellation: Once accepted, orders can be canceled only with the consent of GameTime, and on terms which will indemnify GameTime against loss. Canceled orders will be subject to a restocking fee. Equipment "built-to-order" is non-cancelable.

Domestic Shipments: Unless specifically given routing instructions on the purchase order, shipment will be made via the carrier we consider to be the most economical and practical in reaching the final destination. All domestic shipments are governed by ICC Regulations.

Delays in transit: GameTime is not responsible for delays in transit and such delays shall not alter our invoicing terms. If your order does not reach you within a reasonable time after being advised that shipment went forward from our plant, GameTime will be glad to assist in the tracking process.

Loss or damage in transit: GameTime is not responsible for loss or damage in transit. When we release the material to the carrier, a bill of lading is signed which states that the shipment was received from us complete and in good condition. A copy of this bill of lading is forwarded to you with the shipment and should be checked carefully with the materials you receive. Any shortage, discrepancy or damage must be noted on the delivery receipt and signed by the carrier's representative. Failure to note exceptions on the delivery receipt may impair your right to recovery from the carrier.

Weights: All published weights are estimated and include appropriate packing materials. Actual weights may vary slightly.

WARNING

- **Installation over a hard surface such as concrete, asphalt, or packed earth may result in serious injury from falls.**
- **Remove hood and neck drawstrings from children's clothing before children play on a playground.**
- **Parents, guardians and supervisors should check for hot surfaces before allowing young children to play.**
- **Parents, guardians and supervisors should not allow children to play on playground equipment while wearing helmets.**

RESEARCH AND RESOURCES

Our parent company, PlayCore, partners with leading researchers and experts in the fields of play, outdoor recreation, inclusive design, health and wellness, and childhood development. These partners provide independent, research-based scholarly works to help communities design play and recreation spaces based on science and best practices.

BEST PRACTICE DESIGN

PlayCore's innovative design programs are based on valid, scholarly research and can enhance your play and recreation project, taking it to a level of success beyond aesthetics. A successful play and recreation environment lets people succeed physically, socially, and emotionally.

CURRICULA & PROGRAMS

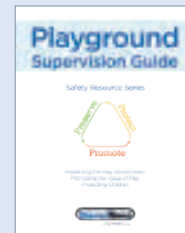

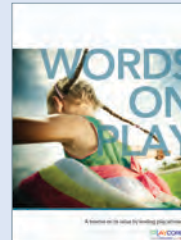

Programming your play and recreation space helps increase usage and engagement. PlayCore's standards-based curricula and programs maximize a community or school's playground investment.

ADVOCACY TOOLS

PlayCore's advocacy guides provide research to help impact public policies and budgets, maximize resources for play and recreation, and advocate for communities to increase recreation opportunities that advance health and well-being.

GameTime also offers maintenance and supervision guides to help parents and caregivers provide a compliant play experience.
