

WE'VE BEEN GETTING OUTSIDE FOR OVER 40 YEARS.

Huntco is based in Portland, Oregon, and has been manufacturing bike racks, benches and site furnishings in the US for more than 4 decades. When I took over ownership in 2000, I didn't come in with big plans to make big changes. Just the opposite. I'm proud to live, work and ride here, and it's always been my goal to operate Huntco as an extension of that pride.

Over the years we've added new products, like bike repair stations and more bike parking options. We've also dropped or evolved some products, like discontinuing heavy concrete trash receptacles in favor of recyclable steel versions. Regardless, our mission and values remain unchanged.

We make our products in the Pacific Northwest, partnering with local fabricators in Oregon and Washington as well as a local powder coater and galvanizer. We work hard to source as much of our labor and materials as possible from the region we call home. That's how it's always been, and that's how it will stay.

We're thankful for our success and longevity, and we attribute it to two simple things.

1. You have our full attention

Large or small, we treat every project as a heritage piece. It's important to us that we create functional, practical, and aesthetically-pleasing solutions for each site and project—from a customized single-bike rack in front of a small business to a high-capacity secure bike room in a residential building. When our customers are happy, we're happy.

2. We're committed to quality

We manufacture and distribute the best product possible. We know that the quality of our product means that it will last for years, so we want to make sure it's done right. In the rare case that something doesn't meet your standards or ours, we'll make it right. That's why every piece Huntco produces is covered by our warranty.

Our dedication to delivering the best products and service means that the work is never done. We're constantly rethinking, redesigning or reengineering products and looking for ways to improve them. If you have questions, suggestions, or feedback for us, we'd love to hear from you.

Thanks for being a member of the Huntco community. We look forward to partnering with you on your next project.

Sincerely,

Casey Rice, Owner

WALL MOUNTED BIKE RACKS

THE STIRRUP, DURING THE POWDERCOAT PROCESS

THE STIRRUP A slim space saver, the Stirrup tidies cluttered bike rooms, keeping bikes out of the way and secure. The Stirrup allows cyclists to lock front wheel and frame to the rack with a single U-lock.

DIMENSIONS:
3.5" Width
35" Length
19.75" Depth (from wall)

THE HAWTHORNE The architectural Hawthorne allows cyclists to secure their wheel and frame together to the rack. A Santoprene bumper, (shown inset) can also be added for additional bicycle protection.

DIMENSIONS:
8.8" Width
23.9" Length
27.3" Depth (from wall)

THE BANTAM The economical Bantam rack is tough enough to support the heaviest bikes and small enough to fade into the background when not in use, it's ideal for a secure or keycard-access room. For less secure areas, we recommend a vinyl-coated security cable.

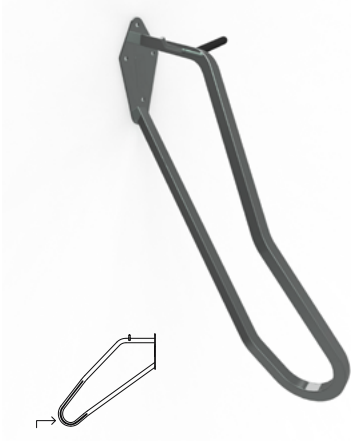

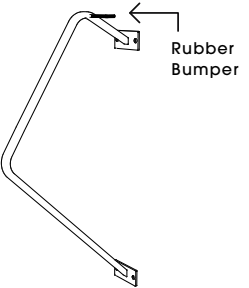

DIMENSIONS:
3.5" Width
8.0" Length
5.5" Depth (from wall)

THE TILIKUM WALL RACK Designed in-house to match the floor-mounted Tilikum, our fresh take on the Staple. The Tilikum Vertical rack allows cyclists to easily lock front wheel and frame to the rack with a single U-lock. A rubber spoke-protector bumper (Shown inset) is included.

All of our wall mounted bike racks work great for bike rooms and in the outdoors.

DIMENSIONS:
5.5" Width
42.6" Length
23" Depth (from wall)

THE HAWTHORNE SINGLE

THE HAWTHORNE WALL FRAME A premium wall mount rack for more than one bicycle, the sculptural Hawthorne allows cyclists to lock their wheel and frame together to the rack. For less secure areas, hardened, ballistic nylon-covered steel chains can be added.

- DIMENSIONS:**
- 30.7" Depth
 - 40" Height
 - 3 Bike 52.8" Length
 - 5 Bike 84.8" Length
 - 7 Bike 116.8" Length

THE TRITON DOUBLE The Triton Double bike rack makes smart use of space, allowing for 2 bikes and a car in parking garage spaces. The Triton double works well in secured bike rooms and outdoors, and allows cyclists to lock their front wheel to the frame and rack.

- DIMENSIONS:**
- 19" Width
 - 11.9" Height
 - 25.5" Depth (from wall)

THE TRITON Specifically designed for apartments where space is at a premium, the Triton bike rack stores bicycles above parking spaces, out of harm's way. In secure bike rooms or outdoors, the Triton allows cyclists to lock their front wheel to the frame and rack.

- DIMENSIONS:**
- 19" Width
 - 7" Length
 - 17.8" Depth (from wall)

THE STAPLE FLOOR/WALL The ever-classic Staple commercial bike rack is used by the City of Portland for their bike-riding parking enforcement staff. The floor mounted Staple works for recumbent style bikes on the ground or as a space-saver mounted on the wall in secure bike rooms.

- DIMENSIONS:**
- 30" Length
 - 6" Width
 - 12" Height (floor)/Depth (wall)
 - Custom sizing also available

ANATOMY OF A BIKE RACK

Pipe Type.

Our round profile bike racks, like this Staple, begin with clean, wheel-abraded, 21' lengths of schedule-40 steel pipe. We use a mandrel tube bender to get smooth, non-crimped bends, and each bend is individually tolerance-checked after bending to make sure every curve is spot on.

Protected, inside and out.

Drain holes are added on pieces that are going to be galvanized, for venting when parts are dipped in the molten zinc bath. The holes also allow the zinc to flow through the inside of the pieces, adding an extra level of protection.

Flange, or in-ground?

All of our steel-plate flanges are 3/8" thick by 5.5" diameter solid steel with (3) 5/8" anchor bolt holes each. You'll see several different flange shapes as you browse the catalog. If you've ordered flange-mount racks, benches, bollards or receptacles, they are centered and tacked onto the leg(s) and then hand-welded with a single seam.

We always do a full weld (as opposed to skip weld) to ensure weather cannot penetrate the part. A full weld also ensures there is no oil expelled during the coating process.

Our metal products are made from 100% steel, one of the most recycled materials in the world.

Recycled steel can be a part of your building's LEED Certification. We have been involved with many LEED Certified projects across the nation and we're very proud to have partnered with many architectural and contracting teams working to create greener cities and towns. We want to live in a healthy environment and we're always looking for ways we can help our clients build a better future.

The majority of our products are made by hand, right here in the Pacific Northwest.

THE RAMBLER Our top-selling line, the Rambler is one of our most elegant and flexible racks. We can custom build it to your specs in a variety of sizes.

DIMENSIONS:

14.4" Length
5.5" Width
36" Height

THE RAMBLER WIDE Part of our top-selling line, the Rambler Wide's broader spacing allows for easier bicycle placement. All our Rambler Wide racks provide 2 points of contact for each bicycle, allowing cyclists to lock bike frames with front and back wheels.

DIMENSIONS:

20.4" Length
5.5" Width
36" Height

THE STAPLE The ever-classic Staple style bike rack is City of Portland approved. We can custom build it to your specs in a variety of sizes.

DIMENSIONS:

30" Length
5.5" Width
36" Height
Custom sizing also available

THE CITY OF PORTLAND STAPLE

This variation on the classic Staple has an extra crossbar for added security. It keeps thieves from removing bolts and slipping bike locks under the rack, also included is a hidden interior cable (if pipe is cut, requires bolt-cutters to remove). For ultimate security, square tubing is also available.

DIMENSIONS:

30" Length
5.5" Width
36" Height
Custom sizing also available

THE SOL

A sleek geometric, similar to the Luna with larger dimensions, the Sol works beautifully with a broad variety of architectural styles. All of our Sol racks provide 2 points of contact for each bicycle, allowing the cyclist to lock their frame with their front and back wheels.

DIMENSIONS:

36" Length
6" Width
32.5" Height

THE LUNA

Similar to the Sol with smaller dimensions, the Luna works beautifully with a broad variety of architectural styles. All of our Luna racks provide 2 points of contact for each bicycle, allowing the cyclist to lock their frame with their front and back wheels.

DIMENSIONS:

28" Length
4" Width
30" Height

THE TILIKUM The Tilikum is a new angle on the classic Staple rack, its longer profile gives better support to leaning bikes and the angled tube allows cyclists to more easily lock their tire and frame together with a u-lock.

DIMENSIONS:
60" Length
5.5" Width
32" Height

THE ARC The Arc is a strong commercial bike rack with a sleek, modern curve that won't overwhelm other architectural elements.

DIMENSIONS:
29.5" Length
4" Width
32" Height

THE RAINDROP The Raindrop is a charming reminder of our Pacific Northwest hearts (but works equally well in other cities by the lake, sea or river).

DIMENSIONS:
37" Length
6" Width
32" Height

THE MINIMALIST The Minimalist circle rack is clean-cut and uncluttered, a great bike parking solution without a large footprint.

DIMENSIONS:
16.5" Length
5.5" Width
36" Height

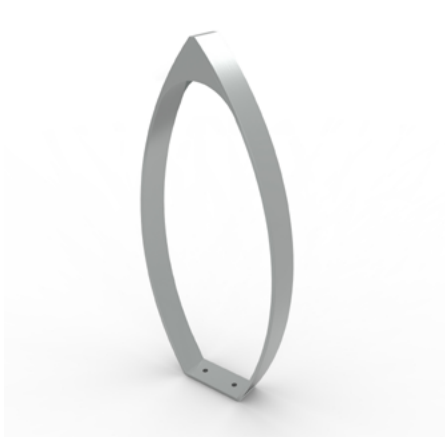

THE STAPLE FLOOR/WALL The ever-classic Staple commercial bike rack is used by the City of Portland for their bike-riding parking enforcement staff. The floor mounted Staple works for recumbent style bikes on the ground or as a space-saver mounted on the wall in secure bike rooms.

DIMENSIONS:
30" Length
6" Width
12" Height (floor)/Depth (wall)
Custom sizing also available

THE CORKSCREW Add personality to your bicycle parking area with the dynamic, narrow-footprint Corkscrew bike rack. Because of the twist, the corkscrew can angle bikes if you have plenty of sidewalk (align the footprint to the wall) or set bikes straight for narrower spaces (align the twist to the wall).

DIMENSIONS:
18.5" Length
10.5" Width
36" Height

THE FIN More contemporary sculpture than a utilitarian bicycle rack, the Fin rack secures cycles with a minimalist grace that belies its robust core.

DIMENSIONS:
16.5" Length
3" Width
36" Height

THE CEDAR Representative of Huntco's commitment to sustainability, the Cedar is an iconic interpretation of our woodsy Pacific NW.

DIMENSIONS:
25" Length
6" Width
37" Height

THE VELO Looking for a playful way to say, "Cyclists welcome here"? This "bicycle" rack calls boldly to cyclists from afar, letting them know the best spot to secure their rides.

DIMENSIONS:
72" Length
14" Width
45" Height

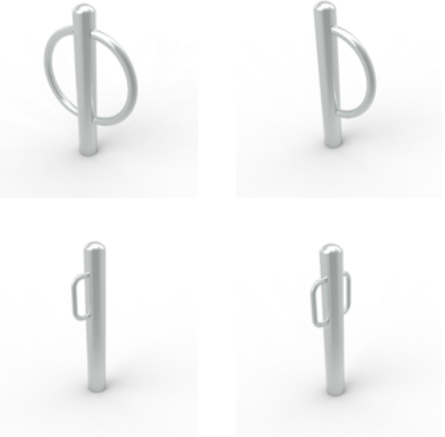

THE DIAMOND Toughest of jewels, our Diamond is made of pipe cutter-resistant square steel tubing, and comes in an array of finishes.

DIMENSIONS:
30" Length
6" Width
36" Height

THE SPOKESMAN This commercial bike rack adds a playful element to a small footprint rack.

DIMENSIONS:
19.5" Length
10" Width
38" Height

4 INCH BIKE BOLLARDS Our 4-inch bollards are available as several styles of bicycle rack. Top: the circle and half-circle, Bottom: Key 1, and 2.

DIMENSIONS: 36" Height 7.5" Diameter	STYLE OPTIONS: - Half-Circle 16.25" Wide - Full-Circle 25" Wide - 1-Key Rack 8" Wide - 2-Key Rack 12" Wide
---	---

HUNTCO PREMIUM RACKS

THE BURNSIDE The refined, high-security Burnside, with its no-scratch protective bumper, is a superior means to show your respect for cyclists by protecting their investment. All our Burnside racks provide 2 points of contact for each bicycle and hold the bike upright, allowing the cyclist to lock their frame with their front and back wheels.

DIMENSIONS:
28" Length
6" Width
33.4" Height

THE FREMONT Slender but strong, the Fremont offers high-security rectangular tube construction and its durable no-scratch bumper protects paint from dings.

DIMENSIONS:
14.5" Length
6" Width
33.4" Height

THE SELLWOOD The geometric beauty of the Sellwood commercial bike rack is highlighted by its no-scratch bumper and high-security rectangular tube construction.

DIMENSIONS:
36" Length
6" Width
32.4" Height

THE BURNSIDE BIKE CORRAL City of Portland approved freestanding Bike Corrals protect bikes and allows them their own "parking lot," on the street – or the sidewalk. (Surface mount only)

DIMENSIONS:
31.5" Width
34.9" Height
- 6 bike 66.1" Length
- 8 bike 93.6" Length
- 10 bike 121.1" Length

THE FREMONT BIKE CORRAL With a slimmer footprint, the Fremont bike corral is a great fit for smaller spaces. (Surface mount only)

DIMENSIONS:
20" Width
34.9" Height
- 6 bike 66.1" Length
- 8 bike 93.6" Length
- 10 bike 121.1" Length

THE BURNSIDE AT THE PELOTON BUILDING, PORTLAND, OR

MULTI-CAPACITY BIKE RACKS

THE STAPLE BIKE CORRAL City of Portland approved freestanding Bike Corrals protect bikes and allows them their own "parking lot," on the street - or the sidewalk. (Surface mount only)

DIMENSIONS:
31" Width
36" Height
- 4 bike 34" Length
- 6 bike 64" Length
- 8 bike 94" Length
- 10 bike 124" Length
- 12 bike 154" Length

THE RAMBLER BIKE CORRAL With a slimmer footprint, the Rambler bike corral is a great fit for smaller spaces. (Surface mount only)

DIMENSIONS:
19" Width
36" Height
- 4 bike 34" Length
- 6 bike 64" Length
- 8 bike 94" Length
- 10 bike 124" Length
- 12 bike 154" Length

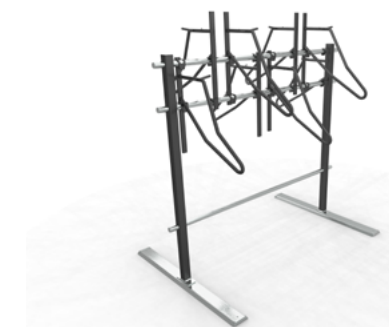

THE HAWTHORNE SINGLE

Freestanding, back-to-back or against a wall. All of our Hawthorne racks are indoor/outdoor and allow cyclists to lock their wheel and frame together. (Surface mount only)

- Length based on 16" spacing, wider spacing available to meet city requirements.

DIMENSIONS:
32.6" Width
84" Height
- 3 Bike 56.8" Length
- 5 Bike 88.8" Length
- 7 Bike 120.8" Length

THE HAWTHORNE DOUBLE The freestanding ultra-customizable double-sided Hawthorne commercial bike rack is the next level in vertical bicycle parking. (Surface mount only)

- Length based on 16" spacing, wider spacing available to meet city requirements.

DIMENSIONS:
55.9" Width
84" Height
- 6 Bike 56.8" Length
- 10 Bike 88.8" Length
- 14 Bike 120.8" Length

THE MARQUAM SINGLE Front or rear wheels slot right in. The Marquam single-sided bike racks provide organized, intuitive, space-efficient bike parking all within a beautiful sculptural design. (Surface mount only)

DIMENSIONS:
27.4" Width
29" Height
- 4 Bike 83.3" Length
- 6 Bike 124.8" Length

THE MARQUAM DOUBLE The Marquam double-sided bicycle racks provide twice as much organized, intuitive and efficient parking in a beautiful sculptural design. (Surface mount only)

DIMENSIONS:
46.5" Width
29" Height
- 8 Bike 83.3" Length
- 12 Bike 124.8" Length

THE HAWTHORNE SINGLE AT THE PELOTON BUILDING,
PORTLAND, OR

THE RAMBLER Our top-selling line, the Rambler multi-capacity rack is one of our most classic and recognizable racks.

DIMENSIONS:
 5.5" Width
 36" Standard Height
 42" Optional Height
 - 5-19 Bike Capacity
 38.4" - 206.4" Wide

THE RAMBLER WIDE The Rambler Wide multi-capacity commercial bicycle rack is the the more spacious big sibling to the Rambler, its wider spacing allows for easier bike placement.

DIMENSIONS:
 5.5" Width
 36" Standard Height
 42" Optional Height
 - 5-13 Bike Capacity
 56.4" - 200.4" Wide

THE ROVER SINGLE This sturdy-yet-portable, freestanding, single-sided commercial bike rack is inspired by turn-of-the-century wrought iron fencing.

DIMENSIONS:
 27.5" Width
 29.75" Height
 - 7 Bike 87" Length
 - 11 Bike 138" Length

THE ROVER DOUBLE The Rover double is a a compact, portable, freestanding, bike rack with clean lines and high density parking capacity.

DIMENSIONS:
 41.5" Width
 29.75" Height
 - 8 Bike 48.5" Length
 - 18 Bike 111.5" Length

THE ROADSTER A playful way to say, "Cyclists welcome here!", this "bicycle" rack calls boldly to cyclists from afar, letting them know the best spot to secure their rides.

DIMENSIONS:
 12" Width
 45.25" Height
 - 5 Bike 118" Length
 - 7 Bike 142" Length
 - 9 Bike 166" Length

THE STAPLE SERIES Our ever-classic Staple bicycle rack in a long, sculptural Rambler format.

DIMENSIONS:
 4" Width
 36" Height
 - 8 bike 67.25" Length
 - 12 bike 110.5" Length

905 MAIN BUILDING, TACOMA, WA

TWO-TIER LIFT-ASSIST BIKE RACKS

THE TIMBERLINE SINGLE The Timberline Single-side bike rack is a commercial-grade bicycle parking system with few moving parts and variable spacing. Unlike other two-tier designs, the Timberline Bike Rack allows for smooth ingress and egress of bikes with a spring-loaded lift-assist top tray, doubling your bike storage with no heavy lifting.

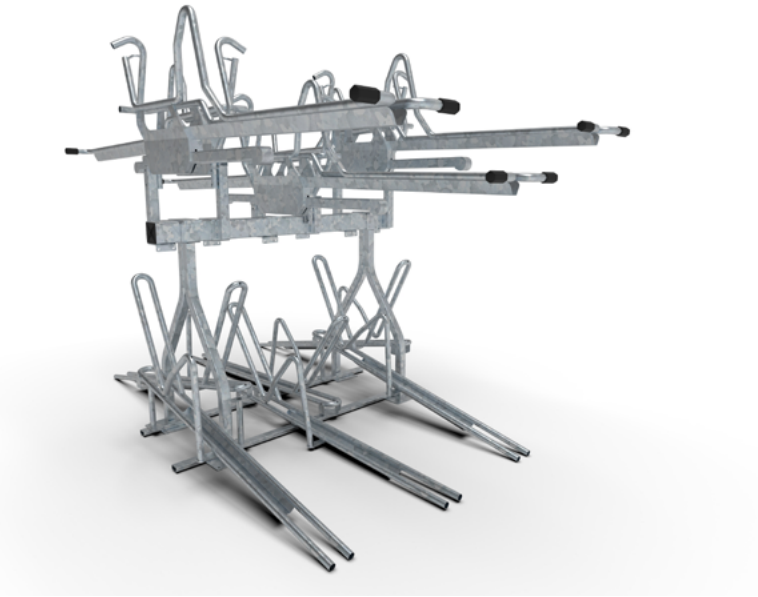

The Timberline is highly customizable and we work to your site measurements to give you the best layout for your specific space.

- DIMENSIONS:**
- 104" Min Ceiling Height (17" or 18" spacing)
 - 96" Min Ceiling Height (24" spacing only)
 - Length depends on your chosen spacing
 - 16 bike maximum per section.

THE TIMBERLINE DOUBLE The Timberline Double-side bike rack is a commercial-grade bicycle parking system like the Single with few moving parts and variable spacing. Unlike other two-tier designs, the Timberline Bike Rack allows for smooth ingress and egress of bikes with a spring-loaded lift-assist top tray, doubling your bike storage with no heavy lifting.

The Timberline double works well in combination with other bike racks in larger bike rooms.

- DIMENSIONS:**
- 104" Min Ceiling Height (17" or 18" spacing)
 - 96" Min Ceiling Height (24" spacing only)
 - Length depends on your chosen spacing
 - 16 bike maximum per section.

BIKE LOCKERS

Highly customizable via perforation, vinyl wraps and stainless steel or powder coat finishes. We have an array of standard perforations available, and can create specialty perforations for your corporate logo or image.

SINGLE BIKE LOCKER Weatherproof, spacious, secure, adaptable and customizable. The Single Bike Locker shows cyclists you care about the security of their ride.

DIMENSIONS:

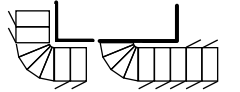

76" Length
39" Width
47.25" Height

HANDLE TYPES:

Keyed Pop-T handle (shown)
Pistol-grip
U-Lock Box

LAYOUT IDEAS:

Works with Wedge and Double Bike locker

DOUBLE BIKE LOCKER The two-bike capacity locker allows for higher capacity in the same footprint as a single. Lockable doors on each side plus an interior divider keep each section separate and secure.

DIMENSIONS:

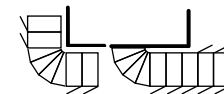

76" Length
39" Width
47.25" Height

HANDLE TYPES:

Keyed Pop-T handle (shown)
Pistol-grip
U-Lock Box

LAYOUT IDEAS:

Works with Wedge and Single Bike locker

RECUMBENT BIKE LOCKER The extra large Recumbent Bike Locker stores one recumbent or two upright bikes side by side with plenty of room for hanging gear and helmets.

DIMENSIONS:

84" Length
43" Width
56" Height

HANDLE TYPES:

Keyed Pop-T handle (shown)
Pistol-grip
U-Lock Box

WEDGE BIKE LOCKER One of the two most flexible and smallest footprint lockers we sell, the wedge allows for roll-in parking and has room at the front for storage of helmet and jackets. The Wedge can be set up in a bank to wrap around trees or buildings, or to add parking to the outside corners of a larger bank of Single or Double lockers.

DIMENSIONS:

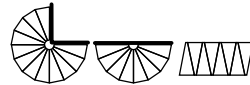

76" Length
39" Width (at door)
9" Width (at rear)
47.25" Height

HANDLE TYPES:

Pop-T handle (shown)
Pistol-grip
U-Lock Box

LAYOUT IDEAS:

Works with
Double and
Single Bike locker

VERTICAL WEDGE BIKE LOCKER

The smallest-footprint locker we sell, the Vertical Wedge Locker stores bikes upright and hanging and is great for small spaces that can help you add great function to odd spaces.

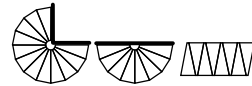

DIMENSIONS:

50" Length
30" Width (at door)
73" Height

HANDLE TYPES:

Pop-T handle (shown)
Pistol-grip
U-Lock Box

BOLLARDS

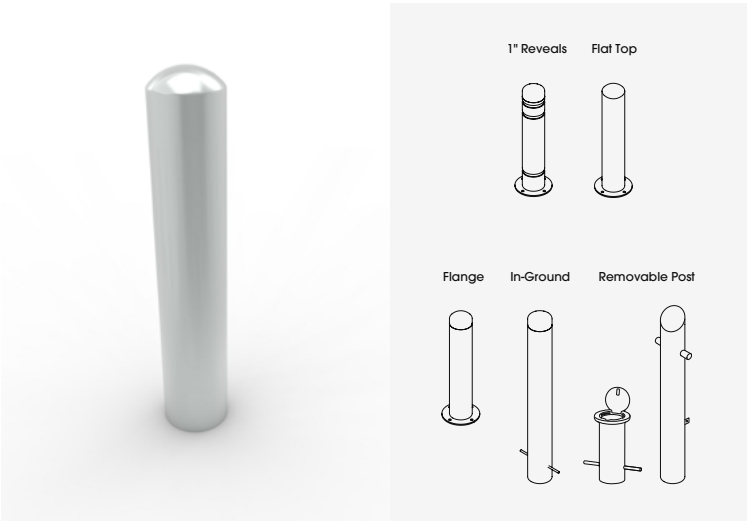

4-INCH BOLLARDS Flexible and decorative, bollards provide the most economical way to separate motor vehicles from cyclists and pedestrians. Our 4-Inch Bollards are also available as several styles of bike rack. (See Page 9)

DIMENSIONS:
36" Height (from ground)
7.5" Flange Diameter

5-INCH BOLLARDS Flexible and decorative, bollards provide the most economical way to separate motor vehicles from cyclists and pedestrians. Our 5-Inch Bollards are available with a flat or decorative angled top.

DIMENSIONS:
36" Height (from ground)
10" Square Flange

6-INCH BOLLARDS Our 6-Inch Bollards are available in a range of decorative and functional styles. Check the website for more, including removable styles.

DIMENSIONS:
36" Height (from ground)
11" Flange Diameter

RECEPTACLES

THE WENATCHEE An extension of the Cascadia line of benches, the Wenatchee works beautifully with or without an accompaniment.

DIMENSIONS:

32 Gallon
27" Diameter
36.5" Height

LID OPTIONS

- Dome
- Dome w/ Ash Insert
- Flat
- No Lid
- Security Cable For Lid

THE SHERWOOD Customizable via color, laser perforation or application of branded signage, the tough 32-gallon Sherwood works hard for you.

DIMENSIONS:

32 Gallon
26" Diameter
36" Height

LID OPTIONS

- Dome
- Dome w/ Ash Insert
- Flat
- Security Cable For Lid

THE CLASSIC 25 These receptacles are tough, beautiful and work with just about any setting. Choose the Classic 25 for small areas or lightly-trafficked spaces.

DIMENSIONS:

25 Gallon
18" Diameter
35.5" Height

THE CLASSIC 55 These receptacles are tough, beautiful and work with just about any setting. Choose the Classic 55 for large areas or heavily-trafficked spaces.

DIMENSIONS:

51 Gallon
23" Diameter
35.5" Height

BENCHES, TABLES & CHAIRS

THE WILLAMETTE BENCH Part of the “modern classic” Cascadia line, the Willamette’s clean, graceful lines work great in contemporary or classic outdoor settings.

DIMENSIONS: 22.25” Width 34” Height
- 72” Length (Standard) - 96” Length (Optional)

THE BACKLESS WILLAMETTE BENCH This backless bench works in harmony with the entire Cascadia line. Seats up to 3 people on the standard build and 4 on the large.

DIMENSIONS: 22” Width 24” Height
- 72” Length (Standard) - 96” Length (Optional)

THE HOPSCOTCH BENCH Hop, skip, jump and relax. Seating up to 3 people & with no sharp edges or corners, the Hopscotch bench has a playful form that’s ideal for schools & playgrounds.

DIMENSIONS: 72” Length 24” Width 33.25” Height

THE LUNA BENCH The visually striking bench seats 3 and pairs beautifully with our Luna and Sol bike racks. (see page 7)

DIMENSIONS: 72” Length 23” Width 25” Height

THE NEHALEM BENCH With a modern/vintage look, the Nehalem blends with a wide variety of design styles. Seats up to 3 people.

DIMENSIONS: 72” Length 24” Width 40” Height

THE SANTIAM BENCH The Santiam’s cantilevered 3 person seat floats above the ground.

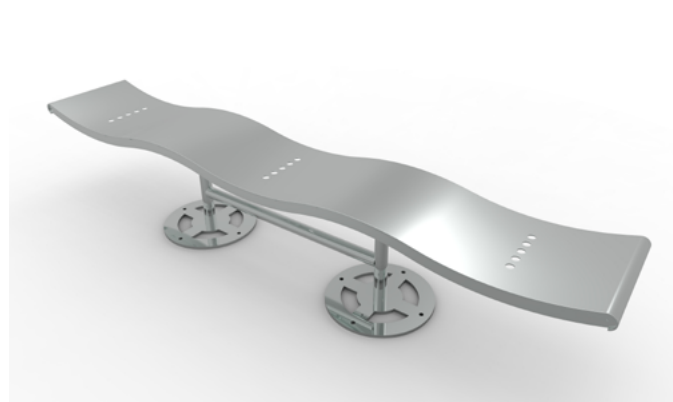

DIMENSIONS: 72” Length 24” Width 20” Height

FINISH OPTIONS: AN OVERVIEW

THE WILLAMETTE TABLE AND CHAIRS The Willamette Table and Chairs work great in contemporary or classic outdoor settings.

DIMENSIONS: Table: 42" Diameter 32" Height
Seats: 22.25" Length 20" Width 34" Height

THE WAVE BENCH Flowing lines and sleek style help this striking and comfortable 4 person bench play nicely with modern architecture and outdoor settings.

DIMENSIONS: 96" Length 15.75" Width 18" Height

THE SPRING SEATS AND TABLE Futuristic and a touch whimsical, our Spring Seats live up to their name, with a bit of bounce to them. They're perfect for gathering around the matching table.

DIMENSIONS: Table: 40.25" Length 40.25" Width 30" Height
Seats: 26" Length 18" Width 19" Height

THE BOCCIE BENCH With an airy, cantilevered design belying its robust construction, the Bocce is the ideal bench for high-traffic outdoor areas. Seats up to 3 people.

DIMENSIONS: 72" Length 27.5" Width 31" Height

THE PRINDLE TABLE AND CHAIRS Get mobile with the Prindle Table and Chairs. The table is anchored while the chairs can be either bolted in place or left free in secure areas.

DIMENSIONS: Table: 36" Diameter 30" Height
Seats: 28.5" Length 26" Width 34" Height

THE PRINDLE BENCH The Prindle Bench is endlessly customizable with a large 3 person seat and back surface that's ready for most any laser cut design you wish.

DIMENSIONS: 72" Length 28" Width 34" Height

STAINLESS STEEL

The Stainless Steel finish is the most enduring and elegant material for your site. Stainless steel does not stain, corrode, or rust as easily as mild steel due to the levels of chromium and nickel that it contains. Unprotected mild steel rusts quickly when exposed to air and moisture. Stainless steel contains sufficient chromium and nickel to form its own film of oxides, both preventing surface corrosion and keeping corrosion from spreading into the metal's internal structure. We use a #4 hand-sanded Satin Finish for a striking smooth shine.

- Discoloration can be easily remedied on-site with a spray cleaner such as Citrisurf 77 plus and a Scotch-Brite pad.

GALVANIZATION

Our Hot-Dipped Galvanizing is a classic steel finish, it's been used for over 100 years to protect steel parts and products in extreme environments. It is one of the most long-lasting and toughest corrosion control coatings for steel, and can last up to 70 years in most environments. The finish is virtually abrasion-proof and has an attractive crystalline lattice that starts off bright and shiny, but soon acquires a velvety matte grey patina.

POWDER COAT

Tough, flexible and low-VOC, Powder Coating is a great way to incorporate bright color, or just create a consistent look and feel for your site. It's a low-waste process (overspray particles are able to be re-used) and when a powder coated rack starts to look old, chipped or needs a color update, it can be removed and recoated to look like new.

THERMOPLASTIC

Huntco's state-of-the-art Thermoplastic Coating is one step beyond our Powder Coat. Thermoplastic is designed for maximum mechanical performance, impact resistance and UV-stability. Because it is thicker than powder coating and it has a little bit of "give" to it, Thermoplastic is the most bike friendly finish on the market. Like the Powder Coat finish, Thermoplastic is also re-finishable.

Our thermoplastic coating is a polyethylene copolymer-based powder. It is environmentally safe, containing no PVCs, phthalates or chlorine components that can emit VOCs.
