

Secure Bicycle Parking Infrastructure

Optional Wrapping & Branding Available

URBAN RACKS

INNOVATIVE | BICYCLE PARKING

■ ■ FEATURES AND BENEFITS

EASE OF USE

- Two bikes per locker with two separate access doors, one on each end
- Slanted roof tops allow for easy drainage
- Integrated floor pan so dirt and leaves won't collect inside the locker
- Optional utility hooks make it convenient to hang helmet and gear

SECURITY

- Three point rotational locking bars for optimum security
- Various locking mechanisms available
- Reinforced heavy sheet metal construction for superior strength and durability

CUSTOM BRANDING (OPTIONAL)

- Lockers can be wrapped with a decal to communicate your brand or city name and help reduce graffiti

SIZE & DIMENSIONS

- 42" W x 51"H x 80"L
- Lockers will fit bikes of almost any size or dimension

SUSTAINABILITY

- LEED compliant
- Lead free powder coating and galvanizing
- Minimum 26% recycled materials used in manufacturing
- 100% recyclable at end of life

FINISH

- Galvanized, stainless steel or powder coated (standard and custom colors available)

Full Replacement & Installation Warranty Available
