Turf!*

MICROBAN®
ANTIMICROBIAL TECHNOLOGY

Featuring built-in antimicrobial product protection to inhibit the growth of bacteria, mold, mildew, and reduce odor.

THE SMART WAY TO KEEP YOUR PET TURF

Fresh and Clean

ULTIMATE PET TURF SYSTEM

Smart Turf with Microban Technology+ Drain Mat + Smart Fill™= Clean Turf With No Odor

PERFECT FOR

- ✓ Synthetic Turf Yards
- ✓ Dog Parks
- ✓ Kennels
- ✓ Roof Top Grass
- ✓ Dog Runs

SMART PET PLUS WITH MICROBAN®

What is Microban?

- Microban® is the global leader in antimicrobial and odor protection.
- Microban technology inhibits the growth of bacteria, mold and mildew, keeping your yard cleaner and reducing odors.

How it Works

- Microban® odor-control and antimicrobial agents are integrated into the blades of the turf during the manufacturing process.
- This patented technology never washes off or wears away and stays active for the life of the product.
- Microban antimicrobial agents prevent stain-and-odor-causing microbes from growing or reproducing. On an unprotected surface, bacteria can double in numbers every 20 minutes.
- By inhibiting the growth of bacteria, mold and mildew, Microban technology helps make cleaning even easier.
- Microban technology helps reduce odors caused by pet urine.

- ✓ Stands up to urine exposure
- ✓ Easy to Install

- ✓ Affordable
- ✓ Effective solution for controlling pet odor

ANTI-MICROBIAL TECHNOLOGY REDUCES AMMONIA ODOR CAUSED BY THE BREAKDOWN OF URINE

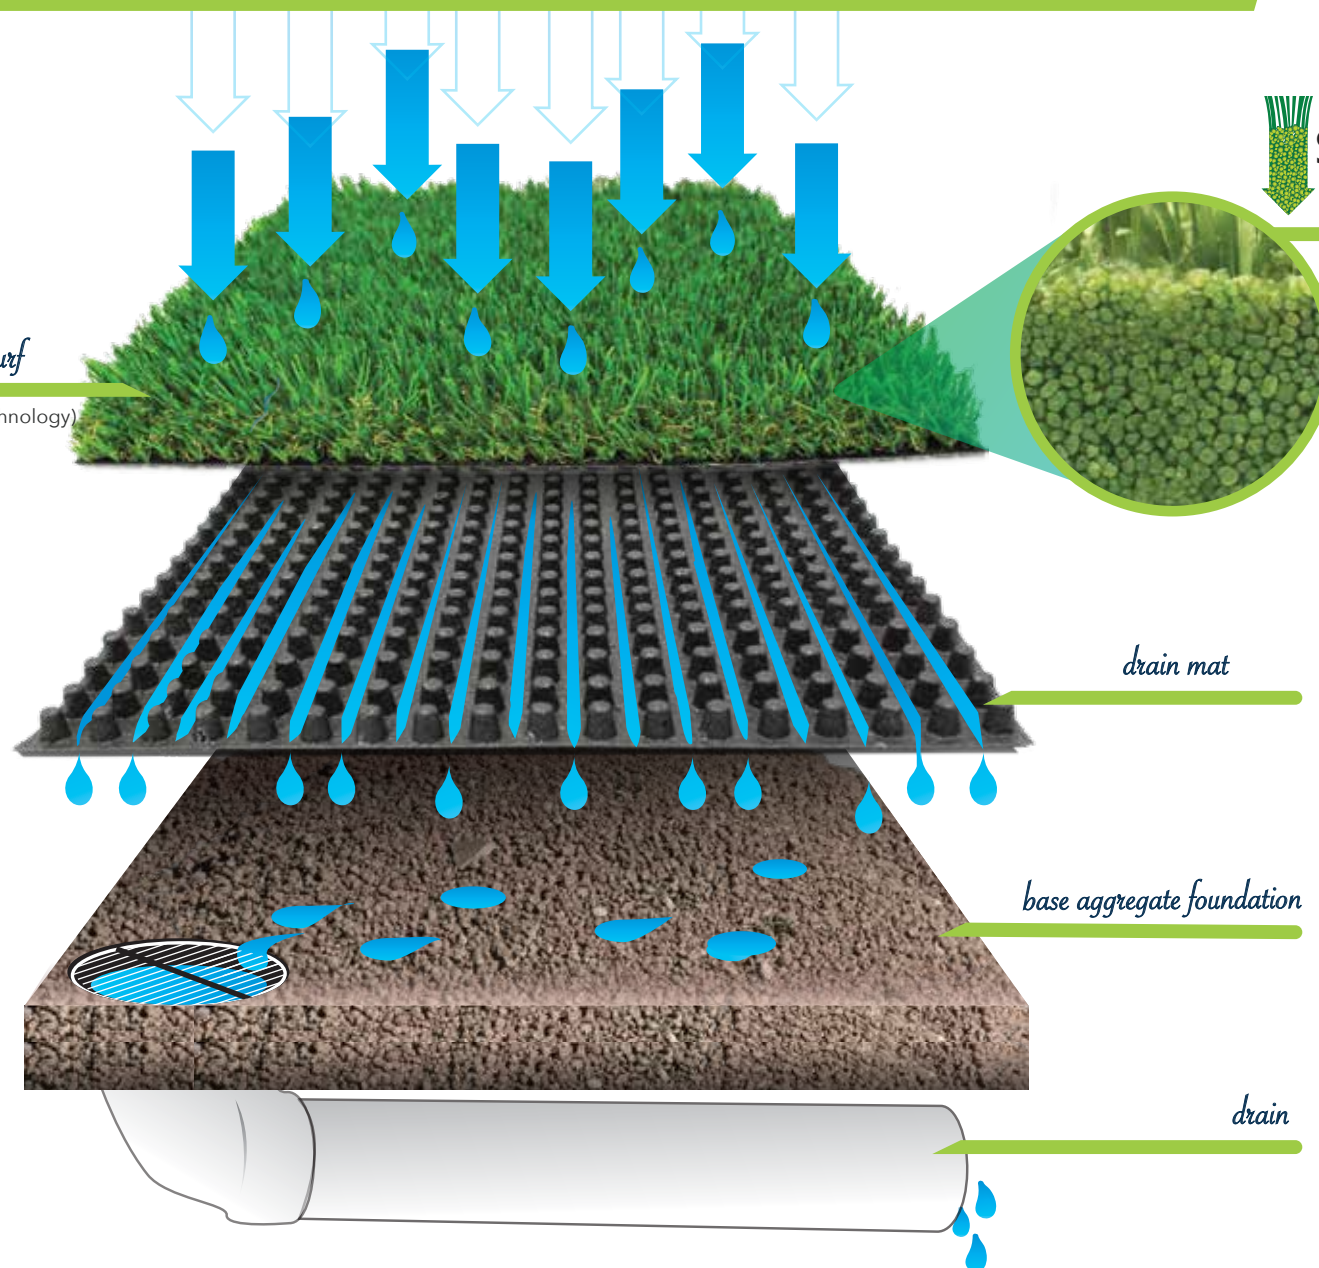

Unprotected Surface After 24 Hours

Surface with Microban® Protection After 24 Hours

smart pet plus turf

(with Microban technology)

SMARTFILL™
HIGHEST QUALITY GRADE INFILL

BENEFITS OF SMART FILL

- Integrated with Antimicrobial which helps control the growth of mold, mildew and odors.
- Round shaped Sand for better drainage and reduces hardening.
- Acrylic Coating reduces absorption of liquids and eliminates harmful dust found in silica sand.

BENEFITS OF DRAIN MAT

The drain mat underlayment creates airspace between the turf and base foundation. The drain mat essentially channels the water and urine to flow naturally to the drains away from the base aggregate foundation.

PET TURF CARE INSTRUCTIONS

- Simply flush the turf areas that have been exposed to urine and waste with a hose once a week or as needed
- If you notice any unpleasant odors a mixture of distilled vinegar and water or "Simple Green" can be used to neutralize them
