

LEAD FREE CERTIFICATE

**OUR PRODUCTS CONTAIN NO DETECTABLE TRACES OF
LEAD OR OTHER RCRA HAZARDOUS WASTE HEAVY METALS**

Test conducted by LA Testing Los Alamitos laboratory – an independent certified facility accredited by the American Industrial Hygiene Association, the National Institute of Standards and Technology and the California Department of Health Services Environmental Laboratory Accreditation Program.

This product was subjected to hot, concentrated acid digestion, followed by an analysis of elements using stringent EPA-approved tests for arsenic, barium, cadmium, chromium, lead, selenium, silver and mercury. Tests included Inductively Coupled Argon Plasma Atomic Emission Spectroscopy (ICP-AES) and Cold Vapor Atomic Absorption (CVAA) spectroscopy, the EPA's 7471A test for mercury.

One SGW objective that must be satisfied is environmental responsibility and sustainability. Resolved: SGW Synthetic Grass is safe for living things.

Our turf undergoes rigorous, stringent testing to ensure safety and non-toxicity. In one example, SGW and its components were scrutinized by an independent certified laboratory to determine content of lead or other hazardous-waste heavy metals. Tests determined no detectable trace, and proved the product is compliant with EPA, Center for Disease Control, Consumer Product Safety Commission and California Proposition 65 requirements.
