

SubSeal®

Liquid Waterproofing & Crack Suppression Membrane

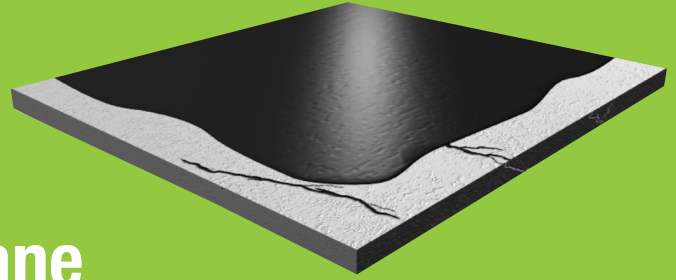

The Easiest Way to **Waterproof!**

SubSeal® Is a high solids, one part, ready-to-use elastomeric membrane for waterproofing and crack suppression that meets and exceeds ANSI A 118.10 specifications for load bearing, bonded waterproof membranes.

Suitable Substrates: concrete, backerboard, mud beds, gypsum board, tongue & groove, OSB, tile, stone, terrazzo, VCT/VAT and more.

SubSeal®

Liquid Waterproofing & Crack Suppression Membrane

Features & Benefits

- For interior and exterior applications
- Use as a stand alone liquid waterproofing and/or crack suppression membrane.
- Thin, low profile membrane with superior flexibility when cured
- Protects against reflective cracking and de-lamination.
- Assures waterproof integrity of corners and seams
- Eases application in hard to reach areas
- Quick drying; Same day tile installation; Flood test in less than 24 hours.
- Effective barrier against mold
- Easily applied with a trowel, roller, brush or sprayer
