SAFETY SURFACES & RUBBER MOLDED PRODUCTS

OVERVIEW

VistaLine - your urban scene re-imagined, renewed, and naturalized!

Softline Solutions has a passion for providing safe and enjoyable urban areas. This passion has led them to develop unique VistaLine products to provide architecturally pleasing natural and social icons for uses in urban landscapes, playground areas, streetscapes, auditoriums, showrooms, the film industry and more!

SAFE

- can be manufactured to meet specified fall heights for playground use.

LOW COST

- transportation and environmental savings.

DURABLE

- ideal in high activity areas and climatic conditions.

REALISTIC

- all products have been developed with a passion for making authentic and naturalistic products.

LIGHTWEIGHT

- easy installation.

CUSTOM DESIGN

- unlimited design and colour options available.

ENVIRONMENTALLY FRIENDLY

- made from 100% recycled rubber material.

FOOTHILLS RANGE

The VistaLine™ team, inspired by the rolling foothills of the Rocky Mountains, have replicated natural boulders with smooth, rounded edges creating a natural and realistic look.

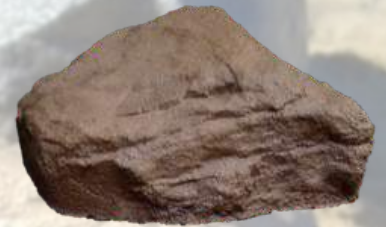

"The Allen Gray Child Development Centre highly recommends Softline Solutions to anyone looking for quality products and service for their playground needs. The rubberized Pour in Place system is made from 100% recycled rubber and has been a wonderful component in ensuring that children are safe, while being environmentally friendly in our playground space."

We were excited to incorporate VistaLine Rubber Products into our play space this month. This has really enhanced the play and imagination of the children outdoors and created a more natural environment in their space. Softline has been a great company to work with. The delivery of service from start to completion has been professional, friendly and punctual. This is the second time we have used Softline and we will definitely use them again in the future."

- Allen Gray Child Development Center

Product Code:	Product Name:	Dimensions (lwh):	Finish:
VL_FHL-N	Large Foothills	38"x24"x18" / 966mm x 610mm x 458mm	Natural

INSTALLING VISTALINE PRODUCTS

FREE MOUNT

1

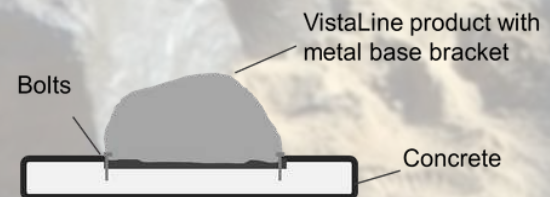

Recommended for VistaLine products used for temporary display, such as show rooms, theatre display or for landscape purposes.

SURFACE MOUNT

2

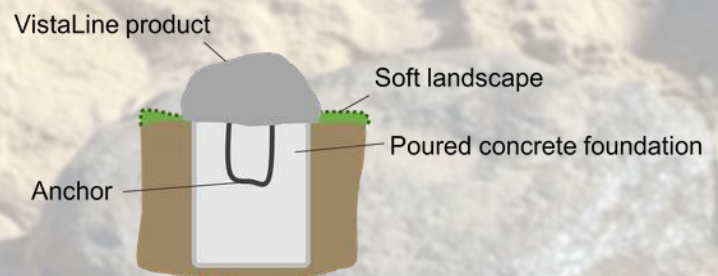

Recommended for VistaLine products that are being installed onto a concrete surface, such as seating areas or street art. The fixing bracket is designed to be non-obtrusive to prevent any trip hazard.

CONCRETE ANCHOR

3

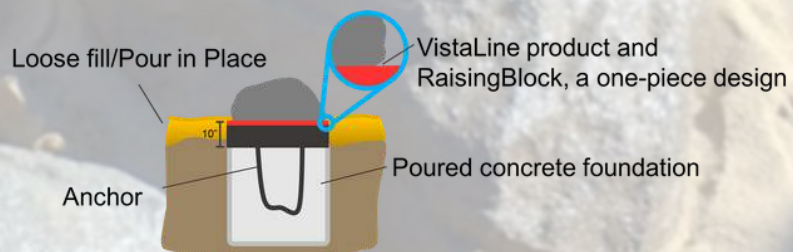

Recommended for VistaLine products that are being installed in playground areas or in soft landscapes where they are to be permanent fixtures.

VISTALINE RAISINGBLOCK

4

Recommended for playground installations where loose-fill material such as sand or wood chips are present. The RaisingBlock elevates the VistaLine product 10" (254mm) so that the VistaLine product features remain visible.

TRIAx TESTING

SAFETY IS OUR FIRST PRIORITY:

Softline Solutions works hard to improve even our greatest innovations. It is not enough to be the best in the industry; in fact, we work hard to pursue ongoing design and development. From start to finish, Softline Solutions applies decades of research and field experience to our products to ensure that our customers experience the best safety products in the industry.

Softline's commitment is to provide healthier and safer public spaces for humanity. This is why Softline has taken the extra step in proving its products and surfaces meet globally recognized standards. Softline Solutions is certified by and a member of the International Playground Equipment Manufacturers Association™ (IPEMA™).

Visit ipema.org to verify certification.
