WELCOME TO THE WORLD OF GTIMPAX

where safety, versatility, and innovation come together to redefine your spaces. With an expansive array of surfacing choices, GTImpax offers a remarkable range of solutions that extend beyond mere functionality. Whether it's the vibrant playgrounds echoing with laughter, dynamic recreational areas pulsating with energy, or invigorating fitness spaces inspiring healthier lifestyles, GTImpax safety surfaces stand as the epitome of excellence.

In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA) provides a Third Party Certification program whereby a designated independent laboratory, TÜV SÜD America Inc., (TÜV), validates a surfacing manufacturer's certification of compliance to ASTM F1292, Standard Specification for Impact Attenuation

Under and Around Playground Equipment Performance Criterion (in its entirety); ASTM F3351, Standard Test Method for Impact Testing In Laboratory at Specified Test Height; and for an engineered wood fiber manufacturer its certification of compliance, also to ASTM F2075, Standard Specification for Engineered Wood Fiber for Use as a Playground Safety Surface

Under and Around Playground Equipment; and for a Loose Fill Rubber manufacturer its certification of compliance, also to ASTM F3012, Standard Specification for Loose Fill Rubber for Use as a Playground Safety Surface under and around Playground Equipment. A list of current validated products, their thickness and critical height may be viewed at www.ipema.org.

UNCOMPROMISED SAFETY

GTImpax safety surfaces prioritize the well-being of all users. Our surfaces reduce impact by cushioning falls, ensuring a safer environment for play and recreation.

TAILORED SOLUTIONS

At GTImpax, we understand that every space is unique. With a variety of surfacing choices, we offer tailored solutions to suit your specific needs.

VIBRANT IMAGINATION

Our surfaces are not just protective – they are canvases for creativity. With a wide range of colors and design options, GTImpax ordinary spaces into imaginative playgrounds.

COMPLETE PEACE OF MIND

Choosing GTImpax means choosing a hassle-free journey from concept to reality. Enjoy the benefits of a safer, more imaginative space, backed by our expertise.

ENDURING QUALITY

Our safety surfacing is constructed using durable materials and maintains its integrity even in high-traffic areas. GTImpax surfaces stay vibrant and intact, season after season.

GTIMPAX POURED IN PLACE RUBBER

Experience safety and design versatility with GTImpax Poured in Place Rubber and Recycled Bonded Rubber Surfacing. These innovative solutions revolutionize playgrounds and recreational spaces by offering an unparalleled blend of protection, creativity, and durability. Our Poured Rubber Surfacing not only absorbs impact to ensure a safer environment for play but also opens up a world of design possibilities.

SEAMLESS ADAPTABILITY

Our Poured in Place Rubber can be molded to fit many shapes or contours, accommodating the unique layout of your space while maintaining a consistent, cushioned surface.

LONGEVITY & LOW MAINTENANCE

Poured in Place Rubber is resilient against heavy use and changing weather conditions. Enjoy years of vibrant, safe, and imaginative play with routine maintenance.

Poured in Place Rubber is an excellent option for more accessible and inclusive play as the seamless properties provide an easier route to activities for all, including those using mobility devices.

GTIMPAX RUBBER INTERLOCKING TILES

Rubber tiles are a cutting-edge solution for creating safer and more durable recreational surfaces. Crafted and produced in the USA with precision from recycled rubber tires, this surfacing system boasts significant features that set it apart from other options on the market. Most importantly, our patented interlocking design allows for a secure and reliable installation. With GTImpax Tiles, enjoy peace that you've invested in a reliable, resilient, and user-friendly solution.

SHOCK ABSORBENT FOR ENHANCED SAFETY

Ideal for playgrounds and sports facilities, effectively reducing the risk of injuries.

SMOOTH, PATENTED INSTALLATION FOR CONVENIENCE

Our tiles are designed for easy installation, providing a hassle-free process for both professionals and DIY enthusiasts.

WEATHER RESISTANCE AND UV STABLE

Highly resistant to weathering, UV rays, and other environmental factors, ensuring longevity and minimal maintenance requirements.

PATENTED INTERLOCKING INSTALLATION

EXPERIENCE THE PERFECT SYNERGY OF NATURE & INNOVATION WITH GTIMPAX SYNTHETIC TURF SURFACING

Experience the perfect synergy of nature and innovation with synthetic turf. All of the beauty of grass and the compliance of safety surfacing without the upkeep of natural grass.

YEAR ROUND GREENERY

Say goodbye to the challenges of maintaining natural grass. GTImpax Synthetic Turf maintains its vibrant green appearance throughout the year, without the need for constant watering, mowing, or fertilizing.

SOFTNESS & SAFETY

Rest easy knowing that your play area is cushioned with care. The Synthetic Turf offers a soft and impact absorbing surface, minimizing the risk of injuries during play and activities.

DESIGN FREEDOM

Customize with intricate patterns, logos, and designs, allowing you to craft a unique and inviting space that aligns perfectly with your vision

LOOSE FILL SURFACES

GTImpax Loose Fill Surfaces, such as engineered wood fiber, recycled loose fill rubber nuggets and shredded rubber, versatile safety solutions for playgrounds and recreational spaces

NATURAL IMPACT ABSORPTION

Engineered wood fiber and rubber options create soft, cushioned surfaces that reduce the risk of injuries from falls.

SUSTAINABLE SOLUTIONS

The use of recycled materials in rubber nuggets and shredded rubber supports environmental consciousness and responsible usage.

ECONOMICALLY CONSCIOUS

Loose fill surfacing can be installed by volunteers without professional service allowing for money savings at first install

Protect your playground with our durable rubber wear mats. Made from recycled materials in the USA, these ground covers help prevent early erosion under high use zones like swing bays and slide endings. Engineered for longevity and slip resistance, GTImpax mats will help shield against heavy traffic and environmental factors that can cause surfaces to become non-compliant.

GO BEYOND THE PLAYGROUND

Go beyond playgrounds with GTImpax as we expand our expertise to bring you top-tier recreational safety surfacing systems for aquatic spaces, community and park trails, and court renovations. Elevate your outdoor community's experience with our innovative solutions tailored to enhance safety, durability, and aesthetic appeal across various recreational spaces. Whether you're envisioning a dynamic aquatic environment, revitalizing community trails, or upgrading sports courts, GTImpax is your trusted partner for all your surfacing needs.

PLAYFUL DESIGNS

When designing recreational surfacing, it's important to consider safety, accessibility, and durability. Surfacing has evolved into much more than a safer play requirement. Consider surface play, gaming and educational activities designed right into the surface. Bright colors, patterns, and interactive designs like mazes or hopscotch help attract families to your play space.

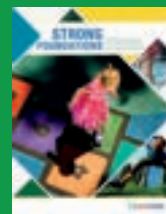

BEFORE

AFTER

MAINTAINING YOUR INVESTMENT IN SAFER PLAY

GTImpax understands that durability is key, and our surfaces are engineered to withstand dynamic play. Routine maintenance involves regular cleaning to remove dirt and debris, ensuring the surface retains its vibrant colors and slip-resistant properties. Periodic inspections to identify and repair any minor damage, such as small cracks or loose edges, will extend the life of your poured-in-place surfacing. Our team of experts is equipped to handle repairs of all types. GTImpax can provide repairs for any wear and tear, addressing issues like cracks, loose edges, or fading colors promptly.
