

FOLIASCREEN®

CHANGE THE WAY YOU FEEL

VISTAFOLIA

A close-up photograph of a plant with green, scale-like leaves and small, light pink flowers. The plant is the central focus, with its leaves and flowers filling the frame. The background is a soft, out-of-focus green, suggesting a natural environment. The lighting is bright and even, highlighting the texture of the leaves and the delicate structure of the flowers.

Vistafolia® is not simply a more cost-effective and zero maintenance alternative to a real green wall (although both these statements are true). Vistafolia® was created to solve the problem of greening spaces where real plants cannot grow.

RESEARCH AND DEVELOPMENT COMMIT US TO EXCELLENCE

Our success depends on innovation, which means constantly improving on product design and durability, anticipating new needs for natural looking environments and creating seamless and better interactions between our green walls and our customers.

The Vistafolia Panel

The Vistafolia Panel is a core component of the Foliасcreen. Originally created as a standalone product, every leaf of every plant has been designed with the emphasis on quality and realness. By combining different tones, colours and shapes, every panel that adorns a Foliасcreen has the ability to make you think you're looking at natural planting.

KEY FEATURES

- ✓ Standard size of 800mm x 800mm / 31.5" x 31.5"
- ✓ Durable panels manufactured to ISO 9001
- ✓ UV Stable & Fire Rated with international test certificates
- ✓ REACH and RoHS compliant
- ✓ Easy to Install
- ✓ Sixteen different hand-designed plant varieties
- ✓ Customisable with Colour & Texture Boxes (see p.54)
- ✓ Recyclable

Paul Alder leads Vistafolia® and has 25 years' experience in the landscape industry. He has won multiple awards including 12 national awards, 5 Chelsea medals including the highly coveted Gold, and a Gold medal at Hampton Court Flower Show.

A personal *touch*

"As a multi-award winning horticulturalist with 25 years' experience of building gardens for prestigious commercial and residential projects, I realised there is a demand for a flexible system that creates the look of a beautiful vertical garden wall planting without the hassle of using real plants that require natural light and ongoing maintenance."

6

Committing to a *greener future*

We are proud to be partnered with the UK government, Innovate UK & The University of Surrey. Together, we are leading the field in bio-based polymer research. By purchasing our products, you are participating in our push for a better, cleaner future, as we reinvest our profits into developing sustainable and renewable products for the future.

Dr Elham Ketabchi is leading the project which aims to establish a new product formula that involves environmentally friendly constituents.

Different heights of planting and varying tones of green give the illusion of new growth

Why Foliascreen?

IT'S EFFECTIVE,
FLEXIBLE,
QUICK AND FUN

Industry Leader

Say goodbye to traditional office screens and become a part of the global green wall revolution.

Versatile

The Foliascreen is at home in any environment and can be adapted to your individual needs.

Solutions

The benefits of the Foliascreen are varied and wide-reaching. From improving aesthetics, to creating a better overall working environment, our clients are already reaping the benefits of using our products.

GEOMETRIC DESIGN ENSURES STYLISH AESTHETICS

10

**FULL SIZE
MODULE**

Research has shown that having a work environment that is visually appealing can increase productivity and staff morale, and nothing could add a more sophisticated style in your office than the Foliascreen.

11

STANDARD SIZE MODULE

STUNNING NATURALISTIC LOOK

Having plants present in your office has been linked in studies to a wealth of attributes, from the potential to increase memory retention by up to 20%, to reducing the likelihood of stress-related depression. The amazing benefits of plants should not be underestimated, and more and more businesses are starting to reap these rewards by greening their surroundings. Even hospitals have shown that realistic decorative foliage can decrease recovery times in patients.

STUNNING DESIGN

The perfect solution for screening and dividing spaces.

FEEL BETTER AT WORK

Geometric design combines with natural looking foliage.

ACOUSTIC PROPERTIES

Clarity of thought is key when it comes to productivity. Use the Foliasscreen to block out that distracting background noise and focus your mind on the task at hand.

INCREASE PRODUCTIVITY AND WELL-BEING

BENEFITS

Enhances the Interior Environment

Build an atmosphere that means your colleagues and your customers get the very best from you.

Increases productivity

Get the extra 10% from your staff that comes with having a good working environment.

Reduces stress

A room close to nature is guaranteed to put you at ease and calm your mind.

Improves well-being

We all need to look after ourselves as much as possible. The Foliascreen gives you the best chance to do just that.

Reduces background noise

You haven't got time to have everything repeated, so block out those noisy distractions.

COST EFFECTIVE SOLUTION

Business is all about returns. The Foliascreen might just be the key to improving your bottom line.

The benefits of the Foliascreen should not be underestimated.

Ultimately, all of the tangible qualities of the product add up to one big result – an improved working environment. This in turn creates an opportunity to increase revenue for any business. Whether that be through increased productivity because of a more relaxed and better motivated workforce, or perhaps a higher level of client satisfaction that leads to that customer spending a little bit more. The addition of the Foliascreen to your workplace might be more financially rewarding than you realise.

APPLICATIONS

The Foliасcreen can be used in almost any environment

Our clients are driven by their passion to create uplifting environments that bring the great outdoor indoors, without putting any unnecessary maintenance on their plate. The applications of the product are limited only by your imagination. The Foliасscreen is at home anywhere that you might like to utilise it. If you like to regularly redefine your space, why not add our castors to your screens to make them easy to move.

Add Colour and Texture

Change the overall finish
of your wall to look the
way you want

YOUR WALL YOUR WAY

Simply slot the plants in to add bursts of vibrant colours and extra depth to your Vistafolia® Panels to give you the **LOOK AND FINISH THAT YOU DESIRE**

CREATE SHAPES

Mix & Match

Additional plants give the wall a random element that is even more akin to a natural wall that can be used on their own or in a combination.

CUSTOMISED WITH COLOUR BOXES

40

Soft Lavender Colour Box

Cascading greens blended with stunning blue lavender and blossoms.

Spring Pink Colour Box

A timeless combination of elegant pink flowers and earthy green plants.

Stunning coloured flowers to draw the eye.
Change the colours from season to season,
or simply as your mood suits.

41

Stunning selections of complementary foliage that adds those finishing details to your Foliascreeens.

Lush Green Texture Box

A tumble of wild grasses and earthy ferns merged with green-fused and delicate flowers.

Large Grasses Texture Box

A selection of large 18" grasses, shades of green and burgundy.

Hassle free customisation that allows you to unleash your inner creativity.

Trailing Ivy Texture Box

Trailing ivy for a trailing finish that can be used to add volume, or even as a standalone plant for baskets and planters.

43

Trailing Buxus Texture Box

Trailing buxus for a trailing finish that looks at home on the panel, or adding an extra dimension to an indoor or outdoor display.

DIVIDERS

STANDARD HEIGHT

Create straight dividing walls and corridors

The modules can be configured to suit virtually any application. They can be utilised as stand-alone modules, or combined to give a bold, visually appealing finish to your space. The simple, slot-together install also means that you can add additional modules at a later date if you wish.

FULL HEIGHT

STANDARD HEIGHT

FULL HEIGHT

“L” DIVIDER

Simply add “corner” blocks to the straight unit to create internal and external foam corners.

“T” DIVIDER

Create junctions to divide the space into multiple areas.

**“X” DIVIDER**

Branch off in all directions and create any shape that your layout requires.

45° DIVIDER

Change directions without the need for right angles, and create new and unique shapes.

50

90° WORK BOOTHS

Zig Zag patterns create corners of space that can be utilised for workspaces.

“U” DIVIDER - INTERNAL FOLIAGE

Surround and separate areas to create even more new spaces and bring a sense of order.

“U” DIVIDER - EXTERNAL FOLIAGE

Put the foliage on the inside or outside, depending on the desired function.

MEETING ROOMS

90° EXTERNAL FOLIAGE MEETING ROOM

Create meeting spaces of different lengths.

90° INTERNAL FOLIAGE MEETING ROOM

**45° EXTERNAL FOLIAGE
MEETING ROOM**

**45° INTERNAL FOLIAGE
MEETING ROOM**

BREAKOUT SPACES

The Foliасcreen is completely versatile and gives you the freedom to configure your space in any way you wish. What's more, with a few adjustments you can keep things fresh and mix it up as you need.

EXPLODED VIEW

The system is effortless to construct and is designed to last. The base plate holds the unit securely in place, and is also available with castors for easy reconfiguration.
