Mid-Century Modern Doors

Mid-Century Modern Features

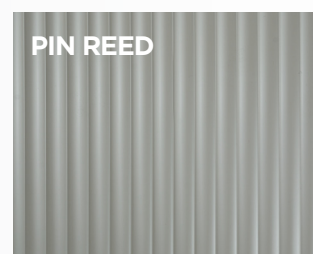

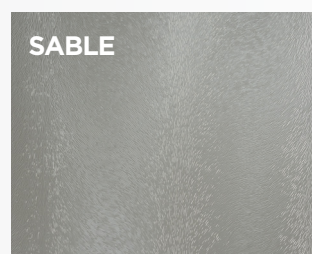

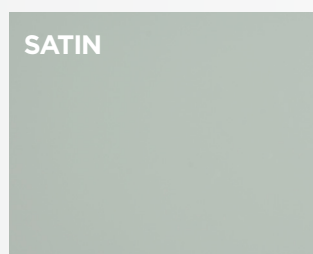

Nothing creates a warm welcome like a brightly painted front door. And no wood door holds paint as well as our Fiber Tuff fiberglass doors. Like all Ply Gem fiberglass doors, our Fiber Tuff doors won't dent, warp, rot or rust and insulate up to six times better than wood doors.

Frames

With a modern design these door frames are a perfect addition to any modern styled home. The low profile and a smooth finish with no exposed screws or plugs enhances the clean lines for a polished finishing touch to your front elevation.

Glass Options

0764 and 2215 doors are also available in a variety of decorative glass options. Please see our website for all the options www.plygem.ca.
