Loyola Marymount University - Los Angeles,

Sample Rooftop Cross Section

Building an athletic field on a rooftop presents unique challenges not the least of which is how to access the site, how to limit excess weight, and how to drain the field effectively when there is no stone basin below the turf. Sports fields have traditionally been built on the ground, but with rising land prices and a lack of undeveloped open space, building and parking lot tops have recently become an attractive option for sports surfaces. Brock base systems provide a lightweight quality solution for drainage, safety, performance, and installs fast, without glues, tapes or heavy equipment, not to mention its' environmental benefit.

Cal Baptist University- Riverside, California

Pilgrim School - Los Angeles, California

University of California - Los Angeles, California

Hoe Valley- Woking, United Kingdom

United World College, Tampines Campus - Singapore

Brock drainage keeps rooftop field playable even in tropical storm.

"The Brock base is performing superbly. There hasn't been any indication of puddling that we have seen, even in the heaviest tropical storm. Our other artificial turf area which is next to this one, can be out of action for 30 minutes after heavy rain - the Brock system contributes to ensuring that our new surface is always in play."

Hugh Richards
Director of Sport, Expeditions & Activities
United World College SEA, Dover Campus, Singapore

Rooftop installation - Parma, Italy

Star City Goals Center - Birmingham, United Kingdom

Reference List

Field Name	Location	Sport
Loyola Marymount University	Los Angeles, California	NCAA Soccer
UCLA	Los Angeles, California	Multi- Sport
Pilgrim School	Los Angeles, California	Multi- Sport
Central LA Learning Center	Los Angeles, California	Multi- Sport
Cal Baptist University	Riverside, California	Soccer
Montgomery Bell Academy	Nashville, Tennessee	Soccer
Waterside School	Stamford, CT	Multi- Sport
West Middle School	Hartford, CT	Multi- Sport
Gonzaga CollegeHigh School	Washington, DC.	Multi- Sport
Mount Si High School	Snoqualmie, Washington	Multi- Sport
UWC - Dover Campus	Singapore	Field Hockey
UWC - Tampines Campus	Singapore	Soccer, Rugby
Star City Goals Center	Birmingham, United Kingdom	Soccer
Hoe Valley	Woking, United Kingdom	Soccer
Aachen Soccer Complex	Aachen, Germany	Soccer

Time savings, guaranteed performance and safety, efficient drainage and reduced environmental impact are just some of the many benefits that the Brock systems offer. For more information about Brock, please visit our web site at www.brockusa.com.
