TABLES & SEATING
510, 511, 512, 513, 514, 515, 516

What is one of the simplest ways to make a space inviting? Add seating. Both visually and functionally, a chair transforms an outdoor space into a place for people. When we designed this series, we set out to make a chair that makes every detail welcoming. Ipe wood and wood grain recycled plastic seating surfaces were chosen for their softness and warmth. A contoured seat with round corners provides comfort and safety. The

handle cleverly cut out of the backrest was inspired by the famous observation that people move chairs -- even just a little -- before they sit down in a public space. The welded aluminum frame is sturdy, surpassing many expectations for strength and has no flex, bringing you peace of mind. Spaces that combine dining height, bar height, and loungers bring a diversity of seating for people and their activities.

DINING HEIGHT

510NA

- Welded aluminum
- Stackable
- 17-21 lbs

510

- Welded aluminum
- Stackable
- 20-23 lbs

513

- Welded aluminum
- 4ft long
- 34-40 lbs

514-30

- Steel
- 30" x 30"

514-50

- Steel
- 30" x 5'

485

- Steel
- 30"

LOUNGE HEIGHT

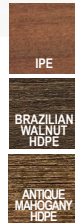

512-20NA

- Welded aluminum
- 19-23 lbs

512-20

- Welded aluminum
- 22-26 lbs

512-40

- With or without armrests
- Welded aluminum
- 42-55 lbs

516

- Steel
- 4' long

BAR HEIGHT

511

- Welded aluminum
- Stackable
- 17-19 lbs

515

- Steel
- 30" x 5
- 42" tall
