

PRECAST CONCRETE & GFRC PLANTERS FOR YOUR HARDSCAPE

Planters can be used in many settings from pedestrian areas to patios, parks, streetscapes, storefronts, and other outdoor venues. They are designed to be a long lasting, low maintenance addition to any projects. We have a wide range of standard designs available in precast concrete and lighter weight GFRC for rooftop and amenity areas. Custom planters with engraved logos are also available for businesses, universities, and other institutions.
