

PREMIUM COLOR-MATCHED TRIM

Made from the same advanced composite technology as Everlast siding, our trim provides leading-edge technology to reduce expansion and contraction, along with a more robust body design offering additional stability.

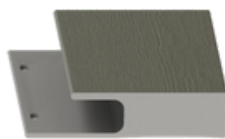

Features + Benefits

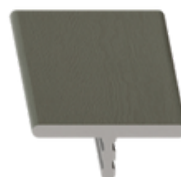

- Mill it - Cut it - Achieve most all standard and custom architectural looks.
- Trim windows, including bays/bows and doors, with stability and confidence.
- Multiple fastening options: with or without nailing hem, finishing nail, and Everlast/Cortex Fastening System.
- Ability to mechanically fasten joints, giving a more stable and cleaner appearance while reducing installation time.
- Increased pocket depth (now 1.20 inches) to better manage expansion and contraction on longer runs.
- Everlast Premium Color-Matched Trim collection is available in all 15 (100% acrylic capstock) colors, including Everlast/Cortex Fastening System.
- Everlast Premium Color-Matched Trim features CedarTouch® woodgrain finish to give you the authentic look of real cedar.
