MERCURY IGNITION

The **Mercury Ignition** provides a layer of safety in the event a burner's flame is unexpectedly extinguished. This innovative new design provides a quick, automatic shutoff of gas flow and an easy reset to reignite the flame when ready to address building and safety code requirements, as well as personal safety preferences.

IGNITION PILOT ASSEMBLY

- Delivers unmatched BTU output of 240K BTUs compared to only 140K BTUs from any competitor
- Provides superior gas line protection from water and debris when coupled with the **WATERSTOP™** fitting
- No electricity required - battery operated
- 3 year Residential and 1 year Commercial Warranty

Warming Trends is the only US-based manufacturer of superior fire features, offering the patented CROSSFIRE® brass burner. As a vertically integrated company, we manufacture all our prime products in our Colorado facilities, resulting in outstanding quality and industry-best lead times. We offer hundreds of standard burners and endless custom options to fit your project(s). Our burners are built to last a lifetime and are backed by a lifetime guarantee.
