

WATER MATRIX™  
THE FUTURE OF WATER SOLUTIONS

## YRCC 845

81 Townsgate Ave, Thornhill

# Water Savings Review

YRCC 845 commissioned Water Matrix to complete an "OPT IN" toilet retrofit program for interested residents during Spring of 2023. Participating owners accessed the program voluntarily and were offered the base model toilet at no charge. All model upgrades were paid for by individual owners. This program facilitated the replacement of 82 toilets or 62% of all toilets on property. 3 litre Hennessy & Hinchcliffe toilet models were used to replace existing toilets of various flush volumes.

**82%**  
SURVEY  
SATISFACTION

After Installation, residents were surveyed about their new toilets. Over 82% satisfaction achieved including positive feedback on:

- Toilet performance and flush capability
- Installation services rendered and quality of work
- Overall customer service and program experience.

## OPT IN

*Toilet Retro Fit Results*

### Water Consumption Reduction

REDUCED  
**34%**

After installation, water bill review identified that consumption had decreased by 34% vs the same time period in the previous year.

### Return on Investment

**9.25**  
MONTHS  
PAYBACK

This project achieved full return on investment in 9.25 months, providing over \$3,000 per month in water savings.

### Installation Time

INSTALLED  
IN  
**<3 DAYS**

This project was completed in <3 business days, with approx 30 toilets installed per day. All removal, install and disposal provided by Water Matrix.
