

**Durable
GreenBed™**
FOR THE SERIOUS GARDENER

What can your students learn from a garden?

Plenty, as it turns out!

As school administrators, educators, local farmers, advocates for sustainable agriculture, and ordinary citizens, interest is growing in sourcing our food locally and the best ways to provide healthy options.

As you know hands-on learning is one of the best ways to teach the next generation the wonderful benefits of gardening and school gardens are the perfect laboratory.

To Order, Call: 541-368-7935

Or, order on-line at: **www.durablegreenbed.com**

Raised garden beds from Durable GreenBed™ provide valuable lessons in:

- **Botany**—learning about plant identification and natural growth cycles
- **Soil Science**—what makes a healthy growing medium, amendments, beneficial insects
- **Nutrition**—how growing and eating fresh vegetables makes for a healthy diet
- **Economics**—how school gardens support local farmers and add to local revenue
- **Community**—how gardens bring people together over good, healthy food
- **The Arts**—how school gardens can be places of beauty, creativity, and serenity

We give the **best possible pricing for schools** to support your important work.

Durable GreenBeds™ are Quick and Easy to Install.

Worry Free 20+ Year Life

1. Fantastic durability due to our unique, non-toxic, cement composite walls.
2. Extremely durable. Twenty year life.
3. Just the right height and width for children to reach.
4. Easy assembly thanks to written instructions and on-line videos. Only simple tools are needed.
5. Older students can help with installation.
