NETTING SYSTEMS

Designed to keep the ball in play with spectators and property safe!

Sports, it's who we are!

Unlimited Sports Solutions is your trusted and experienced supplier for athletic facility equipment and products. We provide safe and reliable equipment, extensive product knowledge, and guaranteed responsive service. USS collaboratively designs and builds durable products to create inspiring and durable athletic facilities focused on player and spectator safety.

WHY NETTING?

SAFETY: Keep spectators and property safe by adding netting in areas that balls can escape the field of play.

HEIGHT: As compared to other perimeter products like chain link fence, netting systems can be designed to virtually any height necessary for the desired purpose. Our team has designed systems up to 120'!

VISUAL APPEAL: Netting systems provide optimal viewing for spectators because it allows greater span between poles and thin strands of netting.

Features

- ▶ Standard netting systems include heights of 20', 30', 40' & 50' however netting system heights are easily customizable.
- ▶ Systems are available with in-line and tie-back capabilities. With over 500 netting systems installed across the country, we are your netting experts so let us help you pick the appropriate netting that fits your application and budget.
- ▶ Barrier Netting can easily be added to a current system to extend for additional fan safety.
- ▶ Our steel poles are designed specifically for netting systems using a high yield strength steel. Available in many finish options including Industrial Tnemec Paint, STRYK 5388 FACS (flexible anti-corrosion coating) and Galvanized.
- ▶ Our large selection of netting include weather treated UV resistant nylon and Dyneema options with a variety of choices to handle any application.
- ▶ Systems are designed to handle local wind loads.
- ▶ Several options available to incorporate a backstop wall, including padded wall. Our FUSION wall is an integrated padded backstop wall to provide the ultimate player safety and visual appeal.

TYPES OF NETTING SYSTEMS

- ▶ **Baseball/Softball Backstop**
Available in tie-back or in-line design, netting backstops keep the ball on the field of play while optimizing spectator viewing experience. Barrier Net Extensions can also be incorporated down the baselines for added protection.
- ▶ **Soccer Over-kick**
No need to delay the action on the pitch while someone chases the ball after a wide shot on goal. These netting systems provide a barrier so the ball stays on or near the field of play.
- ▶ **Golf**
Errant golf shot damage can prove costly to surrounding property, parking lots and roadways of a golf course. Golf netting systems can be incorporated to any course to keep people, property, and vehicles safe.
- ▶ **Lacrosse, Field Hockey, Tennis, Football and Ice Hockey** are other sports that commonly incorporate netting systems to keep the ball/puck on the field and spectators and property safe.

TYPES OF NETTING:

- ▶ **Dyneema® Netting** is the thinnest and strongest netting material on the market. Made of ultra-high molecular weight polyethylene Dyneema netting is up to 15x stronger than steel & up to 40% stronger aramid fibers at equal diameter. This combination of strength and thin strands provides the best spectator safety and visibility.
- ▶ **Nylon Netting** is very versatile and strong using a high-grade nylon that is knotted on the square. Each strand is solution dyed for UV protection before they are knitted followed by an additional UV bonded coating for maximum outdoor longevity.

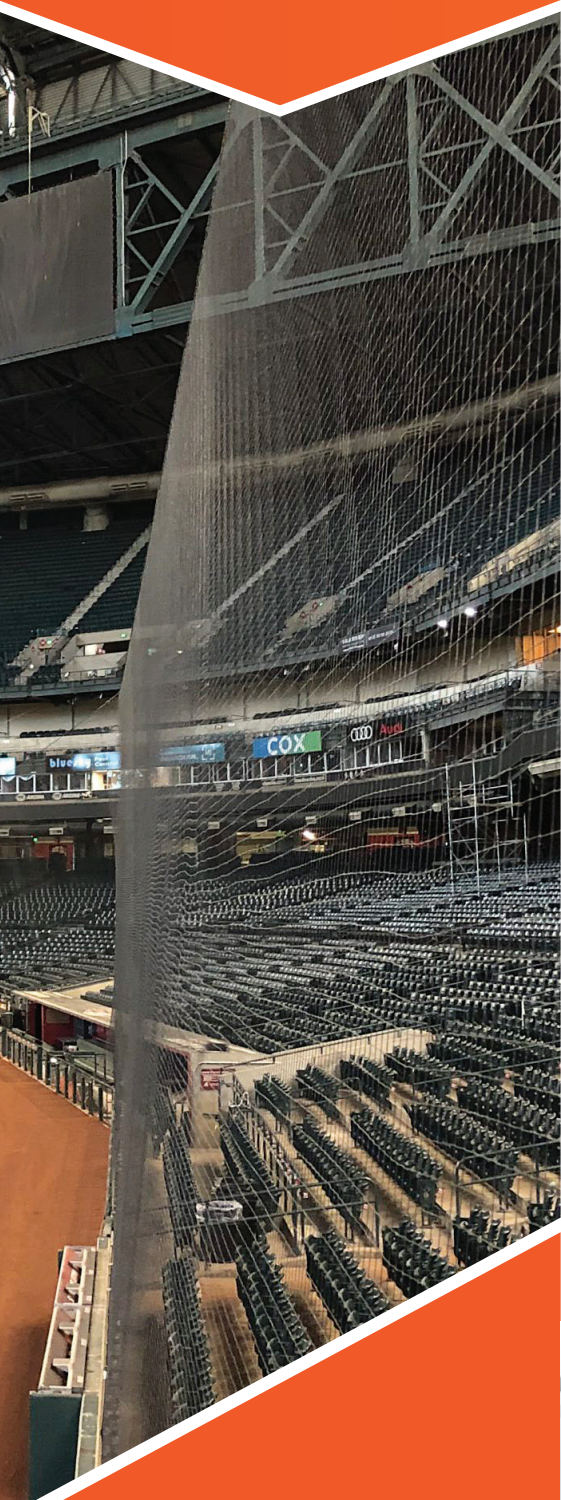

NETTING POLE DETAILS:

- ▶ As your trusted netting experts, our systems are designed using poles specifically created for the demands of a netting system.
- ▶ The poles can be made in a variety of diameters and wall thickness, reaching heights up to 120'.
- ▶ All poles conform to the requirements of ASTM A36 as well as ASTM A572 or as an alternative to ASTM A252.
- ▶ Our standard poles have a minimum yield strength of 65,000 psi (65 ksi). The higher yield allows for a stronger pole with thinner walls, thus reducing costs.
- ▶ Available finish includes Industrial Tnemec Paint, STRYK 5388 FACS and Galvanized.

SPORTS NETTING

Netting SOLUTIONS for every budget & application.

Our sports netting products are designed and manufactured to meet your most demanding specifications. By offering numerous netting options, we have a netting solution to meet your budget and application. With over 500 netting systems installed, our netting experts can assist you with selecting the right netting for your project.

TYPES OF NETTING:

- » Dyneema®
- » Nylon

APPLICATIONS:

- | | |
|---------------------|----------|
| » Baseball/Softball | » Golf |
| » Soccer | » Hockey |
| » Lacrosse | » Tennis |

Dyneema® Netting is the thinnest and strongest netting material on the market. Made of ultra-high molecular weight polyethylene Dyneema netting is up to 15x stronger than steel & up to 40% stronger aramid fibers at equal diameter. This combination of strength and thin strands provides the best spectator safety and visibility.

- » **#18 Plateena Dyneema® Netting** – With a combination of thin strands and 385lbs of break strength, Plateena Dyneema netting has been used in professional sports venues around the globe. Plateena netting is twisted double knotted for additional tightness and stability. The strands are black solution dyed for better color stability and UV resistance.

Nylon Netting – Dyneema netting isn't a fit for every application or budget so we offer numerous options of nylon netting. Nylon netting is very versatile and strong using a high grade nylon that is knotted on the square. Each strand is solution dyed for UV protection before they are knitted followed by an additional UV bonded coating for maximum outdoor longevity.

Netting #s reference the twine size. The smaller the number, the smaller the twine diameter. The following list is a sampling of some of the most common types of nylon netting.

- » **#24 Knotted Nylon – 1 ¾"**
Square mesh UV treated commonly used for foul ball and outfield netting.
- » **#36 Knotted Nylon – 1 ¾"**
Square mesh UV treated commonly used for direct impact netting for backstops and batting cages.
- » **#42 Knotted Nylon – 1 ¾"**
Square mesh UV treated commonly used for high impact netting for backstops and batting cages.
- » **#18 Knotted Nylon Golf Netting – 7/8"**
Square mesh UV treated commonly used for direct impact commercial facilities.
- » **#30 Knotted Nylon Hockey & Lacrosse Netting – 1 ½"**
Square mesh UV treated commonly used for outdoor hockey and lacrosse fields.
- » **#36 Knotted Nylon Soccer & Basketball Netting – 4"**
Square mesh UV treated barrier netting.

PADDING

Our line of high quality outdoor and indoor athletic padding is designed for maximum impact resistance and safety.

WHY USS PADDING?

We take player safety very seriously and our full line of padding is built with that in mind. We have padding solutions for every area of an athletic field that presents an injury concern for athletes. By using the highest quality materials, our pads withstand high impact while providing a long usage life.

Types of padding include:

Exterior Wall Padding

- ▶ Each pad is backed with 3/4" weather treated sheathing, covered in 3" high impact foam, and then wrapped in 18.5oz vinyl. The vinyl is available in many UV resistant color choices and is rot, mildew, and fungus resistant. Wall pads can be attached to most any surface with our versatile offerings of attachment hardware.

Rail, IBeam, Column, and Corner Padding

- ▶ Available in square or round. Each offering includes high impact foam and 18oz vinyl.

Indoor Wall Padding

- ▶ Available in wood backed or vinyl wrapped. Available with 2" or 3" foam. All foam and vinyl meet CALL117-2013 flammability test.

Goal Post Padding

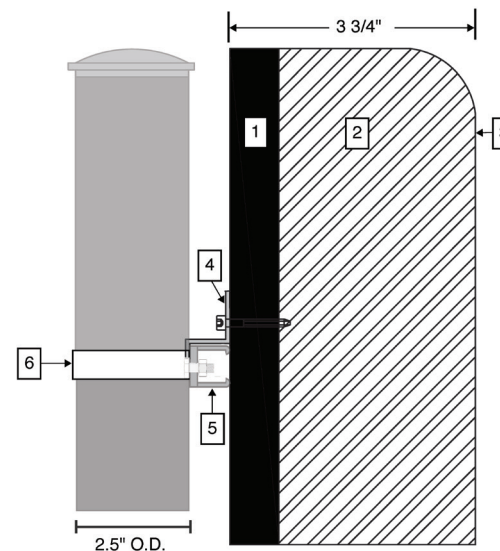

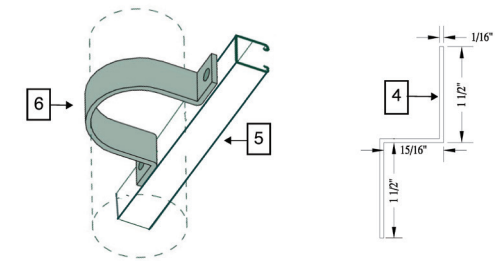

- ▶ Standard 6' height with 4" high impact foam and wrapped in 18oz vinyl.

Volleyball, Basketball, and Tennis Padding

- ▶ Padding products to cover score tables, standards, poles, and stands to keep the full playing area safe. All foam and vinyl meet CALL117-2013 flammability test.

Fusion Wall

- ▶ Our revolutionary padded wall system FUSES player safety, function, and eye appeal into a complete package. Using an exclusive attachment system, our highest quality extreme weather resistant outdoor padding is easily and securely installed. Fusion also allows facilities to incorporate branding or sponsorship onto the padding and rear wall screen to give their facility the "wow" factor.

**Not shown*

Privascreen windscreen can be hung from the back of system to conceal hardware.

FUSION PADDING SYSTEM

1. 3/4" Weather Treated Sheathing

- ▶ Backing is treated with Vers-Acryl222 weather sealant.

2. 3" High Impact Foam

- ▶ Density: 1.50 pcf o
- ▶ Impression Load: 25% 75-85, 65% 128-145
- ▶ Support Factor 65/25 1.7mm
- ▶ Rebound %: 40-48%
- ▶ Tear Resistance: 1.5 - 2.5 lbs/in
- ▶ Static Fatigue: <35% Loss @ 25% ILD

3. 18.5oz Vinyl

- ▶ 18.5oz/ sq yd
- ▶ 3000+ hour UV resistance
- ▶ Emboss: Course Matte
- ▶ Construction: 9 x 9, 1000 x 1000 Denier
- ▶ Tongue Tear: 100 x 100 lbs / 1"

- ▶ Grab Tensile: 375 x 375 lbs / 1"
- ▶ Adhesion: 26lbs / 2"
- ▶ Meets CAL117-2013 Flammability Test
- ▶ Abrasion: 1000 Cycles
- ▶ Rot, Mildew & Fungus Resistant
- ▶ Available in 18 Color Choices

4. Zeus Clip

- ▶ Attached with 1" Galvanized Screw to Plywood
- ▶ Overlaps UNISTRUT between posts

5. UNISTRUT

- ▶ 1 5/8" x 13/16" Slotted Standard
- ▶ 2 UNISTRUT's per pad

6. 2 Hole Pipe Strap

- ▶ Attached to UNISTRUT w/ Galvanized Bolt and Nut

WALL PADDING DETAIL WITH Z-CLIP

1. 3/4" Weather Treated Sheathing

- ▶ Backing is treated with Vers-Acryl222 weather sealant.

2. 3" High Impact Foam

- ▶ Density: 1.50 pcf o
- ▶ Impression Load: 25% 75-85, 65% 128-145 Support Factor 65/25 1.7 min
- ▶ Rebound%: 40-48%
- ▶ Tear Resistance: 1.5-2.5 lbs/in
- ▶ Static Fatigue: <35% loss @ 25% ILD

3. 18.5oz Vinyl

- ▶ 18.5 oz/sq yd
- ▶ 3000+ hour UV resistance

- ▶ Emboss: Course Matte
- ▶ Construction: 9 x 9, 1000 x 1000 Denier
- ▶ Tongue Tear: 100 x 100 lbs / 1"
- ▶ Grab Tensile: 375 x 375 lbs / 1"
- ▶ Adhesion: 26lbs / 2"
- ▶ Meets CAL117 - 2013 Flammability Test
- ▶ Abrasion: 1000 cycles
- ▶ Rot, Mildew, & Fungus Resistant
- ▶ Available in 18 color choices

4. 1.5" Aluminum Z Clip

- ▶ Placed at bottom & top of pad and an additional z clip placed in middle for pads 8' in height.
- ▶ Attached with 1" Galvanized Screw

FIELDERS CHOICE DUGOUTS

With an industry best 10 year warranty, these pre-engineered all steel dugouts are the right choice.

FEATURES OF FIELDERS CHOICE DUGOUT:

- ▶ All Steel pre-engineered structure. Includes 3"x3" plate mounted columns, roof frame and purlins.
- ▶ Designed to be anchored to a thickened edge cement pad pursuant to local building codes.
- ▶ 24 gauge metal roof is dent resistant & heavy load bearing as compared to most competitive systems 26 or 29 gauge metal roofs. Available in many color & trim options.
- ▶ Frame finish options include industrial Tnemec paint, powder coated or galvanized.
- ▶ Standard size options include 20', 30', & 40' length and 8' or 10' depths. Custom sizing available.
- ▶ 10 year material and 40 year finish warranty.
- ▶ Easy assembly with limited personnel. All parts are marked for assembly and comes with simple to follow step by step instruction.

UNLIMITED SPORTS SOLUTIONS OFFERS THESE GREAT PRODUCTS TO OUTFIT YOUR FIELDERS CHOICE DUGOUTS:

- ▶ Benches
- ▶ Helmet/Equipment Cubbies
- ▶ Chain link enclosure kits
- ▶ Bat Racks
- ▶ Privacy windscreen wraps

FIELDERS CHOICE PLUS DUGOUTS

Protect teams from the elements and provide privacy from spectators with all steel enclosed dugouts.

- ▶ Beginning with our Fielder's Choice all steel pre-engineered dugout frame, the frame is then fitted with frame cross-members. The same style of dent resistant 24 gauge metal panels used on the roof are affixed to the cross-members for side and rear enclosure. The side panels begin 3" above the cement slab to allow for water to drain out and air to flow into the dugout. Roof and enclosure panel colors can be mixed and matched to add color contrast and include additional school/club colors.
- ▶ 10 year material and hardware warranty.

FIELDERS CHOICE CANTILEVER DUGOUT

- ▶ FC Cantilever Style Dugouts are very versatile. As a dugout, they can stand alone or can be incorporated into a CMU wall structure. Our cantilever structures have also been used as shade structures over bleachers, tennis court benches, and swimming pool decks.

FIELDERS CHOICE DUGOUT COVERS

- ▶ These covers can be easily customizable to retro fit a chain link fence dugout or easily incorporated into a new design. Designed to integrate with the fencing by using the fence posts as the cover supports.
- ▶ **Post Saddles** - These are constructed to slide over and bolt to the fence posts. The roof frame rests on the saddle and is securely bolted to the saddles.
- ▶ **Roof Frame** - Constructed with 11 gauge steel 4"x2" rafters and beams and 2"x2" purlins and supports.
- ▶ Recommended to be used in conjunction with 3" schedule 40 posts. Footings recommendations are subject to installation area codes.

DUGOUT ACCESSORIES

Outfit your dugout like the PROS with dugout accessories!

TWO TIERED MLB STYLE BENCHES

Outdoor team bench features lower level seating, comfortable angled backrest and a top shelf which can be used for storage or elevated player seating during ball games. The benches bolt together forming one continuous bench. Benches will be painted in the color of your choice with acrylic ASE Sherwin Williams paint, giving you a limitless number of color choices. Team logos can be applied to the side panels of the bench string at no additional cost.

Bench frames are built with pressure treated wood. Pressure treated wood is needed for any exterior wood product use. Premium Azek decking on lower seat and backrest (unless noted) are resistant to player spike marks and is available in either Slate Gray or Brownstone colors. Top shelf is durable MDO (Medium Density Overlay) the longest lasting exterior wood product available. These materials add up to the longest lasting wood dugout bench on the market. If you live in an area with high amounts of snowfall, rain, humidity or an ocean salt air climate, any of our bench styles will serve your needs.

DIMENSIONS: Standard bench length is **7'-6"**, but, as with all our wood products, custom sizes are available. Overall dimensions are 34-1/4" high top seat, 17-1/2" lower seat height, 14-1/2" lower seat depth, 11" top shelf / seat depth, 28" total bench depth. Some assembly is required, and all hardware is included along with illustrated, easy to follow instructions.

ALUMINUM PLAYER BENCHES

These benches provide plenty of options on sizes and features. Player benches are made of anodized aluminum planks equipped with backrests and a rear double plank shelf (optional). Shelves help optimize organization of the dugout and remove tripping hazards from the ground by giving players an area to store equipment, bags, clothing, water bottles, etc.

PREMIER STORAGE RACK

Premier is dugout storage for team player needs. Featuring a traditional box design offering a choice of 5, 6, 7 or 8 cubbies. Standard 7'-6" long rack has 14" tall inside dimension boxes. Choice of 8 boxes (10-3/8" wide cubby), 7 boxes (12" wide cubby), 6 boxes (14-1/8" wide cubby) or 5 boxes (17-1/8" wide cubby) all at the featured price. Centered below each cubby is a premium double coat hook for player jackets & bags. The Premier measures 11-1/4" deep and 15-1/2" tall with additional 3-1/2" hook strip below (19" total). Storage rack is painted with Sherwin-Williams "premium all surface enamel" in team color of choice. All but the back panel is top quality MDO Signboard the longest lasting exterior wood product available. This means the Premier is made to be left up all year, eliminating need for winter storage at your sports complex. Concrete wall attachment hardware included. Custom sizes also available. If you are looking for dugout idea's, you can't go wrong with a Premier in your softball or baseball dugout.

HELMET CUBBY RACK

Provides individual storage softball or baseball helmets. Each cubby will accommodate any size batter's helmet available, including those with protective face masks. These long-lasting wood storage racks will be painted in the Sherwin-Williams color of your choice. Optional two-tone color schemes are also available with the inside back being painted in your secondary team color. No assembly is required. This durable storage rack is made to be left outdoors all year long. Size ranges start at 9 helmets up to 24 helmet cubby.

BAT RACKS

- ▶ **Hanging Bat Racks** - We offer 3 standard models of the "Wall Hanging Bat Rack". Bat racks come painted in team color of your choice and take up a minimal amount of space away from the wall.
- ▶ **Vertical Bat Racks** - Vertical bat racks hug the wall conserving dugout space while providing easy access to players bats. Individual bat sleeves protect expensive player bats from damage. Painted in the color of your choice and includes team logo at no additional cost. Vertical Bat Racks are offered in 4 standard sizes holding choice of 21, 15, 13 & 8 baseball or softball bats. However custom sizes are also available.
- ▶ **Angled Bat Racks** - Angled bat racks come in 4 standard sizes holding 21, 15, 13 & 8 baseball or softball bats respectively. Each bat has its own slot protecting today's expensive aluminum bats from banging together. Slanting of the bat slots allows placement beneath your team helmet storage rack preserving valuable dugout space. As with all PYT dugout items everything is painted in your team color with team logos at no additional charge. Custom size bat racks are also available to meet your exact standards.

HELMET COMBO RACK

Holds softball or baseball helmets & bats in a one piece unit. No assembly is required. Dugout storage rack is durable and made to be left up year round in any environment. Entire unit (except back panel) is made with 3/4" Medium Density Overlay (MDO) signboard material. Back panel is made with 1/4" Exterior Treated Plywood. Unit is painted in the color of your choice and includes hardware for concrete block dugout attachment. Fence attachment option (upgraded 1/2" MDO back and fence attachment hardware) is also available upon request at a minimal fee. Available in 10, 12, 15, and 18 Helmet Combo sizes

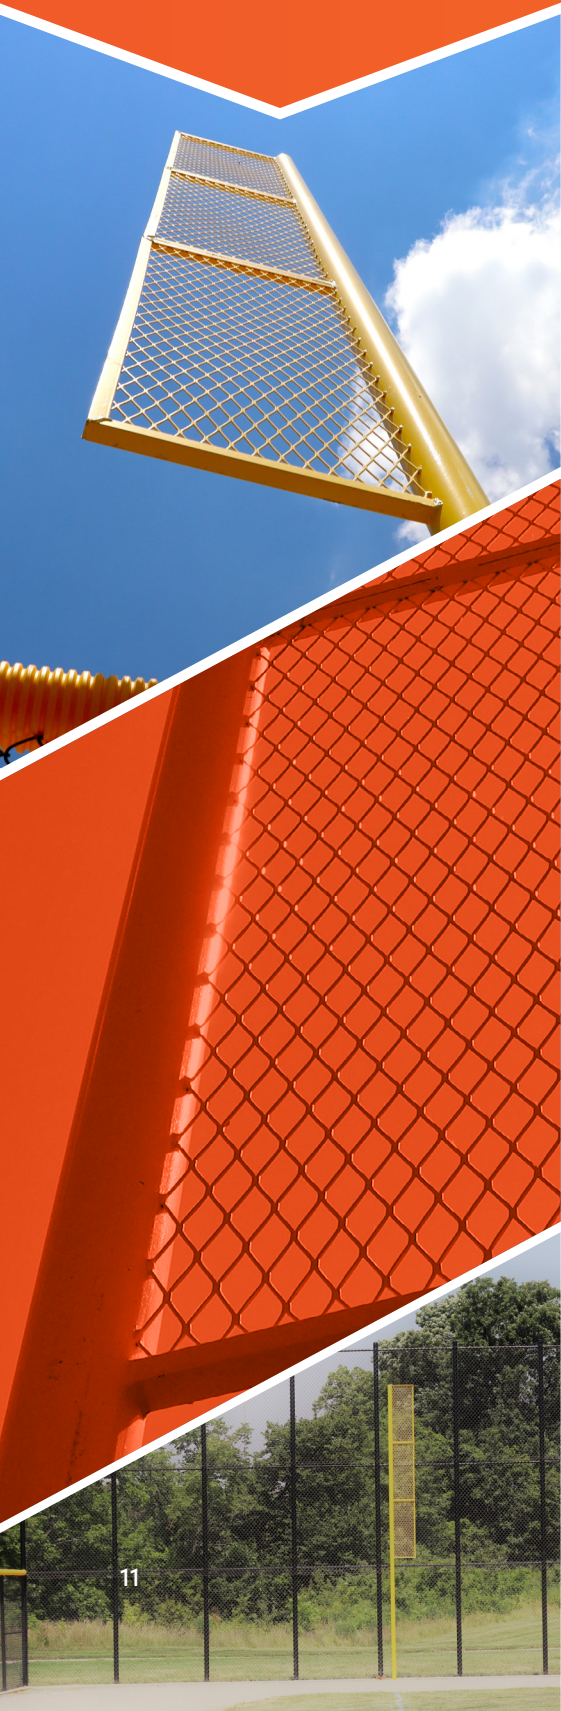

HELMET BAT BOX COMBO

These combo dugout helmet and bat combination storage unit measuring 80" tall. Each unit comes fully assembled and painted in your team color(s). Add your team logo on the front & sides of the lower base at no additional charge. The entire unit is made exclusively with MDO signboard, the longest lasting exterior wood product available. It will stand up to snow, rain, humidity and ocean air climates. Made to be left up ALL year. Size options range from 9-32 helmet storage and bat compartments and 1 large coaches storage cubby. Each bat compartment easily holds 9 bats. The coaches storage cubby measuring 6" by 62-1/2" is ideal for clipboards, game balls, first aid kits, stopwatches or any other items you may need on game day.

FOUL POLES

Regardless of the ballfield or budget size, Unlimited Sports Solutions has the foul pole solution for you!

WHY USS FOUL POLES?

- ▶ High Gloss Industrial Temec Painted in your choice of **white** (softball), **yellow** (baseball), or **orange** (either) to leave no debate whether a batted ball is a home run or foul ball.
- ▶ Pre-engineered for durability to withstand the elements. Drawings available upon request.
- ▶ Multiple choices of size and installation type with the option to equip with a visibility wing. Custom size options available.

CLASSIC FOUL POLES

- ▶ Standard sizes include 3", 4", or 6" in heights of 15', 20', 30' or 40'. Custom sizing available.
- ▶ Visibility Wings available for each height.
- ▶ Mounting options: ground sleeve, direct bury or mounting plate

PRO FOUL POLES

- ▶ Aluminum 4" poles available in standard 20', 30', 40' above ground height. Custom sizes available.
- ▶ Visibility Wings available for each height.
- ▶ Mounting options: ground sleeve, direct bury or mounting plate

BATTER'S EYE

Give your batters the best with the solid backdrop of a Batter's Eye

WHAT IS A BATTER'S EYE?

A Batter's Eye creates a safer and more competitive at bat by using a solid color backdrop beyond center field that creates sharp contrast and uncluttered background for a hitter better see the pitched ball.

FEATURES

- ▶ Using the same heavy duty poles and hardware we incorporate into our netting systems, our Batter's Eye is engineered to meet wind ratings up to 105 mph.
- ▶ One thing that sets our system apart is the AXC (All Extreme Conditions) Screen that serves as the solid backdrop. AXC is designed for 50% less wind load. This reduces stress on the system and makes for virtually a maintenance free product. It is also backed by an industry best 7 year warranty!
- ▶ Our standard systems come in 20' and 30' heights. Custom sizing available to fit any need.

BATTING CAGES & HITTING STATIONS

You don't have to sacrifice quality and durability regardless of your budget size or space limitations. The experts at Unlimited Sports Solutions have warm-up and training solutions for your venue.

HACK SHACK BATTING CAGES

Our low maintenance cages use poles designed for netting systems, durable hardware, and high quality netting. Using the top of line materials creates a safe practice area for players of any age to get their HACKS in for years to come.

- ▶▶ 8" Steel poles reduce net sag by allowing cables to be installed with optimal tightness without bending the poles.
- ▶▶ Steel tension cable with a mid cable provide the ultimate sup-port to minimize sag.
- ▶▶ Nets are #36 solution dyed with overlapping entry flap for convenient entry & safe containment.
- ▶▶ Hack Shacks can be placed side by side or end to end by sharing poles. A multiple unit cage saves you money per cage because it reduces material costs and labor.
- ▶▶ Custom size and Indoor cages are available.
- ▶▶ Warranty – 5 year warranty on the entire system
- ▶▶ Discounted Batting Cage Accessories are available with each cage purchase
 - ✗ Hitting Mats
 - ✗ Batting Cage Turf Kit
 - ✗ Vinyl Batting Cage Net Protector
 - ✗ L Screens

GET YOUR HACKS IN AT THE HACK SHACK!

POWDER COATED STEEL FRAME OPTIONS

					
RAL 8007 Fawn Brown	RAL 7016 Anthracite Grey	RAL 7001 Silver Grey	RAL 6001 Emerald Green	RAL 6005 Moss Green	RAL 5012 Light Blue
					
RAL 3000 Flame Red	RAL 9006 White Aluminium	RAL 9005 Jet Black	RAL 9003 Signal White	RAL 5010 Gentian Blue	RAL 5005 Signal Blue

* Additional color options may be available. Actual color may vary.

SWEET SPOT HITTING STATIONS

Don't have the room for a batting cage? Want to add a multipurpose warm-up and training tool to complement a batting cage? Does your venue host tournaments and need to designate warm-up space? Do you desire additional area to increase practice reps? The SWEET SPOT Hitting Station accomplishes all of these things!

- ▶▶ 8'x8' easily assembled powder coated steel frame provides a durable clean appearance. Frame posts have a 3' extension for simple anchoring into the ground. Plate mounting option available for installation on an existing cement pad.
- ▶▶ Heavy duty #60 Baseball netting with a 5'x5' centered containment sock (Sweet Spot) for a target zone. Net is hemmed and affixed with grommets for additional durability and ease of attachment to the frame. Net can also easily be removed during the off season to be placed in storage to increase the life of the net.
- ▶▶ Stations can be strategically placed to designate warm-up areas for busy complexes.
- ▶▶ Can add multiple stations in the same area.
- ▶▶ These stations have multi-purpose use:

The yellow outlined Sweet Spot (containment sock) can serve as a pitching warm-up & training tool.

If stations are strategically placed, they can serve as a bull-pen backstop and provide an additional safety barrier for any fans seated along the baselines.

Discounted Hitting Mats are available with each station purchase.

MOUNDS & PLATFORMS

PORTABLE MOUNDS

Aeroform® Is a custom molder of urethane foam and fiberglass composites. We specialize in the production of our own brands of high quality sporting goods including Pitch Pro® portable pitching mounds and platforms.

MODEL 465 FIBERGLASS PITCHING MOUND

Model 465 is the NUMBER ONE choice for tournament directors. Lightweight, durable, easy to store and transport.

MODEL 486 FIBERGLASS PITCHING MOUND

Model 486 is the step up from Model 465. Our unique mound structure provides a sturdy, extended landing for the plant foot. Model 486 is the ideal tournament mound and fits in the back of an SUV, truck bed or gator.

MODEL 796 FIBERGLASS PITCHING MOUND

Model 796 is a very popular full-size mound with a wider surface area capable of holding taller pitchers with longer strides. Plenty of room for pickoff moves. Thanks to our unique mound structure, our mounds maintain rigidity as the surface areas get wider.

MODEL 898 FIBERGLASS PITCHING MOUND

898 is an 8" mound that features a landing area 78" long to provide bigger players with enough room for longer strides. The mound support structure gives the landing area enough rigidity to give players a safe and sturdy spot to plant their foot. Great mound for players transitioning from a 6" to 10" mound.

MODEL 8121 FIBERGLASS PITCHING MOUND

Model 8121 is the most durable portable 10" pitching mound on the market today. As with all Pitch Pro mounds, our mound support structure is designed to eliminate surface deflection and dead spots, giving pitchers a sturdy landing with every pitch. Model 8121 is ideal for leagues, schools, and facilities designers/managers.

MODELS 504, 508 & 516 BULLPEN PLATFORM

Victory Mounds' industry-leading portable game baseball pitching mounds are perfect for leagues wanting high-quality mounds with less game maintenance and more game-day flexibility. In addition, they offer top-of-the-line portable practice mounds for schools, teams, and facilities to help their pitchers perfect their craft during the off-season and throughout the year.

VM-6 PORTABLE GAME PITCHING MOUND

- » Official Youth League Specifications
- » Made with Reinforced Fiberglass
- » Covered with turf
- » No lips or edges
- » 6" Height, 7'6" Wide, 9'6" Long, 180 lbs.
- » Landing Area = 5'1" Long

VM-8 PORTABLE GAME PITCHING MOUND

- » Official Intermediate League Specifications
- » Made with Reinforced Fiberglass
- » No lips or edges
- » Covered with turf
- » 8" High, 8' Wide, 10' Long, 200 lbs.
- » Landing Area = 5'6"

VM-10 PORTABLE GAME PITCHING MOUND

- » Official Senior League Specifications
- » Made with Reinforced Fiberglass
- » Covered with turf
- » No lips or edges
- » 10" High, 9'6" Wide, 12' Long, 320 lbs.
- » Landing Area = 7' Long

CHAMPRO BASES, PITCHING RUBBERS, & HOME PLATES

BRING IT HOME

Safety and durability go hand in hand with the line of Champro in-ground bases, pitcher's rubbers, and home plates. Baseball and softball experts recommend this product line because these products were designed and built using the best material aimed at balancing extended play life and player safety.

IN-GROUND BASES

15" X 15" X 3" THE HALL BASE - WHITE - SET OF 3

- ▶▶ Brute-strength, pebble-embossed, UV-resistant, molded white rubber pro-style base
- ▶▶ Heavy-duty P.U. foam pad
- ▶▶ Rust-resistant, powder-coated, triple reinforced welded steel anchor system and stanchion pan
- ▶▶ Reinforced side walls are built for extreme use
- ▶▶ Ground anchors & base plugs included
- ▶▶ The Hall Orange Safety base sold separately

15" X 15" X 3" MOLDED PRO STYLE BASE

- ▶▶ Pebble-embossed, UV-resistant molded rubber pro-style base
- ▶▶ Heavy-duty PU foam pad
- ▶▶ Reinforced side walls won't collapse even with extreme use
- ▶▶ Rust-resistant, nickel-plated, triple reinforced steel anchor system and stanchion pan
- ▶▶ Ground anchors & base plugs included
- ▶▶ Pro Style Orange Safety base sold separately

PITCHER'S RUBBERS

FOUR WAY PITCHER'S RUBBER

- ▶▶ Heavy duty UV resistant rubber construction
- ▶▶ Heavy duty four-side construction insures flat surface can be rotated for many years of use

STEP DOWN PITCHER'S RUBBER

- ▶▶ Two-level molded construction prevents uneven holes in front of rubber
- ▶▶ Buries for permanent installation
- ▶▶ Heavy duty UV resistant rubber construction
- ▶▶ Available in wood or waffle bottom

DUAL STANCHION PITCHER'S RUBBER SYSTEM

- ▶▶ In-ground dual stanchion system for quick removal
- ▶▶ Rubber secures to anchor with two bolts
- ▶▶ Base plugs included
- ▶▶ Heavy duty UV resistant rubber construction

HOME PLATES

IN-GROUND HOME PLATE

- ▶▶ Official size & constructed so can buried for permanent installation
- ▶▶ Available with : Moisture resistant solid wood construction is designed for professional use or tough molded rubber waffle bottom.
- ▶▶ Extra durable UV resistant rubber shell

PRO STYLE HOME PLATE WITH HOLLYWOOD STYLE ANCHOR SYSTEM

- ▶▶ Official size
- ▶▶ Tough molded rubber with beveled black border
- ▶▶ Fits same ground anchor as B001X Hollywood style base
- ▶▶ Includes all hardware for assembly plus anchor & base plug

ROYAL SHADE STRUCTURES

BEAT THE SUN: Being in the shade makes the air feel up to 15 degrees cooler.

TAKE A BREAK: Extended exposure to direct UV rays have damaging effect on skin as well as property.

HOT, DON'T TOUCH: Aluminum and metal bleachers and playground structures retain heat when exposed to direct sun light. These surfaces reach temperatures that will cause injury and render the seating unusable.

VERSATILITY: We have numerous shade solutions to cover any location regardless of size.

Features

- » Professionally engineered to withstand the elements.
- » All steel frames are expertly crafted and built to last. High gloss Industrial Tnemec paint finish adds the wow factor to any location.
- » Commercial 95 Shade Tops are designed to breathe which allows cooling breezes to flow through while blocking harmful UV rays. Made of UV stabilized HDPE with reinforced borders, these tops will withstand years of extreme weather as backed by a *10 year warranty.*

- » **T-Post**
Have many applications due to minimal posts for ultimate viewing sightlines. Equipped with a Hip style roof for easy assembly and designed for simple removal of the shade fabric during off seasons.
- » As pictured: double 12'x16' unit with shared middle column over tennis court bleachers

- » **Cantilever**
Complete line of sight viewing with this style. It can be designed with a flat fabric roof, Hip style, or with metal panels.
- » As pictured: 10'x20' with 24 gauge metal roof

- » **Hip Shade Structure**
For the most coverage, this four post style can span large areas. Commonly used for picnic areas and playgrounds.
- » As pictured: 30'x30'

- » **Sail Structures**
Popular because they are versatile, easy to customize, a lower price point than more permanent style structures.
- » As pictured: 20'x20'

DRIVEN GOLF DRIVING RANGE CAGE SYSTEMS

No room for a traditional driving range? Losing out on driving range revenue? DRIVEN is your solution.

No room for a traditional driving range? Losing out on driving range revenue?

No problem. DRIVEN Driving Range Cages from Unlimited Sports Solutions is the solution for you!

- ▶ All steel frame with industrial Tnemec paint finish. Columns are plate mounted for easy anchoring into a cement slab.
- ▶ Cage enclosed with high impact #18 golf netting. The baffle is constructed of high impact #30 golf netting and a 5'x5' impact absorbing screen.
- ▶ Dimensions – 20' wide, 10' depth, 10' opening height and 12' rear height. Custom sizes available.
- ▶ The baffle is designed to contain balls at the front of the cage for ease of retrieval.
- ▶ Easy to assemble with all parts included and step by step instruction manual.
- ▶ 5 year frame and hardware warranty and 2 year netting and screen limited warranty.
- ▶ DRIVEN cages can stand alone or easily placed side by side to create a multi-bay layout.
- ▶ Commercial grade hitting mats that use real tees and turf cage floor.
- ▶ *Optional* Golf bag stands
- ▶ *Optional* Mesh mural with branding or advertising can be attached to any side of the frame. Available in multiple size options.

DEFENDER PORTABLE TEAM SHELTER

Defend your players and coaches from the elements with the DEFENDER Portable Team Shelter.

Defend your players and coaches from the elements with the DEFENDER Portable Team Shelter. DEFENDER is an easy to move sideline shelter for temporary placement during seasons that have extreme weather fluctuations. Excellent choice for soccer and lacrosse but can be used for any sport. Expertly designed with player comfort as priority one. Features include:

Sturdy Aluminum frame fitted with tin roof and hinged windows to allow 360 viewing. Frame can be powder coated in many color options and wrapped in team graphics. Roof and trim options offer many color choices to complement color scheme of the frame.

FEATURES

- ▶ Sturdy Aluminum frame fitted with tin roof and hinged windows to allow 360 viewing. Frame can be powder coated in many color options and wrapped in team graphics. Roof and trim options offer many color choices to complement color scheme of the frame.
- ▶ Equipped with an aluminum team bench with double plank shelf for extra seating and storage
- ▶ Hinged high impact resistant plexiglass windows placed on 3 sides for 360 viewing and easy to open for air flow when desired
- ▶ Exclusive SPYDER raise & lower wheel assembly kit raises and lowers in two minutes. As few as two people can easily move the shelter to the desired location. Hitch kit is available to pull the shelter with an ATV.
- ▶ Anchoring kits for synthetic turf or grass are available for semi-permanent placement of the shelter.
- ▶ While storing the units, the bottom 16" air vent combined with latching the windows in the open position will greatly reduce the chance of wind damage.
- ▶ Available in 12' and 16' models

WINDSCREEN & FENCE CAP

Set your venue apart from others by providing some relief from the elements for players and spectators and highlighting your brand with high quality windscreen!

We are your one stop shop for Windscreen and Privacy Screen. Whether you desire to conceal a construction site, promote your business, or are looking to set your athletic venue apart, we have a solution for you!

Our high-quality windscreens and privacy screens are designed to endure the elements and built to last. Our screens come in a variety of colors and heights with custom sizes manufactured to fit whatever job you may have. We take pride in our quality and will custom build your windscreen/privacy screen with the following.

- » Strong & durable reinforced hems.
- » Bonded UV protected thread.
- » Grommets spaced at 12" with 3 per corner to keep it on your fence.
- » 5 levels of Wind and Privacy Screen provide price and graphic design options for any budget.
- » Graphic design options provide a venue, an opportunity to promote their brand or sell highly visible advertising space.

WINDSCREEN OPTIONS

- » **AXC Screen** - Backed by an industry best 7 year warranty and years of testing, All Extreme Conditions (AXC) Screen is the most durable windscreen available and a maintenance team's dream. Designed to stay on the fence through the most extreme conditions in order to greatly reduce maintenance time & costs. Made of polyethylene, AXC Screen doesn't fade, dry-rot, crack, or peel. It can be used in any athletic field application including on a batter's eye.
- » **Ultra 90** - This popular product offers 90% opacity, versatility, superior UV resistance, many color choices, and is economically friendly to apply to many applications.
- » **Ultra 85** - Durable and economical solution for temporary fences. Add custom graphics for job site branding to the green, black, and royal blue color options.
- » **Ultra Plus** - Looking for the most visual blockage, the 95% opacity is the solution for extra privacy. Made of knitted polyethylene, Ultra Plus is available in green and black.
- » **VCP** - Made of polyester and vinyl coating, VCP is popular for the printing versatility and many color choices.
- » **Bleacher Wraps** - Fabricated from high-quality outdoor fabrics and printed with your choice of graphics. Moreover, it conceals bleacher frames and supports (and everything that accumulates underneath). So, convert your bleacher from a boring eyesore into a massive eye-catching source of advertisement to brand your team, organization, or to promote your supporters.
- » **Graphics & Fence Murals** - Let your fence send a message using cutting edge digital and screen printing technology. Using quality UV inks and a protective UV finish, personalized ads, logos, photos, & artwork give a bright attention getting appearance.

FENCE CAP

Fence Cap is a plastic topper that installs over the top of a chain link fence. Most importantly this product reduces potential injury if an athlete were to come in contact with any sharp edges on the top of chain link. Additionally fence cap provides a sharp decorative trim to give each field an eye-appealing finish.

TYPES OF FENCE CAP

- » **Premium Fence Guard** is the best of good, better, and best options of Fence Cap. The teardrop shaped profile is easy to install and is virtually maintenance free. Made of exterior grade UV-resistant polyethylene and backed by a 5 year warranty
- » **Standard Fence Guard** has the same appearance profile of the Premium with a slightly thinner wall thickness. Includes a 3 year warranty.
- » **Corrugated Fence** provides a solution for those looking for the most economical way to cap their fence. This product features durable rounded corner profiles creating the strongest structural design. Manufactured with added UV and mildew inhibitors for a long lasting and fade resistant product.

SOCCER GOALS

Our wide range of Soccer Goals offer solution for any age group, level of play, and budget.

All goals are designed with player safety as a priority and backed by product specific warranties. Goal options available in portable and in-ground.

SHOOTOUT 4" SQUARE ALUMINUM SOCCER GOALS

4" square, powder coated soccer goals are constructed of aluminum extrusions for a lifetime of rustproof service. These goals include premium QwikTrack net attachment system popular on our aluminum portable goals, eliminating loose hook and loop style net attachment

- ▶▶ Goals can be permanently installed in concrete or be removable with the purchase of SC44S ground sleeves.
- ▶▶ Available in five sizes

COMBO SOCCER/FOOTBALL IN-GROUND ALUMINUM GOALS

When soccer and football teams share space, Combo Goals are the answer.

- ▶▶ Constructed of weatherproof 4" square aluminum extrusions
- ▶▶ Nets attach with popular QwikTrack system
- ▶▶ 4" square upright and crossbar extrusions have large corner radii for superior player safety and have a bright white, textured powder coated finish
- ▶▶ Official 24' (w) x 8' (h) soccer goals and official 10' high football crossbar and 10' uprights that can be installed either at 23' 4" high school width or 18' 6" college width

SHOOTOUT NO TIP PORTABLE ALUMINUM SOCCER GOALS

Fully welded aluminum 4" square uprights and 2" square backstay assemblies feature extra welded gusset plates at critical corner connections to make them virtually unbreakable

- ▶▶ QwikTrack net attachment system allows easy net attachment to upright, crossbar, bottom sides and rear of goal
- ▶▶ Patented No-Tip integrated ballast and transport system insuring both safety and easy goal movement without ground anchors or loose ballast

- ▶▶ All Aluminum No-Tip goals meet all NCAA, National High School Federation, FIFA, ASTM F2056 and ASTM F2673 rules and specifications
- ▶▶ Specially designed extrusions have extra heavy wall thickness and large corner safety radii to guarantee both durability and safety
- ▶▶ These Shootout soccer goals feature a super thick bright white textured powder coated finish and carry an eight-year limited warranty
- ▶▶ 12" wide molded polyethylene drums roll easily even in tall, wet or muddy grass and provide permanent safe ballast when properly filled with sand by customer at the time of installation.

EURO PORTABLE FUTBOL GOALS

Euro styling makes Euro goal a popular choice for soccer purists

- ▶▶ Official 24' x 8' competition goal is constructed almost entirely of 4" diameter white aluminum powder coated extrusions with QwikTrack net attachment system allowing net to be attached to uprights, crossbar and ground components
- ▶▶ European style backstays support net at top • Meets or exceeds ASTM F2950-14

TOURNEY 3" PORTABLE ALUMINUM GOALS

Need goals but have a limited budget? These 3" diameter extruded aluminum soccer goals have many of the premium features found on our 4" Shootout goals but the reduced extrusion size and design features allow you to purchase more goals for the same money

- ▶▶ Available in 5 sizes, all 3" goals include
 - ✗ QwikTrack Net Attachment System
 - ✗ Rear spreader bar and extra rear depth for superior tip over safety
 - ✗ White powder coated finish and rear ground anchors
- ▶▶ Competition net and net storage bag included
- ▶▶ While no manufacturers' 3" soccer goals meet NCAA, NF or FIFA rules, they are ideal for facilities where youth and club soccer is played
- ▶▶ Order optional No-Tip ballast system or wheel kit separately
- ▶▶ Goals meet ASTM F2950-14 safety standards
- ▶▶ Tourney goals carry a three-year limited warranty

OTHER SPORTS

Since 1985, athletic directors, coaches, facility administrators, and equipment managers have relied on the good sports at Bison to provide safe, durable, innovative and on-time products to fit their unique sports equipment needs. Unlimited Sports Solutions is pleased to be an authorized dealer of Bison products. Backed by the strength of our own fabrication team and partners like Bison, we are truly a one stop shop for all multi-sport athletic facilities. Contact us for additional information and exclusive pricing.

OUTDOOR BASKETBALL

Bison got their start in the industry as a basketball equipment supplier and have built an outstanding reputation based on the quality of these products. Visit www.unlimitedsportssolutions.com for a full listing of basketball products

FOOTBALL

With Bison's wide range of goal posts and post padding, there is a solution for each level of play.

SAND VOLLEYBALL

Bison has a full line of weatherproof and safe sand/outdoor volleyball products.

TENNIS

Whether it is competitive or recreational, youth or adult, or grass or hard-surface, we have a tennis system for you.

FIELD HOCKEY, FUTSAL, LACROSSE, PICKLEBALL, BADMINTON, AND TEAM HANDBALL ARE SOME OF THE OTHER SPORTS WE CAN FILL YOUR GOAL AND NET NEEDS.

Go to
www.unlimitedsportssolutions.com
for a full listing of all sport products.

BENCHES & BLEACHERS

We can help you outfit any venue with a variety of player and spectator seating.

DUGOUT BENCHES

These benches provide plenty of options on sizes and features to compliment our Fielders Choice Dugouts. Player Benches are made of anodized aluminum planks (2"x10") equipped with backrests. Dugout benches are Player Benches equipped with a rear single or double plank shelf. Shelves help optimize organization of the dug-out and remove tripping hazards by giving players an area to store extra equipment, bags, clothing, water bottles, etc. Benches are available in many standard and custom option lengths.

BLEACHERS

Bleacher options include code compliant 3, 4, & 5 Row Bleachers with 2"x12" Mill Plank Footboards, 2"x12" Anodized Plank Seats.

3 and 4 row bleachers have a Rise and Run of 6"x24". We have standard length sizes of 12', 15', 21', 27'. Custom sizing is available too. All units are available with a Tip n' Roll option.

For information on bleachers 5 row and higher, please contact us for additional information.

PARK BENCHES

We can help outfit your venue with additional seating along the baselines, outfield fences, and shaded areas. Player benches and our line of Natural Benches (steel frame and wood planks) can be placed as portable, semi-mounted, or permanently mounted throughout your venue. Scores Table Benches can be placed directly behind or near the backstop to provide a central location for easy access by both dugouts and the umpire.

OTHER PRODUCTS & ACCESSORIES

SCREENS

We pride ourselves on helping our customers keep players safe and our line of screens do just that. Made with heavy duty galvanized steel and #36 baseball netting, our screens are built to last. For additional safety, optional frame padding is available. Screens are available in L, Softball, and Square Infield.

BATTING CAGE NET PROTECTOR

Net protector adds impact protection and visual appeal to cage netting. 5'X7' Hemmed vinyl with strike zone outline. Grommets placed in each corner for easy attachment. Comes with four poly ropes for attachment.

ARTIFICIAL TURF PRODUCTS

- ▶ **HITTING MAT** - Field Green 5mm thick TXT Nylon Turf and heavy duty polyurethane backing Hitting Mats will hold up to high usage. 8'x6' or 10'x6' mats with home plate and bases can be used indoor or outdoor. Great complement to Hack Shack Batting Cages or Sweet Spot Hitting Stations.
- ▶ **BATTING CAGE TURF KITS** - Whether your cage is indoor or outdoor, our batting cage turf kits give your batting cage eye appeal, extend the cage life, and protect the ground beneath. Several turf options are available to fit your facility. Turf comes pre-cut to the measurements of your cage for ease of installation.
- ▶ **DRIVEN GOLF DRIVING RANGE TURF KIT** - Golf hitting mat (5'x5') with tee slot and 10'x10' turf cage floor mat.

FIELD MAINTENANCE

Athletic field solutions for any facility from the planning stage through the “Play Ball” stage.

INFIELD CONDITIONERS

CHOOSE THE TURFACE CONDITIONER THAT’S RIGHT FOR YOU:

▶▶ TURFACE MVP®

No other infield conditioner has been used on more diamonds than Turface MVP. Its large particle size resists compaction and controls moisture. MVP is ideal for infield maintenance as well as construction.

▶▶ TURFACE PRO LEAGUE®

Smaller, more uniform particles and color options of natural, red, Heritage Red and Champion Brown make this conditioner the choice of most Major League groundskeepers. Choose Turface Pro League for unsurpassed performance and just the right aesthetic! Learn more about the complete Pro League lineup.

▶▶ TURFACE QUICK DRY®

The fine particle size of Turface Quick Dry makes it the perfect choice for eliminating puddles and standing water. And it works effectively without caking or hardening. There’s a reason Quick Dry is called the game saver!

MOUND & BOX PACKING CLAYS

No two areas of the diamond receive more abuse and constant wear than the pitcher’s mound and around the plate. Make sure they are built and maintained properly with the best, virgin packing clays in the industry. Turface® clays provide a superior degree of plasticity and offer unmatched footing and wear resistance.

▶▶ SAFT™ 5-STAR™ PACKING CLAY

A clay-silt mixture that bonds firmly and quickly to help streamline installation. It is a reliable, high-density mound and plate clay that is highly durable for long-lasting performance and wear resistance

For more information on Turface Sports Field Solutions and Educational Resources, visit www.unlimitedsportssolutions.com/products/field-maintenance

We scientifically engineer solutions for your infield issues. No guesswork. No excuses. We’re the originator of engineered soil in baseball and continually push the industry toward improvements in field solutions.

- ▶▶ **Mound Clays** — Dura Pitch Premium, Black Stick, ProLoc Blocks
- ▶▶ **Dura-Trax** — Bulk Warning Track Mix
- ▶▶ **Engineered Conditioners** — Pro Slide Professional and Platinum

Classic Infield Mix

- Blend of 72% Sand; 12% Silt; 16% Clay
- Lower Silt to Clay Ratio enables a firm playing surface
- Low maintenance – does not require access to water to maintain field

Collegiate Infield Mix

- Blend of 67% Sand; 15% Silt; 18% Clay
- Increased Clay Content vs. DuraEdge Classic Infield Mix is perfect for those that want a “tighter” playing surface without a ton of maintenance
- Requires access to water to manage moisture content of field

Professional Infield Mix

- Blend of 60% Sand; 18% Silt; 22% Clay
- Highest Clay content of DuraEdge Infield Mixes
- Creates firm, corky, playing surface
- Requires access to water to manage moisture content of field

We manufacture and produce soil conditioners utilizing a seven-step process. The absorbent clay is mined, sized, dried, ground into specific particle sizes, dried again, thermally optimized and de-dusted with our own air-swept technology. This process is unique to Pro’s Choice products and ensures the highest quality products on the market today. Because 100% of the granules are ground and sized prior to the thermal optimizing process, each granule receives the full benefit of thermal optimization. The result is a product that helps prevent rain-outs, breaks up compaction, improves a field’s resiliency and makes for an overall better playing surface.

- ▶▶ **SELECT** — Premium Infield Conditioner
- This premium infield conditioner keeps infields smooth, safe and resilient. It’s specially sized granules and red color makes the perfect infield top dressing.

FIELD MAINTENANCE SOLUTIONS

Protect high traffic areas of your ball field with Field Armor.

Brought to you by Aeroform Athletics®, Field Armor is a buried ground fortification panel that eliminates rutting and puddling of water in high use areas on the playing field. Field Armor® consists of Aeroform Athletics® newest and most innovative line of products. This ground fortification product line offers decreased maintenance time and labor cost in batters’ boxes, catcher’s area and softball pitchers areas. The sub-surface panels are non-porous, waterproof and withstand years of use. Field Armor® is designed to provide protection against top dressing soil damage from players cleats, poor drainage and regular sliding areas over time.

FIELD MAINTENANCE TOOLS

Give your grounds crew the tools they need to provide the best playable surface.

With several hundred field maintenance tools to choose from, we’ve got the right tools for your crew. Let the field maintenance experts at Unlimited Sports Solutions help you pick the right tools to care for your field.

FIELD MAINTENANCE TOOLS INCLUDE:

- » Stiff Drags
- » Matt Drags
- » Nail Drags
- » Cocoa Mats
- » Cocoa Mops
- » Monster Brooms
- » Double Rakes
- » Dura Rakes
- » Lute/Scarifier Rakes
- » Turf Lute Rakes
- » Wooden Rakes
- » Loop Hoes
- » Tamps
- » Roller Squeegees
- » Hoses
- » Sod Cutters
- » Puddle Pillows
- » Chalkers
- » Chalk Boxes
- » Field Paint Strippers
- » Field Marking Paints, Painting Machines, and Accessories
- » Batters Box Templates
- » And much more!

FIELD MAINTENANCE SOLUTIONS

Whether you need sections of your athletic field covered or you need full surface coverage, we can help you with our full selection of covers and tarps. Below is a breakdown of the most common covers and tarps. Don't see what you are looking for, email or call our experts today to help you with any custom needs.

INFIELD TURF PROTECTORS

Available in 23 colors, each protector can be fabricated to the your exact size and shape needs.

FULL INFIELD COVERS

Don't let rain wash away extended "play ball" time. With a full line of full infield covers, we can help you minimize down time of your field due to rain.

WEIGHTED AND NON-WEIGHTED SPOT COVERS

Commonly used to cover batters box and pitching mound areas, these are the most used covers from Little Leagues to the Major Leagues.

BLEACHER COVERS

Covers seating sections, sides, or back of bleachers.

TRACK & SIDELINE PROTECTORS

Protect track and sideline areas from damage from cleats and heavy foot traffic.

SOL-AER WINTER TURF BLANKET

Combining a revolutionary non-woven co-polymer fabric with a heat-absorbing silver lace coating, SOL-Aer Turf Blankets provide improved insulation for winter-weary grass root systems.

COVER AND TARP OPTIONS FOR ANY AREA OF YOUR ATHLETIC FIELD VENUE.

SERVICES

The experts at Unlimited Sports Solutions are ready to help you provide the best player and spectator experience by supporting your project from the onset of the planning stage all the way to the “PLAY BALL” stage!

INSTALLATION CONSULTING

Each of our products come with detailed installation instructions but it doesn't end there. Our installation experts are available to assist with installation questions via phone or Facetime on every sale. We understand time is money so for large or complicated projects, we have an **Installation Support Service**. With this service, one of our Installation Pros will travel on-site to assist with getting the installation process started correctly for a service fee. Our Pros will be hands on in getting your installation team trained for maximum efficiency with a desired goal to reduce installation labor time.

Decreased labor cost > Installation Support Service Fee = Lower Project Cost!

DIGGING DEEPER INSTALLATION NETWORK

Many of our products can be installed with limited tools and construction experience. If you aren't a construction specialist or your project requires an expert's touch, the **Digging Deeper Installation Network** is your solution. This Network is made up of contractors and installers throughout the USA who are certified in installation of our products. If you are interested in working with a certified installer in your area or becoming a certified installer, contact us.

GRAPHIC DESIGN AND ADVERTISING CONSULTING

Our team can help you provide that **WOW factor** for your venue guests with top of line branding and graphics. We can also assist you with identifying advertising opportunities utilizing the space on our products to bring in more money for you! Windscreen, backstop padding, foul poles, benches, & dugout enclosures are some of the branding and advertising possibilities of our products.

FIELD DESIGN CONSULTING

With our large selection of standard and custom products, we can assist you with product fit and layout. Contact us for assistance in identifying the right products to enhance the player and spectator experience at your venue with an emphasis on keeping them safe.

BRANDING & GRAPHICS

Unlimited solutions for making your facility stand above the rest!

Padding, fence, bleachers, dugouts, building walls, scoreboards, and even foul poles represent some of the spaces within a sports complex that are prime spots to let people know where they are or whose turf they are on. Using advanced high quality printing and graphics capabilities, you can show off your logo, complex name, mascots, advertisers, or action prints. The experts at Unlimited Sports Solutions are here to help you create the vision you desire for your sports facility using:

Quality UV inks

Digital printing and screen printing options in vibrant color that brings your product to life

Additional UV coating to protect fabrics for extended longevity.

Regardless of the scale of the project, we pride ourselves on speed. If you are ready to make a name for yourself, give us a call today!

EXPERIENCE

ENGINEERED FOR EXCITEMENT.

"They have excellent communication and even better customer service. The quality of their materials is unmatched with their ability to fabricate many of the products in house. USS takes great pride in their work and we have seen it first hand. We will continue to partner with Unlimited Sports Solutions to help grow and make our facilities some of the best around."

Brad McMillan

Assistant Principal and Activities Director
Waverly High School

"On behalf of myself, the staff, and student athletes of the Carlos Beltran Baseball Academy, I would like to thank the team at Unlimited Sports Solutions for your support in assisting us in building a premier baseball facility. This first class stadium further supports our mission of preparing student athletes to lead responsible and productive lives as compassionate human beings while developing as elite baseball prospects."

Carlos Beltran

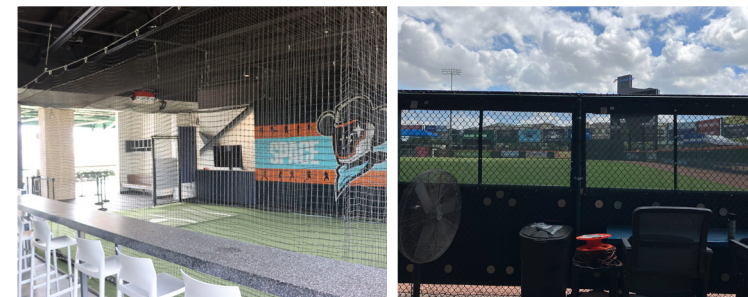

19 year MLB Veteran and World Series Champion

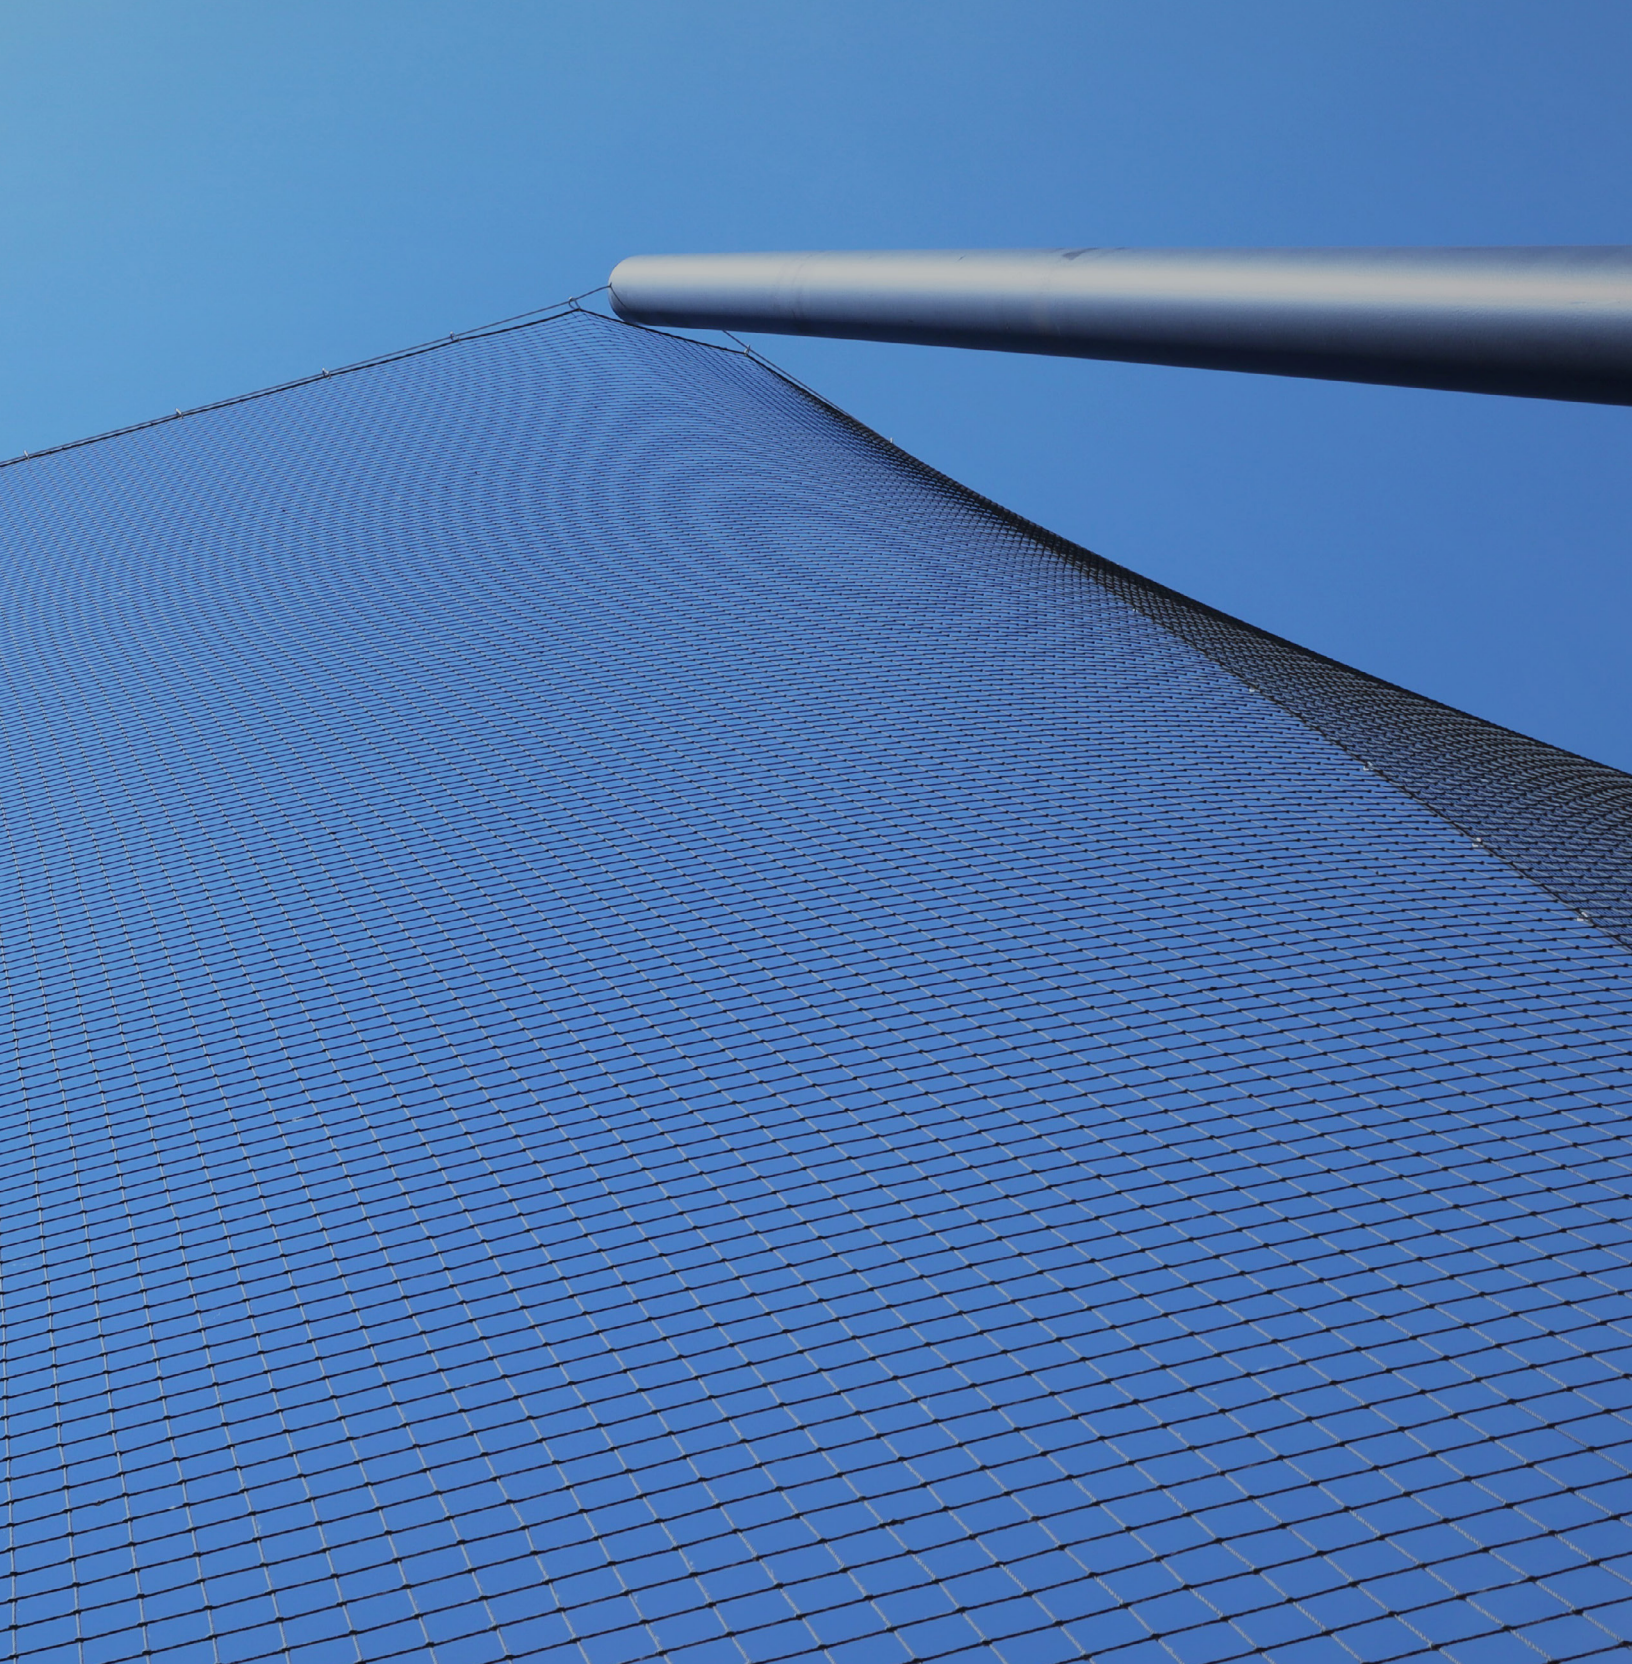

"Over the past 2 years we have had numerous facility upgrades, renovations, and additions around the ballpark. The USS team stepped up and have absolutely knocked it out of the park. You name it, they had a SOLUTION. There were many challenges, changes and additions requested as the projects progressed. USS was always ready to provide options and solutions in a timely manner to address the changes needed. They worked with us to overcome the various project challenges and completed the job on time and within budget, and provided a finished product that have exceeded all expectations."
