GeoBondX

Resin bound decorative surfacing

The modern approach to paving

GeoBondX

Resin Bound Decorative Surfacing

GeoBondX is a resin binder system for use in resin bound aggregate paving systems which are typically applied externally with a trowel or power float finish onto a suitable stable sub-base. Complete Streets offer a range of resins and wide variety of suitable decorative aggregates for use in resin bound surfacing, which combines durability and performance with stunning appearance.

Resin Bound surfacing is highly attractive and the range of colours and textures available from natural and manufactured aggregates, coupled with the possible use of other design elements, gives the specifier many different design options with surface appearance.

Areas of use:

- Driveways and Courtyards
- Footpaths
- Heritage sites
- Parking areas
- Public spaces
- Plazas and Parks
- Playgrounds
- Tree Pits
- Landscape schemes
- Garden Design

Features and Benefits:

- Aesthetically Pleasing
- Highly Durable
- No Loose Stones
- Restricts Growth of Weeds
- Solvent-Free
- Produces Stunning Surfaces
- Superb range of aggregate blends
- Perfect for harmony with existing environment
- Adaptable Curing Times
- Tree Pit Packs Available
- Standard and UV Resistant Versions Available

Waste Water Management

GeoBondX has been developed as a pervious system. GeoBondX allows 20/ gal/min/SF of water to soak through the surface, helping to prevent the causes of flash flooding.

Low impact development methods designed to handle storm water runoff in a sustainable and cost effective way can be used in conjunction with GeoBondX for an appealing solution to conventional systems.

Surfaces can be printed in herringbone, or offset brick patterns.

Tree Pits

GeoBondX Tree Pit packs provides the solution to problems associated with open tree pits and metal tree grilles such as litter and waste, trip hazards, weeds and vandalism.

Pervious GeoBondX allows on average 20 Gal/Min/SF of water to pass through to the roots of the tree without the need for watering tubes.

GeoBondX creates a hard wearing, natural finish that compliments any environmental improvement scheme.

What to do next...

To take advantage of the benefits of GeoBondX, call us today to discuss your requirements.

We can work with a member of our installer network within your area.
