

*Shade'n Net*

LET US PROTECT WHAT  
IS IMPORTANT TO YOU

AN AMERICAN LEADER IN SUN **UV PROTECTION**

Parks and Recreation • Schools • Preschools • Aquatics Facilities • Military  
HOA and Neighborhood Play Spaces • Athletic Facilities • Parking Structures

A large, multi-segmented shade net structure is the central focus, featuring segments in shades of red, orange, and yellow. It is installed over a paved area with a geometric pattern of light blue and tan tiles. In the background, there are palm trees and other greenery, suggesting a park or outdoor event space. The net is supported by black poles and has visible metal fasteners at the joints.

Shade 'N Net specializes in design concepts and working with architects to create beautiful and unique spaces such as Zen Gardens and event spaces with shapes and colors that match the intended use.

## PARKS & REC

---

Maximize the use of your park  
by offering shaded seating areas

---

---

Shade structures provide cooler temperatures,  
up to 15 degrees cooler than alternate shade  
types. The warm air is able to escape through the  
fabric while keeping sun off of everything below

---

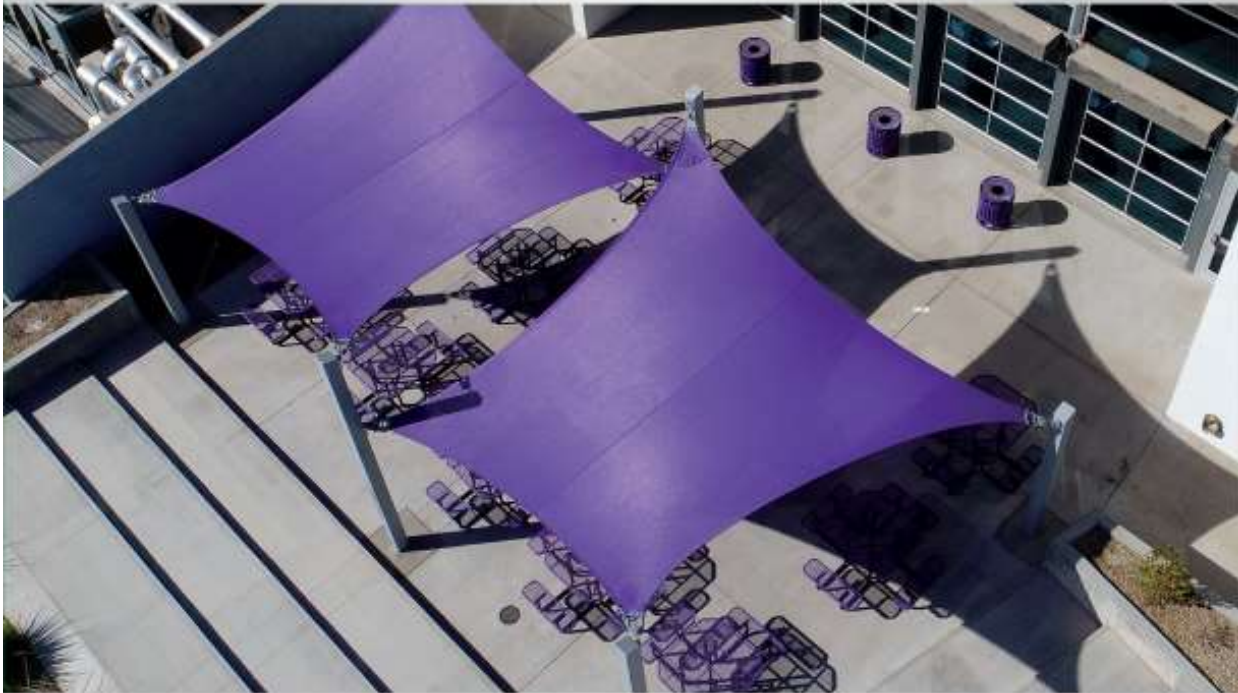

---

Themed spaces can include color selection, design and placement that will enhance the use of a space while keeping it cooler

---

## PARKS & REC

---

Use shade structures to reduce the risk of heat fatigue and dehydration

---

## SCHOOLS

---

Shade structures reduce the risk of skin cancer by blocking up to 97% of harmful UV rays of the sun

---

---

Shade offers the benefit of protecting the investment that is underneath it as well

---

## SCHOOLS

Shade structures offer  
outdoor learning spaces

## AQUATICS FACILITIES

Offer shade for guests  
around swimming pool areas

---

Bright colored shade fabric adds an air of festivity and fun while providing sun protection to your community

---

## AQUATICS FACILITIES

---

Provide a cool oasis of ambient  
shade with the variety of products  
Shade 'N Net has to offer

---

---

Shaded splash pad areas  
provide relief from the hot sun

---

## ATHLETIC FACILITIES

---

Give guests multiple shade structure options so that teams can gather separately and patrons can enjoy events with plenty of shade options to spread out

---

## HOA & NEIGHBORHOOD PLAY SPACES

---

Extends time outdoors for both  
play and leisure activities

---

---

Choice of brilliant color combinations to  
match any logo, landscape or color theme

---

---

Keep leather seats cooler and  
unwanted tree debris off of vehicles

---

## PARKING STRUCTURES

---

Hail protection using fabric covered structures reduces the risk of damage. Hail stones literally bounce off the top, keeping vehicles protected underneath

---

---

Extreme span shades can cover over-sized areas like entire basketball courts or aircraft

---

## MILITARY

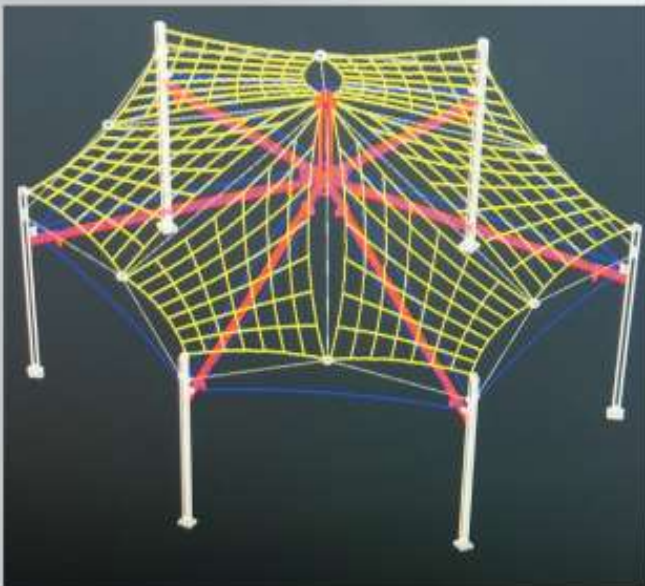

---

Strong, sturdy shade structures are engineer-designed to withstand 120 mile-per-hour winds

---

# CONCEPT

---

Raiders

---

## TO CREATION

---

Concept to creation

---

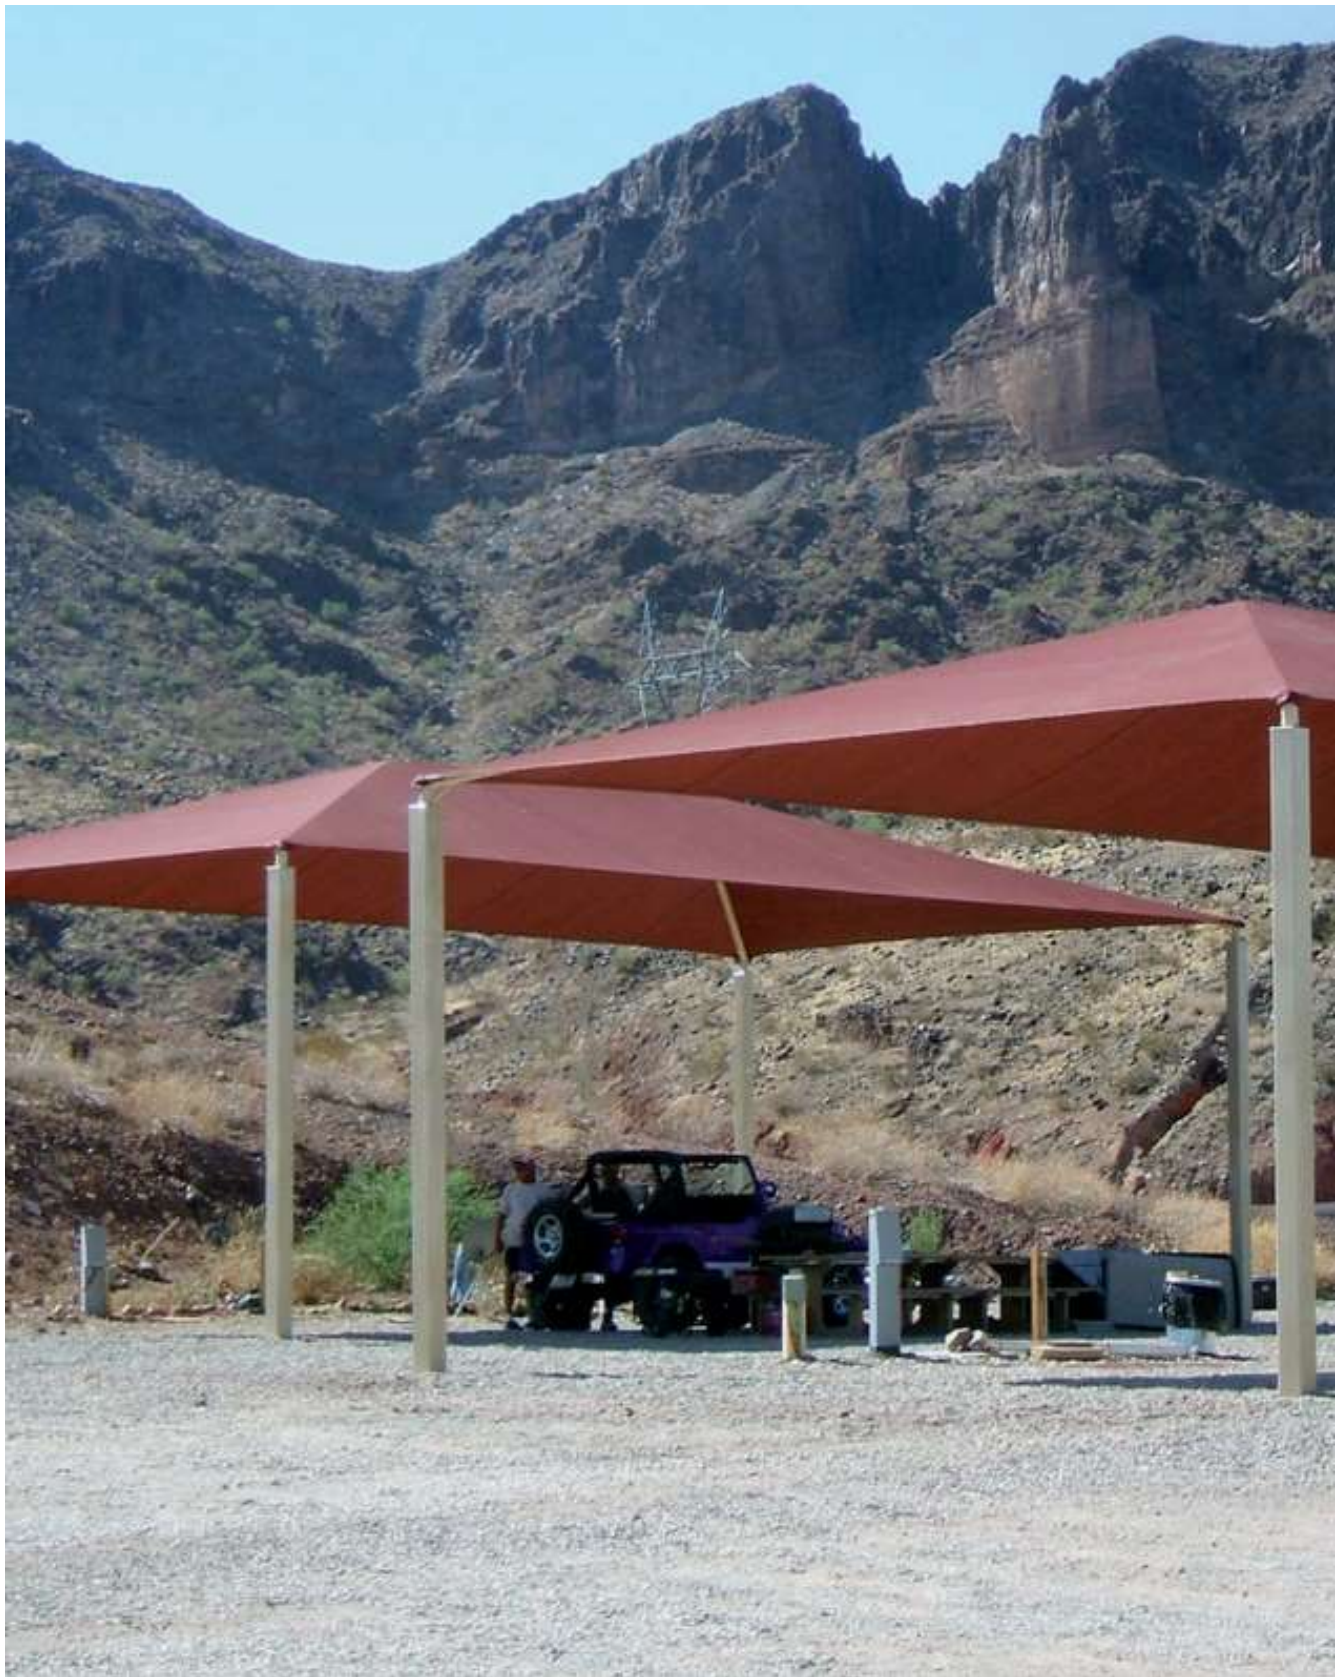

## CHURCHES

## PRESCHOOL/DAYCARE
