The Shade 'n Net Experience.

Shade 'n Net is a leading manufacturer of architectural fabric tension membrane structures, specializing in shade structures. Founded in the early 1990's in Australia, Shade 'n Net USA was incorporated in 1995 becoming one of the early pioneers in the shade structure industry. Through the years we have become a leader in innovation and standards earning the loyalty of our growing list of customers. Our shade structures are designed with state-of-the-art 3D CAD systems that undergo structural analysis of simulated load behavior to produce tension membrane designs to withstand the most stringent of outdoor elements.

Turnkey Shade Solutions

1. Engineering & Design

We gather your requirements based on your site analysis to determine the best solution for your shade needs. Our experienced team of Engineers and CAD designers will work with you to find the most efficient and cost effective shade solution for your unique situation.

2. Manufacturing

Our team of highly skilled manufacturing professionals using state of the art equipment will transform your conceptual design matching the integrity of the raw materials we use to result in a structure of components of the highest integrity that honor our warranty.

3. Freight & Delivery

Once your shade structure has been manufactured it passes our quality control systems to ensure our standards and your expectations are met. Our packaging department carefully wrap and crate your kit for timely protected delivery.

4. Installation

The Shade 'N Net registered Distributors are a network of experienced contractors that focus on mitigating risk and ensuring a quality installation with the best results. Distributors follow our manual of installation to ensure warranty standards.

5. Maintenance and Repair

Shade structures are easy to maintain and require minimal maintenance. We offer a comprehensive shade structure repair and canopy replacement service for damaged and old models.

We continue to provide premier shade solutions for: U.S. Military, City, State and Federal Government, Park and Recreational Departments, School districts, defense contractors, resorts/hotels, churches, airports, rental car facilities, residential, covered parking and endless industrial applications.
