FIRST EDITIONS®

SHRUBS & TREES

First Editions® Shrubs & Trees take the hard work out of yard work. With a passion for plants that are as hard-working as the home gardeners planting them, First Editions® has curated a collection that's as fun as it is functional. It's beauty and brawn. From trusted regional favorites to fantastic native selections, each plant has been handpicked for top-notch performance.

But that's not all. First Editions® goes the extra mile by introducing plants with better flowering, greater disease resistance, lower maintenance needs, and more. These are plants that truly deliver, year after year. They're plants with purpose. Plus, they're easy to spot in our distinctive bright purple pots.

First Editions® is the most fun you've ever had with shrubs and trees!

So, take some time to enjoy this catalog. Learn all about the brand and what we do to help you have success, and then dive into the wide range of shrubs, trees, perennials, and more that can fill you and your clients' landscapes with beautiful, hard-working plants for years to come.

Eclipse® Bigleaf Hydrangea | p.50

FIRST EDITIONS® AIMS TO MAKE A STATEMENT WITH EACH PLANT THAT ENTERS THE MARKET.

We are intentional with new introductions, as well as refining the current roster, because we want this collection to remain the best for each species. We don't want to flood garden centers and landscapes with more for the sake of more. We aim for unique and better. So, that means a focus on intentional breeding efforts in-house, partnering with fantastic breeders around the world, and keeping a keen eye out for sports occurring naturally.

When we find a plant that might be interesting enough to make the cut, we put it through its paces. It's not a quick road to introduction, and that's because we want to be sure its unique characteristic can stand up over multiple generations, in different climates, and from production through the landscape.

YARD CHALLENGES? THESE ROCK STARS WORK HARD.

Part of those unique characteristics that we look for in a First Editions® plant is that they solve some sort of problem in the landscape (and look great doing it). This might mean drought tolerance, salt tolerance, standing strong with wet feet, adapting to poor soils, or holding up a hillside.

Some of our favorite Rock Stars' problem-solving attributes are listed below. Scan this QR code to see what the full First Editions® collection can do!

COBALT-N-GOLD™ HYPERICUM P.56

- Drought Tolerant
- Salt Tolerant
- Deer Resistant
- Good for Containers
- North American Native Species
- Attracts Pollinators
- Great for Mass Planting

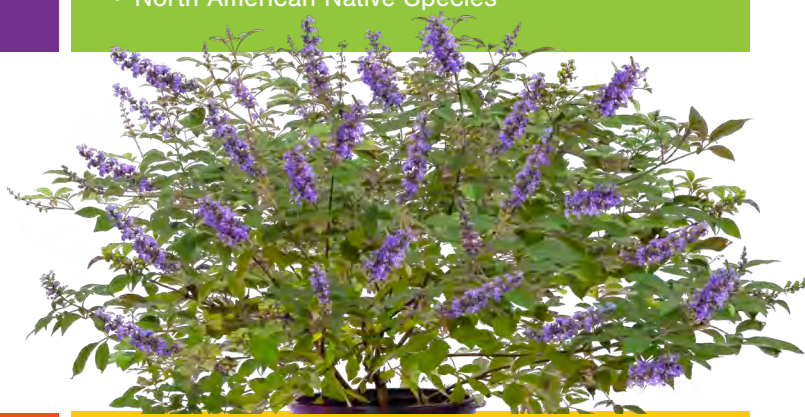

JADE PARADE® SAND CHERRY P.80

- Drought Tolerant
- Salt Tolerant
- Deer Resistant
- North American Native Species
- Attracts Pollinators
- Great for Mass Planting

BANANAPPEAL® SMALL ANISE TREE P.61

- Deer Resistant
- Good for Containers
- North American Native Species
- Great for Mass Planting

FLIP SIDE® CHASTETREE P.97

- Drought Tolerant
- Salt Tolerant
- Deer Resistant
- Attracts Pollinators

WHAT MAKES A ROCK STAR?

Every plant in the First Editions® collection has earned its place, and some of them have gone above and beyond to be exceptional performers in production, at retail, and in the landscape, giving them the title of Rock Stars. These plants deliver with ultimate multi-region performance, versatility, and outstanding visual interest.

Among these Rock Stars, you'll find a wide range of colors, textures, and sizes to add beauty to any outdoor space. Whether you're looking for drought tolerance or native selections, these Rock Stars answer the call.

Mark Sellew

President, Prides Corner Farms

First Editions® is a great example of a brand that speaks to the consumer with a great selection of strong garden performers. Your new tags are the best in the industry, fun, colorful and informative. The new color for the containers was also a great upgrade. This brand speaks to the younger, millennial customer that is increasingly the most important demographic our industry must connect with.

The bottom line is still the plants. Prides demands that the plants we grow both look amazing and are rock solid garden performers for the end consumer. I believe that First Editions® plants deliver on that promise.

Two Rock Stars in First Editions® that speak to this are Amber Jubilee™ Ninebark and Centennial Blush Magnolia. In spring, we are sending lots of well-budded and branched Centennial Blush to our customers that are beautiful. Soon afterwards, we follow with Amber Jubilee™, which has the most unique foliage among Physocarpus on the market, making it a great seller and garden performer.

HANG WITH THE BEST BUDS

Landscaping with First Editions® is made easy when you've got Best Buds, our program that helps inspire beautiful and functional designs. Think of it like a buddy system for gardening! The Best Buds concept provides home gardeners with an easy path to making the garden of their dreams a reality. We build social content, in-store brochures, and signage to bring this to life and inspire them to buy multiple First Editions® plants instead of one.

CHECK OUT THESE BEST BUDS FEATURING ROCK STARS IN THE FIRST EDITIONS® COLLECTION!

WHITE DIAMONDS® PANICLE HYDRANGEA ICEBERG ALLEY® SAGELEAF WILLOW

The dark green leaves and white blooms on White Diamonds® pairs gorgeously with the silver leaves of Iceberg Alley®.

GROWERS

This is a great way to look at your First Editions® mix, making sure that you've got the right selection to sell combinations instead of single varieties.

LANDSCAPERS & RE-WHOLESALE

Use Best Buds to help gather ideas for your displays or next client presentation and installation!

SHINING SENSATION™ WEIGELA BERRY WHITE® PANICLE HYDRANGEA

The shiny burgundy leaves on Shining Sensation™ contrast with the white summer flowers of Berry White®. In fall, those leaves complement the hydrangea flowers that age to deep red.

ECLIPSE® BIGLEAF HYDRANGEA COBALT-N-GOLD™ HYPERICUM

The large, dark leaves on Eclipse® pop when planted behind a garden border featuring the finely textured blue-green foliage of Cobalt-n-Gold™.

FLIP SIDE® CHASTETREE VINTAGE JADE DISTYLIUM

Flip Side®, with its purple flowers and unique purple and olive leaves, will look great when planted with the contrasting dark green foliage on Vintage Jade.

Scan for more Best Buds inspiration
for other plants in the collection!

**The Zones listed represent where both plants are hardy. For example, Little Hottie® is hardy in Zones 3–8 and Purple Magic is hardy in Zones 7–9. Their hardiness overlap is Zones 7–8, which is what's shown above.*

RETAILERS

Be sure to use this to push Best Buds in your displays, especially when plants aren't in their peak season to help drive higher revenue and average ticket value.

PURPLE MAGIC CRAPEMYRTLE LITTLE HOTTIE® PANICLE HYDRANGEA

Purple Magic provides vertical structure and pops of color when planted behind Little Hottie® and its glistening white blooms.

CRIMSON FIRE™ FRINGE FLOWER BALI™ HIBISCUS

Plant Crimson Fire™ along the base of Bali™ to add contrasting height and celebrate the red fringe flower leaves and white and purple-red centered hibiscus flowers.

WHERE DO FIRST EDITIONS® PLANTS COME FROM?

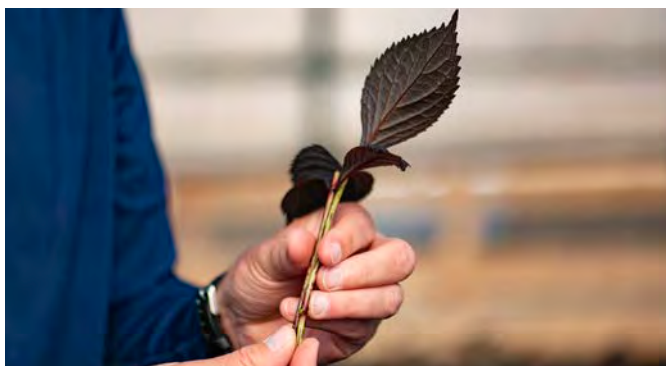

BAILEY INNOVATIONS™

Every plant has a story, and First Editions® uses many avenues to bring genetics to the market that provide outstanding features for the trade and consumers. Things like more blooms, unique colors, and disease resistance. And for some of these plants, the journey begins at First Editions® brand owner Bailey.

With so many new plants hitting the market, it takes time and commitment to find traits that are truly unique. Bailey Innovations™, the breeding arm of Bailey, focuses on bringing the best genetics to the market. This begins with strategic planning to decide what characteristics and species are desired, then the breeding and trialing begins.

Our breeding efforts are led by David Roberts, Director of Plant Breeding at Bailey Innovations™, and his team of plant scientists. Together, they breed and identify new genetics that are an improvement for popular shrubs like *Hydrangea*, *Vitex*, and *Lagerstroemia*. One example of their work is Eclipse® Bigleaf Hydrangea, which has dark leaves that remain dark all season long, even in warm climates. They also look for shrubs with a compact habit, consistent rebloom, earlier bloom time, and more! To be worthy of introduction, each plant must pass the test of being a top performer in production and landscape trials.

INTERNATIONAL PARTNERSHIPS

Scan for the full list
of North American
Licensee Partners

In addition to the in-house work at Bailey Innovations™, First Editions® is also proud to work with a network of top breeders from across the globe to deliver the next Rock Star plant to the lineup. With this stream of new plants, the brand continues to find solutions that work for your business and your customers.

A key measure of success is regional performance, so we partner with public gardens, universities, and First Editions® licensed growers across North America to conduct landscape and production trials before moving forward with potential introductions

Jeffries Nursery, located in Manitoba, Canada, discovered this incredibly hardy selection of the native *Salix candida*. Iceberg Alley® Sageleaf Willow is covered in intense silvery-white foliage, and attractive yellow and red catkins appear on showy stamens in spring. Tested for years across Canada, Jeffries was impressed with its dramatic display and survivability in tough landscapes. After further testing by Bailey and First Editions®, Iceberg Alley® was introduced in 2020.

INTRODUCING FLOWERFULL® SMOOTH HYDRANGEA

A BETTER PLANT FROM PRODUCTION TO THE LANDSCAPE

“You’re introducing another hydrangea?” We’ve heard it, and we get it.

The goal is not to flood the market with “just another hydrangea.” First Editions® will only introduce a new variety that truly provides a unique attribute. And this first foray into *Hydrangea arborescens* does just that. FlowerFull® Smooth Hydrangea solves the frustrations of weak stems and foliar diseases, providing better genetics from the greenhouse to the garden.

Bailey began breeding *Hydrangea arborescens* in 2016 and developed a substantial program to elevate this garden staple. After eight years of focused breeding, national trials, and grower feedback, FlowerFull® joins the collection with abundant blooms that won’t fall down.

WHY YOU NEED FLOWERFULL®:

- Produces two-to-three times more blooms per season than other *Hydrangea arborescens*.
- Features strong stems that don’t flop in the wind and rain, holding the bold blooms tall all season.
- Disease-resistant, lush foliage that stays clean late in the season, providing wonderful contrast to the blooms.
- A low-maintenance marvel that requires less touch points in production, at retail, and in commercial and residential landscapes.

GROWERS

FlowerFull® blooms the first year in production, requires less inputs to maintain a healthy and shippable crop, and the strong stems keep the flowers held high in the field and during transport.

Debbie Lonnee

Product Development Manager, Bailey Nurseries

*With the support of Bailey leadership, the *Hydrangea arborescens* breeding program was developed at our greenhouse and trial facility in Cottage Grove, Minnesota. In collaboration with our colleague Dr. David Zlesak, this long-range effort is an exciting advancement in this important landscape species.*

Having the ability to test these new genetics at Bailey and select First Editions® licensee sites across the United States gives us a unique opportunity to select the best selections for growers, retailers, and landscape professionals. FlowerFull® checked all the boxes to give each of those market channels a better alternative to what exists, and I am excited to see it flourish in landscapes around the world!

RETAILERS

FlowerFull® will serve as a fantastic impulse item with its proliferation of flowers and clean foliage, making it a staple to pair with Best Buds for increased unit sales and average ticket prices.

LANDSCAPERS

FlowerFull® delivers the classic smooth hydrangea blooms your clients ask for, but don't fall over after a thunderstorm, reducing your maintenance needs throughout the growing season.

Scan to see FlowerFull® take on wind and rain without falling down!

MERCHANDISING WITH FIRST EDITIONS®

We want you to be successful at retail, so say hello to the bright colors, striking display, and plants flying off the shelves with First Editions® merchandising.

We know that this attention-grabbing merchandising draws customers in, so take the time to cross merchandise with other products like decorative containers and fertilizers to sell even more!

TURN ON DARK MODE

A perfect example is inspiring consumers to garden in Dark Mode, pairing Eclipse® Bigleaf Hydrangea with other dark foliage plants for a dramatic, monochromatic landscape, or contrasting with bright colors like Lucky Devil® Ninebark and Iceberg Alley® Sageleaf Willow.

Having individual Rock Stars is important, but knowing how to use them in the landscape with other plants is also a big deal. Using the Best Buds concept from Page 8 will help you increase First Editions® sales and brand loyalty.

POTS AND TAGS

These are often the first things customers see at retail, so we've created pots and tags that stand out with bright colors. We've heard that the bright purple pot, colorful tags, and fun sayings have been a big hit.

Additionally, we've made updates to the back of the tag with the consumer in mind—easy-to-understand bullet points on the back and a QR code to link them to find more information in addition to what's on the tag

SHOPPERS LOOK FOR CUES EVERY 20-22 FEET, AND A WELL-POSITIONED, STOCKED, AND MERCHANDISED AREA HAS BEEN PROVEN TO INCREASE SALES BY 25-35%!

With First Editions®, we're here to support you on every step of the journey with your customers. From posters, billboards, bench tape, and more, we make merchandising easy for you and your employees. No matter the store setup, these tools can help draw customers to First Editions® plants, help them understand how to use them at home, inspire them to buy more, and give them resources for at-home care.

Want a simple solution? We've got your back with the First Editions® Merchandising Program! We can help you create an easy-to-assemble brand display to attract your customers and raise your revenue.

HERE ARE A FEW MORE OF OUR FAVORITE MERCHANDISING IDEAS:

- The easiest way to pull customers through your store is to invest in well-planned end caps. You can pull plants together that complement each other and inspire shoppers to think about Best Buds for their garden!
- Use variety-specific signs to show customers what grows well in their region. And for plant ideas, check out the regional Rock Star list.
- Place general brand signs near high-traffic areas to drive interest in First Editions® plants.

Scan the QR code to learn about ordering merchandising materials for your store.

CONSUMER RESOURCES

First Editions® consumer marketing efforts reach home gardeners where they are to drive awareness of our brand, encourage purchases, and build loyalty to our products so they come back for more. That's why we have an abundance of consumer resources to ensure they have success with our plants.

ONLINE RESOURCES

FIRSTEDITIONSPLANTS.COM

Home gardeners looking for a one-stop-shop for all things First Editions® are in luck. Our website provides details on each plant in the collection and features a blog that offers planting help, care tips, and landscape inspiration.

INFORMATIONAL VIDEOS

Garden Gab™ is our video series that makes learning about shrubs and trees easy. These videos provide care tips and inspiration for how to make home gardener's plant dreams come true.

EMAIL NEWSLETTERS

You've got mail and it's from your friends at First Editions®! The First Editions® monthly newsletter sends all the latest tips and inspiration straight to inboxes.

TELLING THE FIRST EDITIONS® STORY

First Editions® paid and digital advertising efforts appear everywhere from national and regional print magazines, key garden-related websites, social media, streaming TV, and more. We make sure that when consumers are searching for gardening content, First Editions® is there. Check out these recent examples!

SPECIAL EVENTS

We also get the word out by sponsoring home and garden shows, gardening festivals, and partnering with retailers on special events. By doing so, we engage with home gardeners and build awareness for the brand and our plants.

To support the launch of Eclipse® Bigleaf Hydrangea in 2024, we did a number of consumer-facing events, including a complete takeover of the 10-day Great Big Home + Garden Show in Cleveland and over 25 events throughout Texas with Calloway's Nursery during the total solar eclipse. These events raised awareness and drove direct sales by being directly in front of home gardeners.

GROWER & RETAILER RESOURCES

The updated resources section at Shop.BaileyNurseries.com has all the information you need for your business. Get access to production tips, cultural information, catalogs and brochures, our image and video library, and even more marketing materials. These tools are there to make growing, planting, or selling First Editions® plants a breeze.

A LINER FOR EVERY NEED

Growers, if you're looking to buy liners and upshift them to a sellable size, you're in luck! Whether you're buying small plants from a licensed First Editions® grower or from brand owner Bailey Nurseries, you've got options.

From Bailey, you have bareroot, JumpStarts®, and JumpStarts® 5.5 liners to build a flexible planting schedule that allows you to spread out labor and have fresh crops at various times of the year.

BAREROOT

We focus on producing the right plants in the right climate to create healthy and vigorous bareroot liners that set you up for success in the future. These liners are available from Bailey sites in Minnesota and Oregon.

JUMPSTARTS®

These potted liners were developed by growers and for growers to provide flexibility for your planting schedule while maintaining a consistent quality for you and your customers. With year-round shipping from Minnesota, Oregon, and Georgia, you can access these liners when you need them.

JUMPSTARTS® 5.5

This liner features all the benefits of JumpStarts® with twice the size to help you finish larger containers. This liner is a great substitute for 1-gallon containers to make upshifting easier and more economical.

Josh Kight

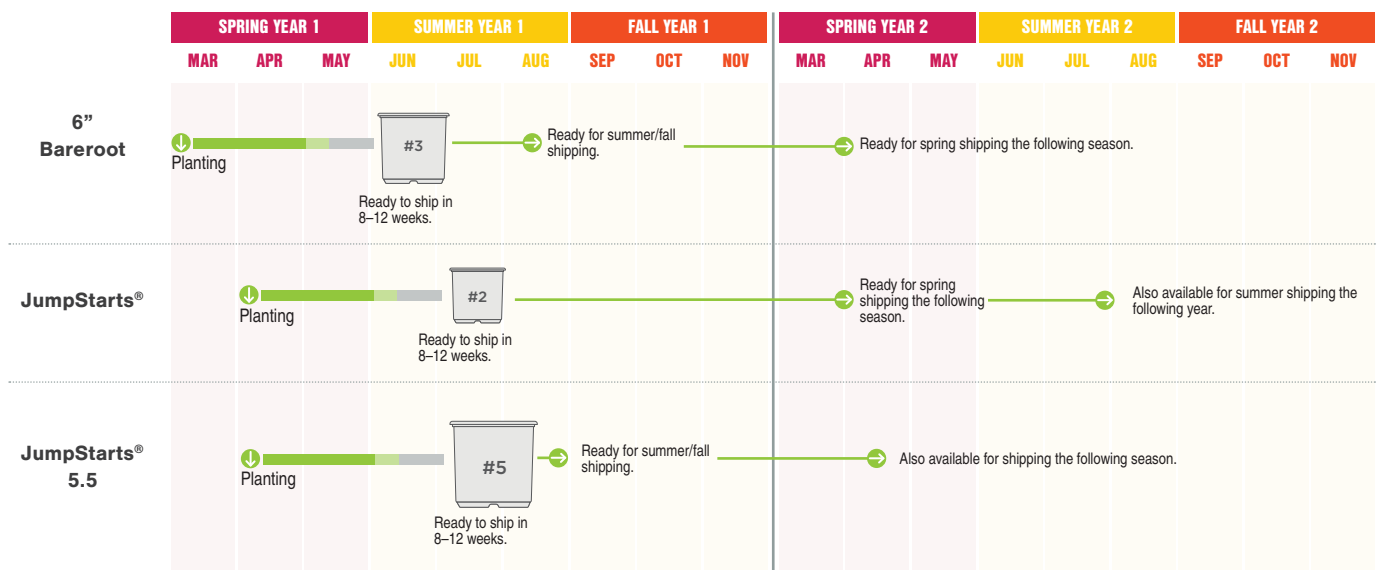

Sales Representative, Bailey Nurseries

The liner options with First Editions® give our customers the flexibility needed to keep their crop cycles moving and maximize the output for many types of shrubs and trees. Bareroot continues to be the main liner for early season plantings, while the JumpStarts® and JumpStarts® 5.5 allow customers to extend those planting times further into the season. The flexibility is great, and the quality remains consistent for the final product.

PLANTING AND FINISHING TIMELINES

This chart provides an example of how to manage a production cycle with Little Hottie® Panicle Hydrangea based on Bailey production. Your results may vary based on climate, production practices, and liner sizes, but will give you a place to start. Using a mix of liner inputs allows you to spread your labor and also maintain a fresh crop of retail- and landscape-ready products throughout the selling season.

LITTLE HOTTIE® PANICLE HYDRANGEA

Please Note: The bareroot, JumpStarts®, and JumpStarts® 5.5 planting times are based on production in a USDA Zone 5 climate. The finishing times for bareroot and JumpStarts® are based on our production schedules in Onarga, IL, while the finishing times for JumpStarts® 5.5 are based on feedback from network partners. Results and timelines will vary depending on climate and other conditions.

FIRST EDITIONS® POTS AND TAGS

If you're growing liners to produce finished plants, it's important to follow the brand requirements for pots and tags. These guidelines help maintain a consistent image across the brand and help your customers to know what to expect when purchasing a First Editions® plant.

To view the minimum brand standards, head to the Resources on **BaileyNurseries.com**.

2025 NEW VARIETIES

FLOWERFULL® SMOOTH HYDRANGEA | P.48

Exposure: Full Sun to Part Shade

Habit: Compact, mounded

- Features vibrant flowers that rebloom through summer
- Bright orange fruit replaces flowers in fall
- Compact habit is perfect for foundation and mass plantings

SHRUBS & MORE

TIANSHAN® SEVEN-SON FLOWER

Heptacodium miconioides 'Minhep'

Height: 8-12'

Zone: 5-9

Exposure: Full Sun to Part Shade

Width: 5-7'

Heat Zone: 9

Habit: Upright arching

- Perfect shrub or small tree for multi-season interest
- Fragrant, white flowers in late summer followed by red sepals
- Attractive fall color and unique bark for winter interest

SHRUBS & MORE

FIJI™ HIBISCUS

Hibiscus syriacus 'Minspot'

Height: 5-8'

Zone: 5-8

Exposure: Full Sun

Width: 4-7'

Heat Zone: 8

Habit: Upright

- Vibrant flowers bring tropical flare to moderate climates
- Perfect habit and size for hedge plantings
- White flowers turn light pink as the flowers slowly fade

HAWAII™ HIBISCUS

Hibiscus syriacus 'Minsygrbl1'

Height: 5-8'

Zone: 5-8

Exposure: Full Sun

Width: 4-7'

Heat Zone: 8

Habit: Upright

- Large flowers feature cool and warm shades of color
- Has an upright habit perfect for a hedge or focal point
- The colorful flowers complement other garden plants

SHRUBS & MORE

ROCK STAR PLANT

BALI™ HIBISCUS

Hibiscus syriacus 'Minfren'

Height: 5-8'

Zone: 5-8

Exposure: Full Sun

Width: 4-7'

Heat Zone: 8

Habit: Upright

- Boasts semi-double, white pure flowers with a bold purple-red center
- Flowers bloom July to September and measure 3-4 inches diameter
- Great for smaller spaces that need color in the summer

SHRUBS & MORE

TAHITI™ HIBISCUS

Hibiscus syriacus 'Mineru'

Height: 5-8'

Zone: 5-8

Exposure: Full Sun

Width: 4-7'

Heat Zone: 8

Habit: Upright

- Semi-double flowers add flare to the summer landscape
- Creates a stunning accent or focal point in the garden
- The pink-purple flowers boast deep red centers

FRENCH CABARET™ BLUSH HIBISCUS

Hibiscus syriacus 'Mindoub1' PP27,840

Height: 5-8'

Zone: 5-8

Exposure: Full Sun

Width: 4-7'

Heat Zone: 8

Habit: Upright

- Double flowers boast an array of color from summer to fall
- Upright habit is excellent for a hedge or vertical accent
- A versatile plant that tolerates heat and drought

SHRUBS & MORE

FRENCH CABARET™ RED HIBISCUS

Hibiscus syriacus 'Mindour 1' PP30,101

Height: 5-8'

Width: 4-7'

Zone: 5-8

Heat Zone: 8

Exposure: Full Sun

Habit: Upright

- Bright red flowers bring tropical flare to the landscape
- Pom pom shaped blooms resemble carnations
- Vigorously grows to fill gaps in the landscape

FRENCH CABARET™ PURPLE HIBISCUS

Hibiscus syriacus 'MindouV 5' PP30,070

Height: 5-8'

Width: 4-7'

Zone: 5-8

Heat Zone: 8

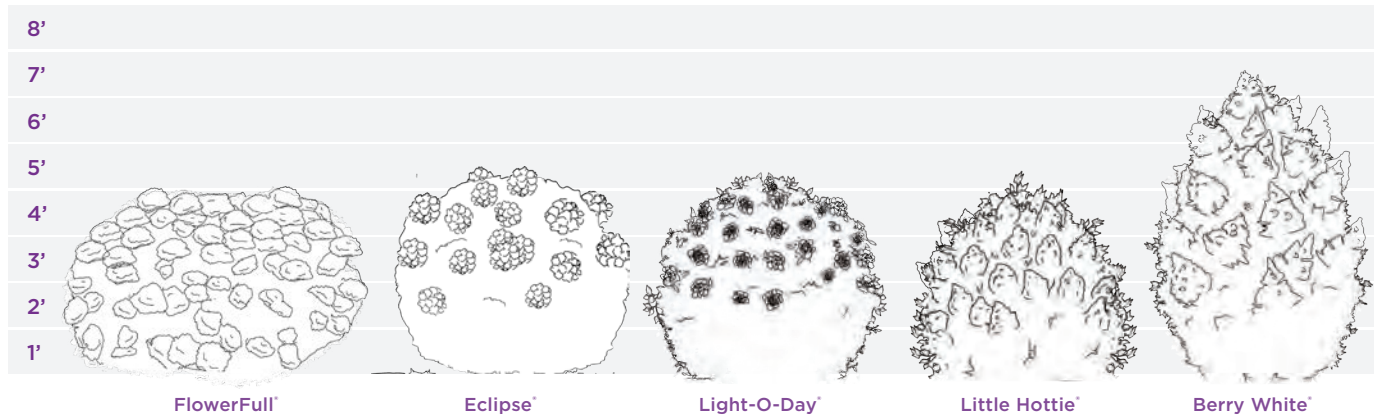

Exposure: Full Sun

Habit: Upright

- Features vibrant lavender-purple blooms for up to eight weeks
- This vigorous shrub is ideal for an informal hedge or focal point
- An excellent plant to fill gaps in the landscape

SHRUBS & MORE

HYDRANGEA COLLECTION

LIGHT-O-DAY® HYDRANGEA

Hydrangea macrophylla 'Bailday'

Height: 3-5'

Zone: 5-9

Exposure: Morning Sun, Part Shade

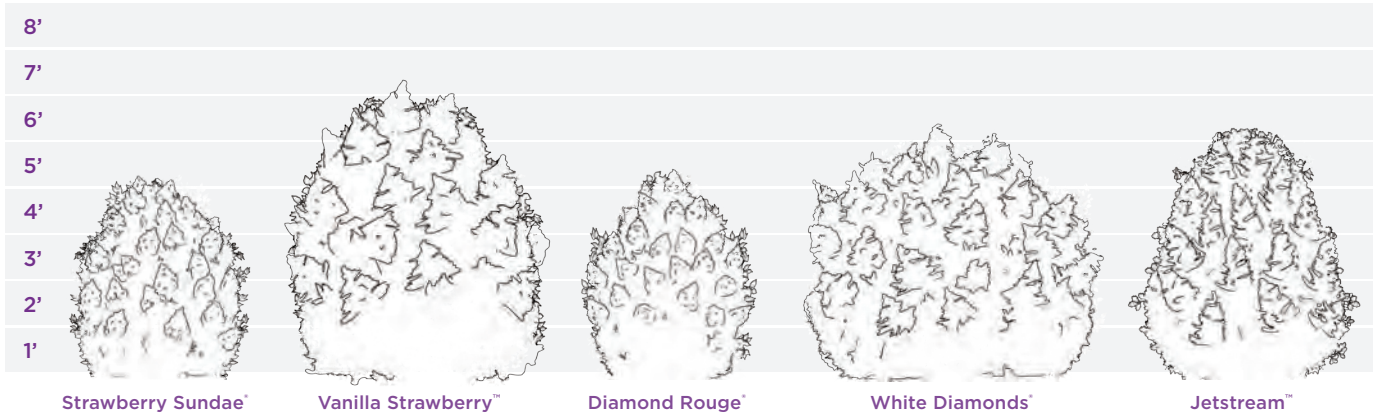

Width: 3-5'

Heat Zone: 9

Habit: Rounded

- Variegated leaves add unique contrast to the landscape
- Inner flowers are blue or pink, while outer blooms are pure white
- Outstanding plant for containers and the landscape

SHRUBS & MORE

STRAWBERRY SUNDAE® PANICLE HYDRANGEA

Hydrangea paniculata 'Rensun' PP25,438

Height: 4-5'

Zone: 3-8

Exposure: Full Sun to Part Shade

Width: 3-4'

Heat Zone: 8

Habit: Compact, upright

- An excellent shrub for small hedges or small spaces
- Eye-catching flowers emerge white, progressing to red in fall
- Blooms are gorgeous in floral arrangements

FLOWERFULLTM

SMOOTH HYDRANGEA

SHRUBS & MORE

NEW FOR
2025

ROCK STAR PLANT

FLOWERFULL® SMOOTH HYDRANGEA

Hydrangea arborescens 'BAIful' PP35,613

Height: 3-4'

Width: 4-5'

Zone: 3-8

Heat Zone: 8

Exposure: Full Sun to Part Shade

Habit: Rounded

- Produces two-to-three times more blooms per season than other *Hydrangea arborescens*.
- Features strong stems that don't flop in the wind and rain, holding the bold blooms tall all season.
- Disease-resistant, lush foliage that stays clean late in the season, providing wonderful contrast to the blooms.
- Low-maintenance marvel that requires less touch points in production, at retail, and in residential and commercial landscapes.

ROCK STAR PLANT

ECLIPSE® BIGLEAF HYDRANGEA

Hydrangea macrophylla 'Bailmacseven' PP34,544, US Pat Pend

Height: 3-5'

Width: 3-5'

Zone: 5-9

Heat Zone: 9

Exposure: Morning Sun, Afternoon Shade

Habit: Mounded

- Intense dark purple leaves hold their color even in sunny warm climates
- Cranberry or amethyst-colored blooms make dramatic impact
- Perfect as a focal point in the garden or in decorative containers

SHRUBS & MORE

ROCK STAR PLANT

BERRY WHITE® PANICLE HYDRANGEA

Hydrangea paniculata 'Renba' PP28,509

Height: 6-7'

Zone: 3-8

Exposure: Full Sun to Part Shade

Width: 4-5'

Heat Zone: 8

Habit: Upright

- Blooms start white in July and age to jaw-dropping dark pink in fall
- Strong stems hold large cone-shaped flower panicles upright
- Truly remarkable multiseason interest shrub, especially in cool climates

SHRUBS & MORE

ROCK STAR PLANT

LITTLE HOTTIE® PANICLE HYDRANGEA

Hydrangea paniculata 'Bailpanone' PP32,549

Height: 3-5'

Zone: 3-8

Exposure: Full Sun to Part Shade

Width: 3-5'

Heat Zone: 8

Habit: Rounded

- A compact hydrangea with blooms that cover the plant from top to bottom
- Flower heads resist heat stress and don't turn brown
- Top performer in warm and cold regions
- Requires little pruning in production or the landscape to maintain a well-shaped plant

SHRUBS & MORE

VANILLA STRAWBERRY™ HYDRANGEA

Hydrangea paniculata 'Renhy' PP20,670

Height: 6-7'

Width: 5-6'

Zone: 3-8

Heat Zone: 8

Exposure: Full Sun to Part Shade

Habit: Upright

- Features enormous white flowers on upright stems
- Gorgeous blooms progress from white to pink and red in fall
- The blooms are stunning in floral displays

DIAMOND ROUGE® PANICLE HYDRANGEA

Hydrangea paniculata 'Rendia' PP24,667

Height: 4-5'

Width: 3-4'

Zone: 3-8

Heat Zone: 8

Exposure: Full Sun to Part Shade

Habit: Compact, Upright

- Numerous, long lasting flowers start white and transform to pink and red
- Flower color begins to change earlier than other panicle hydrangeas
- Perfect mid-size hydrangea for small hedges or as a focal point

SHRUBS & MORE

WHITE DIAMONDS® PANICLE HYDRANGEA

Hydrangea paniculata 'HYPMAD I' PP19,082

Height: 4-6'

Width: 5'

Zone: 3-8

Heat Zone: 8

Exposure: Full Sun to Part Shade

Habit: Compact, dense

- Glistening white panicles eventually fade to parchment and pink in fall
- Dark green foliage offers increased heat and drought tolerance
- Exceptional midsize panicle hydrangea for mixed borders or hedges

JETSTREAM™ HYDRANGEA

Hydrangea quercifolia 'PIIHQ-I' PP25,319

Height: 5-6'

Width: 4-5'

Zone: 5-8

Heat Zone: 8

Exposure: Full Sun to Part Shade

Habit: Compact, rounded

- The unique foliage of this hydrangea resembles oak leaves
- Features red-orange fall color and resists leaf spot
- A wonderful native for small gardens and mass plantings

SHRUBS & MORE

ROCK STAR PLANT

COBALT-N-GOLD™ HYPERICUM

Hypericum kalmianum 'PIIHYP-I' PP25,318

Height: 2-3'

Zone: 4-7

Exposure: Full Sun

Width: 4-5'

Heat Zone: 7

Habit: Mounded

- Mounded shrub with fine blue-silver foliage and yellow flowers
- Leaves age to yellow, orange, and red in the fall
- Thrives in full sun and well-drained soil, but is adaptable to many areas

SHRUBS & MORE

PUMPKIN HYPERICUM

Hypericum inodorum 'Kolmapuki' PP24,576

Height: 2.5-3'

Zone: 6-9

Exposure: Full Sun

Width: 2-2.5'

Heat Zone: 9

Habit: Upright, rounded

- Boasts yellow flowers in spring, and orange fall berries
- Excellent in mixed container plantings to showcase berries
- Berries look stunning in autumn floral arrangements

RED FAME HYPERICUM

Hypericum inodorum 'Kolmaref'

Height: 2.5-3'

Zone: 6-9

Exposure: Full Sun

Width: 2.5-3'

Heat Zone: 9

Habit: Upright, rounded

- Red berries provide wonderful contrast with fall colors
- Features cheerful yellow flowers in spring
- Berries look good along dark green foliage in late summer

SHRUBS & MORE

CHUBBY HUBBY™ JAPANESE HOLLY

Ilex crenata 'MAD-IC-I' PP32,035

Height: 5-7'

Width: 3-4'

Zone: 6-8

Heat Zone: 8

Exposure: Full Sun to Part Shade

Habit: Upright, oval

- A sturdy evergreen for hedges and mass plantings
- Features glossy clean foliage and a full habit
- Has exceptional disease resistance and strong stems

WILDFIRE™ WINTERBERRY

Ilex verticillata 'Bailfire'

Height: 8-10'

Width: 8-10'

Zone: 4-9

Heat Zone: 9

Exposure: Full Sun

Habit: Rounded

- Bright red fruit shines in the winter landscape
- Round habit with clean foliage is ideal for mass plantings
- Pair with a male plant, like Jim Dandy winterberry, for fruit production

SHRUBS & MORE

ROCK STAR PLANT

Illicium parviflorum 'PIIP-I' PP28,887

Height: 3-4'

Zone: 7-9

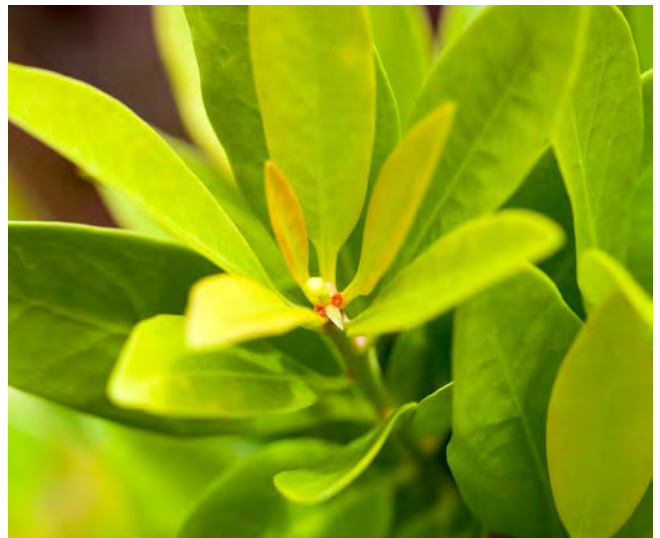

Exposure: Part Sun to Full Shade

Width: 3-4'

Heat Zone: 9

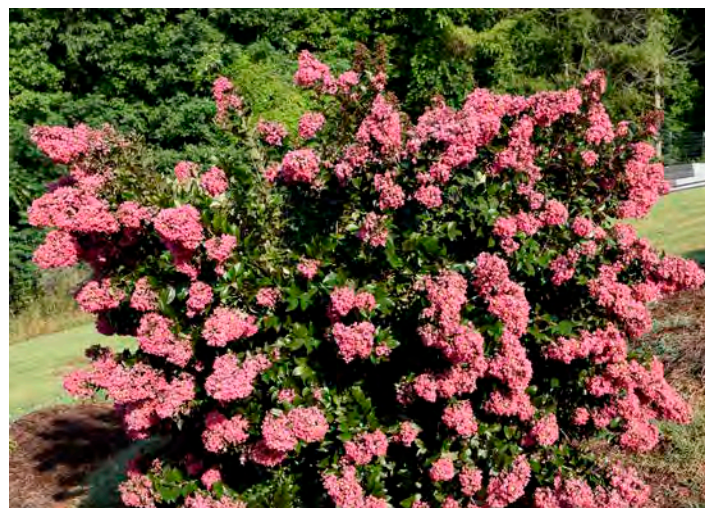

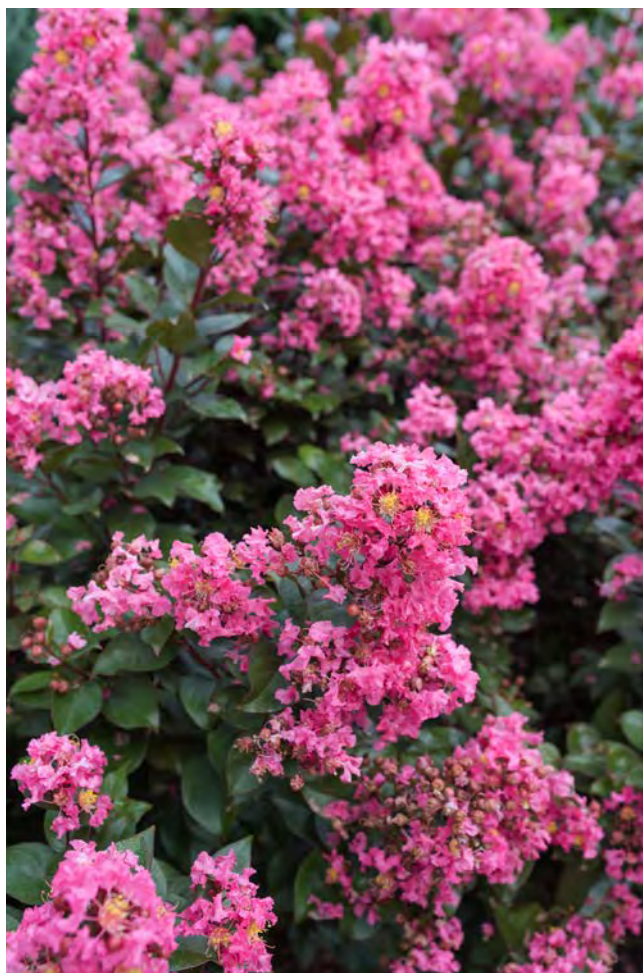

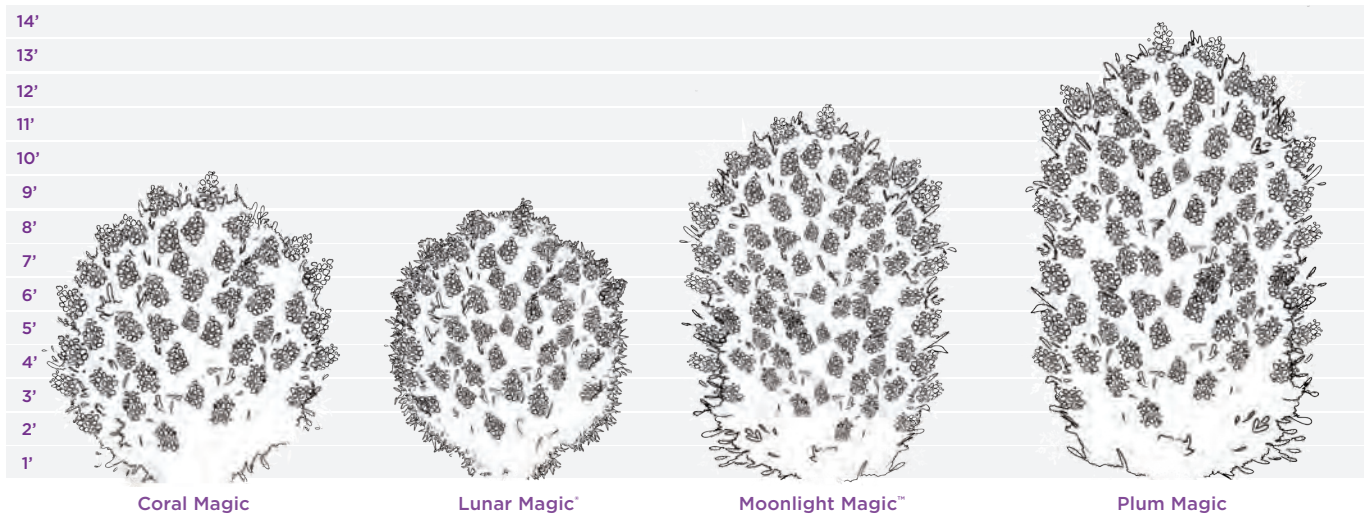

Habit: Upright, round

- Anise-scented, luminescent yellow-gold foliage shines in the landscape
- Compact, deer-resistant, disease-resistant, well-behaved anise tree
- Makes the perfect accent plant in shade gardens

SHRUBS & MORE

CRAPEMYRTLE COLLECTION

CORAL MAGIC CRAPEMYRTLE

Lagerstroemia 'Coral Magic' PP23,922

Height: 8-10'

Zone: 7-9

Exposure: Full Sun

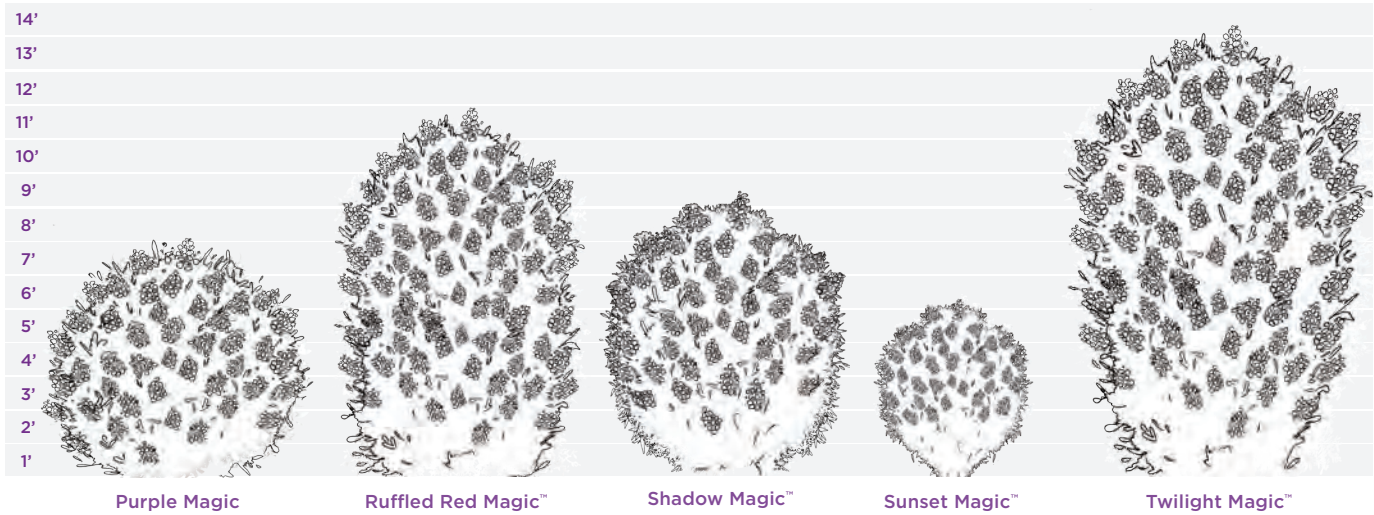

Width: 6-8'

Heat Zone: 9

Habit: Rounded

- Features loads of salmon-pink flowers in early summer
- New growth emerges red, then transforms to dark green in summer
- Blooms earlier than other crape myrtle and will rebloom when dead-headed

SHRUBS & MORE

LUNAR MAGIC® CRAPEMYRTLE

Lagerstroemia 'Baillagone' PP30,360

Height: 7-9'

Zone: 7-9

Exposure: Full Sun

Width: 5-7'

Heat Zone: 9

Habit: Upright, oval

- Rich, purple-black foliage is accented by white flowers on red stems
- Flowers begin in June and will rebloom through fall if deadheaded
- Disease-resistant, upright oval shape makes a great focal point or hedge

SHRUBS & MORE

MOONLIGHT MAGIC™ Crape Myrtle

Lagerstroemia 'PILLAG-IV' PP25,478

Height: 8-12'

Width: 4-6'

Zone: 7-9

Heat Zone: 9

Exposure: Full Sun

Habit: Upright, vase shaped

- Features purple-maroon foliage that holds its color during the summer
- Elegant white blooms contrast beautifully with the dark foliage
- Has excellent disease resistance

PLUM MAGIC Crape Myrtle

Lagerstroemia 'Plum Magic' PP23,518

Height: 12-14'

Width: 8-10'

Zone: 7-9

Heat Zone: 9

Exposure: Full Sun

Habit: Upright rounded

- Presents gorgeous fuchsia-pink bloom by July
- Has clean foliage that emerges plum-purple and matures to green
- Blooms early and will rebloom if deadheaded

SHRUBS & MORE

RUFFLED RED MAGIC™ CRAPEMYRTLE

Lagerstroemia 'PiilAG-VII' PP27,303

Height: 9-12'

Zone: 7-9

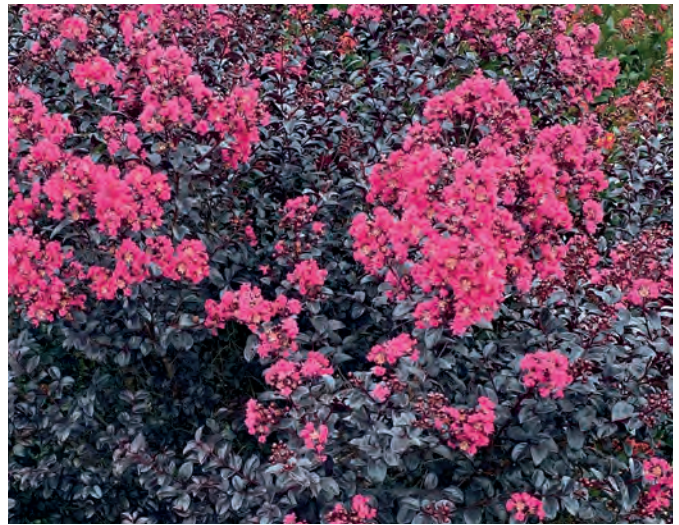

Exposure: Full Sun

Width: 7-9'

Heat Zone: 9

Habit: Upright

- The distinct flowers are glowing red and resemble carnations
- Lush foliage turns a beautiful shade of orange-red in fall
- Boasts a compact and upright habit that is useful as a small tree

SHADOW MAGIC™ CRAPEMYRTLE

Lagerstroemia 'Baillagtwo' PP34,639

Height: 7-9'

Zone: 7-9

Exposure: Full Sun

Width: 5-7'

Heat Zone: 9

Habit: Upright, oval

- Makes a statement with dark rosy blooms and dark purple leaves
- Disease-resistant leaves remain glossy and brilliant all season long
- Perfect for use as a privacy screen or statement shrub

SHRUBS & MORE

ROCK STAR PLANT

PURPLE MAGIC CRAPEMYRTLE

Lagerstroemia 'Purple Magic' PP23,906

Height: 7-8'

Width: 7-8'

Zone: 7-9

Heat Zone: 9

Exposure: Full Sun

Habit: Rounded

- Covered in glossy green leaves and dark purple flowers from base to tip
- Blooms in mid-summer and will rebloom if deadheaded
- Disease-resistant leaves remain gorgeous all season

SHRUBS & MORE

SUNSET MAGIC™ CRAPEMYRTLE

Lagerstroemia 'PIILAG-IX' PP29,325

Height: 6-8'

Zone: 7-9

Exposure: Full Sun

Width: 5-6'

Heat Zone: 9

Habit: Upright

- Red blooms contrast nicely with the dark foliage
- Produces more flowers than other dark-leaved crapemyrtles
- Leaves are disease resistant and hold their color through summer

TWILIGHT MAGIC™ CRAPEMYRTLE

Lagerstroemia 'PIILAG-VIII' PP27,194

Height: 12-14'

Zone: 7-9

Exposure: Full Sun

Width: 6-8'

Heat Zone: 9

Habit: Upright

- Showy pink flowers stand out against the dark foliage
- The clean foliage boasts excellent disease resistance
- Flowers more heavily than similar crapemyrtle varieties

LUCKY LEU® LEUCOTHOE

Leucothoe axillaris 'Bailcothoe'

Height: 3-5'

Zone: 6-9

Exposure: Full Sun to Part Shade

Width: 3-5'

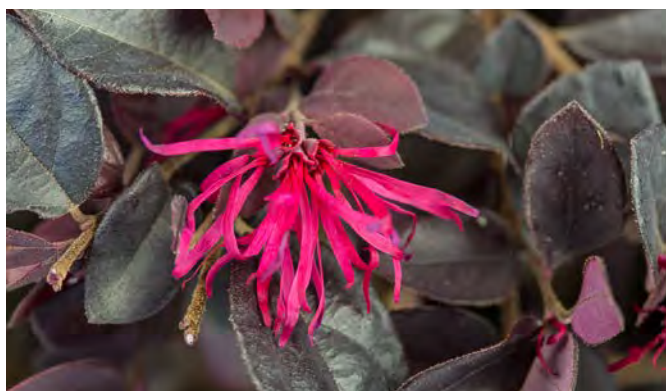

Heat Zone: 9

Habit: Mounded

- Peach-orange new growth is accented by white flowers in spring
- Low-maintenance shrub that maintains shape with little to no pruning
- Native to North America, this shrub thrives in both sun and shade

SHRUBS & MORE

PATRIOT DREAM ROSE

Rosa 'BAldre'

Height: 3-4'

Width: 2-3'

Zone: 5-9

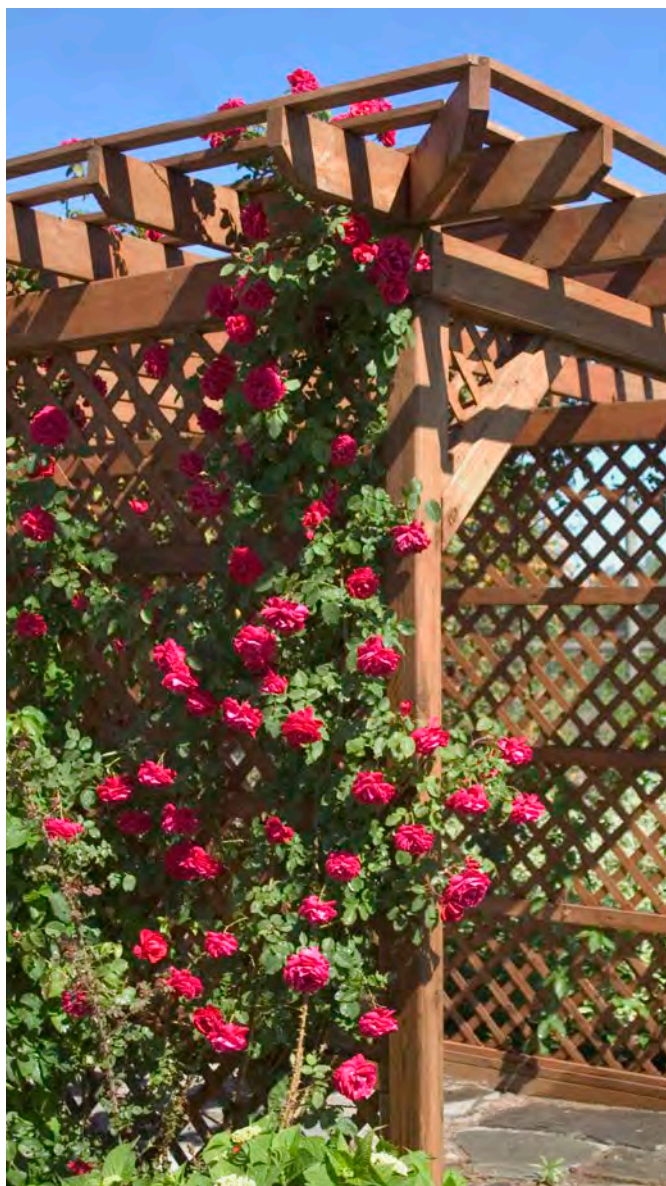

Heat Zone: 9

Exposure: Full Sun

Habit: Upright

- Dark salmon buds quickly open to a hybrid fragrant tea-shaped blooms
- Flowers are deep salmon-orange and contrast well with foliage
- Clean foliage is disease resistant and looks good all summer

SHRUBS & MORE

RAMBLIN' RED® ROSE

Rosa 'RADramblin'

Height: 6-10'

Zone: 4-7

Exposure: Full Sun

Width: 6'

Heat Zone:

Habit: Upright, spreading

- Own root climbing rose that boasts stunning red flowers
- Attractive leaves display a touch of red before maturing to dark green
- Disease-resistant and hardy, with an impressive stature

THE FINEST™ ROSE

Rosa 'BALnest'

Height: 3-4'

Zone: 5-9

Exposure: Full Sun

Width: 3'

Heat Zone: 9

Habit: Upright

- Pink buds open to spicy fragrant pure white blooms
- Stunning blossoms contrast beautifully with the medium green foliage
- Grows on own root and has great disease resistance

SHRUBS & MORE

ROCK STAR PLANT

ICEBERG ALLEY® SAGELEAF WILLOW

Salix candida 'Jefberg'

Height: 3-6'

Zone: 2-6

Exposure: Full Sun

Width: 3-6'

Heat Zone: 6

Habit: Upright, rounded

- Powdery, silver foliage adds unique texture and contrast to the garden
- Silver catkins bloom in spring, providing nectar for pollinators
- Extremely cold hardy shrub that fits beautifully in the landscape

SHRUBS & MORE

MATCHA BALL® ASH LEAF SPIREA

Sorbaria sorbifolia 'Levgreen' PP31,202

Height: 2-3'

Zone: 3-7

Exposure: Full Sun

Width: 3-4'

Heat Zone: 7

Habit: Rounded

- Produces a tidy ball of green with fern-like foliage
- Uniquely colored petioles emerge red-orange and mature to green
- An excellent shrub for small gardens and moist, well-drained soil

PINK SPARKLER™ BIRCHLEAF SPIREA

Spiraea betulifolia 'COURISPI01' PP27,933

Height: 3-4'

Zone: 3-8

Exposure: Full Sun to Part Shade

Width: 3-4'

Heat Zone: 7

Habit: Mounded

- Forms numerous large pink flowers in early summer
- Leaves turn brilliant burgundy-red in fall with a rebloom of flowers
- Low maintenance plant for mass plantings and multi-season interest

SHRUBS & MORE

SUNDROP™ SPIREA

Spiraea 'Bailcarol'

Height: 12-15"

Zone: 3-8

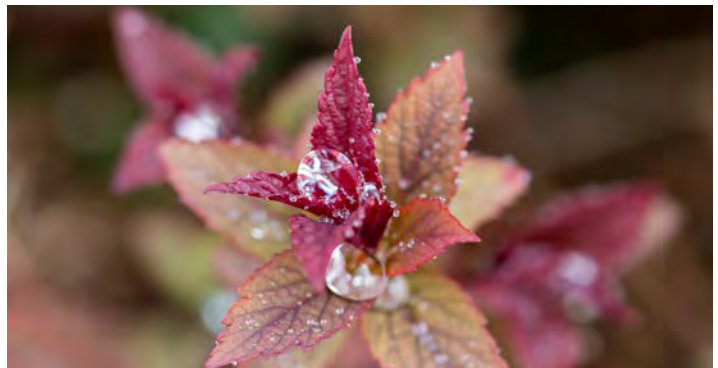

Exposure: Full Sun

Width: 2-3'

Heat Zone: 7

Habit: Dense mound

- Beautiful contrast between the pink flowers and golden foliage
- Foliage holds gold color throughout the summer
- A low maintenance shrub with a compact habit, perfect for borders

SUPERSTAR™ SPIREA

Spiraea x bumalda 'Denistar' PP22,432

Height: 2-3'

Zone: 3-8

Exposure: Full Sun

Width: 3-4'

Heat Zone: 8

Habit: Rounded

- New growth is an impressive scarlet red that matures to deep green
- Pink blooms in June, followed by August rebloom if old blooms are pruned
- Bronze colored leaves in fall complete the three-season interest

SHRUBS & MORE

ROCK STAR PLANT

LITTLE SPARK® SPIREA

Spiraea japonica 'Minspil04' PP30,819

Height: 18-24"

Zone: 3-8

Exposure: Full Sun to Part Shade

Width: 18-30"

Heat Zone: 8

Habit: Rounded, spreading

- Compact, multiseason spirea that grows in containers or in the garden
- Orange leaves turn and stay yellow in summer, even in full sun
- Pink flowers bloom in summer, and will rebloom if deadheaded

SHRUBS & MORE

CANDY™ CORALBERRY

Symphoricarpos x doorenbosii 'Kolmcan' PP20,931

Height: 2-2.5'

Zone: 4-9

Exposure: Full Sun

Width: 2.5-3'

Heat Zone: 9

Habit: Compact arching

- Displays candy-pink berries in fall after the pink summer blooms
- Arching stems support berries throughout the winter
- Compact shape is useful for foundation and mass plantings

GALAXY™ SNOWBERRY

Symphoricarpos x doorenbosii 'Kolmgala' PP20,912

Height: 2.5-3'

Zone: 4-9

Exposure: Full Sun

Width: 2.5-3'

Heat Zone: 9

Habit: Upright rounded

- Stems are covered in pure white berries during fall and winter
- A compact shrub for small gardens and mass plantings
- Arching branches are beautiful in floral arrangements

SHRUBS & MORE

VIRTUAL VIOLET® LILAC

Syringa 'Bailbridget' PP30,286

Height: 6-8'

Zone: 3-7

Exposure: Full Sun

Width: 5-7'

Heat Zone: 7

Habit: Upright

- Fragrant violet flowers are accented by deep purple stems
- Mildew-free shrub that remains clean and gorgeous throughout the season
- Upright, dense habit makes a great hedge or foundation planting

SHRUBS & MORE

PINKTINI™ LILAC

Syringa x prestoniae 'Jeftini' PP32,724

Height: 4-5'

Zone: 2-7

Exposure: Full Sun

Width: 3-4'

Heat Zone: 7

Habit: Upright

- Excellent lilac for small spaces, reaching just 4-5 feet tall at maturity
- Features classic lilac flowers in late spring and early summer
- A perfect shrub for foundation or group plantings

LITTLE LADY™ LILAC

Syringa x 'Jeflady' PP30,331

Height: 4-5'

Zone: 2-7

Exposure: Full Sun

Width: 4-5'

Heat Zone: 7

Habit: Upright, rounded

- Features the fragrant pink blooms of lilacs on a compact shrub
- Perfect size for foundation or mass plantings
- Has excellent hardiness and will thrive in Zone 2

SHRUBS & MORE

LEMON BURST® ARBORVITAE

Thuja occidentalis 'RutThu3' PP35,206

Height: 4-6'

Width: 3-4'

Zone: 4-8

Heat Zone: 8

Exposure: Full Sun

Habit: Broadly pyramidal

- Eye-catching yellow new growth is produced in full sun
- Clean foliage is resistant to Passalora/Cercospora needle blight
- Foliage produces orange tones in cool climates during winter

PLANET EARTH® ARBORVITAE

Thuja occidentalis "RutThu4" PP35,297

Height: 3-5'

Width: 3-5'

Zone: 4-8

Heat Zone: 8

Exposure: Full Sun

Habit: Round

- A tidy, round habit that is perfect for small gardens
- Resistant to Passalora/Cerospora needle blight
- Foliage produces bronze tones in colder climates

SHRUBS & MORE

TALL GUY® ARBORVITAE

Thuja occidentalis 'RutThu5' PP35,180

Height: 8-12'

Width: 2-3'

Zone: 4-8

Heat Zone: 8

Exposure: Full Sun

Habit: Columnar

- Vigorous, upright grower with a dense canopy, perfect for hedges
- Excellent arborvitae for warm and cold climates
- Handsome foliage is resistant to needle blight

TECHNITO® ARBORVITAE

Thuja occidentalis 'BailJohn' PP15,850

Height: 8-10'

Width: 4-5'

Zone: 3-7

Heat Zone: 7

Exposure: Full Sun

Habit: Compact pyramidal

- A compact habit that is ideal for privacy screens and small gardens
- Dark green foliage maintains color throughout the year
- A low maintenance shrub with little pruning required

SHRUBS & MORE

OPENING DAY™ DOUBLEFILE VIBURNUM

Viburnum plicatum 'PIIVIB-II' PP28,958

Height: 6-8'

Width: 6-8'

Zone: 5-8

Heat Zone: 8

Exposure: Full Sun to Part Shade

Habit: Rounded

- Displays baseball shaped flowers in April, hence the name Opening Day™
- Snowball like flowers emerge with a tinge of green, then turn pure white
- Compact habit with clean, dark green foliage

SPRING LACE VIBURNUM

Viburnum 'Spring Lace'

Height: 5-7'

Width: 5-7'

Zone: 6-9

Heat Zone: 9

Exposure: Full Sun to Part Shade

Habit: Rounded

- A compact viburnum with gorgeous white, lacy flowers in May
- Blooms have unique texture that contrast nicely with dark green foliage
- Foliage is evergreen in warm climates, and displays red fall color

SHRUBS & MORE

ROCK STAR PLANT

FLIP SIDE® CHASTETREE

Vitex x 'Bailtexone' PP30,283

Height: 6-8'

Zone: 7-9

Exposure: Full Sun

Width: 8-10'

Heat Zone: 9

Habit: Upright, arching

- 8-inch deep purple flowers are magnets for pollinators
- Unique greyish olive-green leaves are dusky purple on the lower surface
- Great focal point plant for warm climate gardens

SHRUBS & MORE

DELTA BLUES® CHASTETREE

Vitex agnus-castus 'PIIVAC-I' PP25,914

Height: 8-10'

Width: 8-10'

Zone: 6-9

Heat Zone: 9

Exposure: Full Sun

Habit: Rounded to upright-spreading

- Stunning blue flowers attract pollinators
- The foliage contrasts nicely with the flowers
- Versatile shrub that is deer resistant and salt tolerant

GALACTIC PINK® CHASTETREE

Vitex agnus-castus 'Bailtextwo' PP30,852

Height: 6-8'

Width: 6-8'

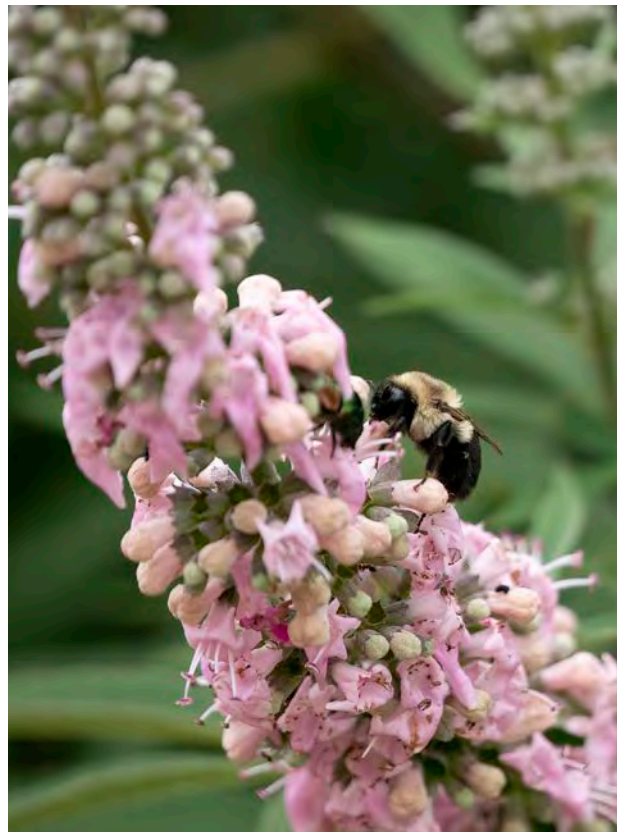

Zone: 6-9

Heat Zone: 9

Exposure: Full Sun

Habit: Upright, rounded

- Gorgeous flowers bloom from June to October and attract pollinators
- Handsome foliage is dense, full and dark green
- Intermediate size is excellent for small and large landscapes

SHRUBS & MORE

NEW FOR
2024

QUEEN BEE® CHASTETREE

Vitex agnus-castus 'Bailtexthree' PP35,259

Height: 5-6'

Zone: 6-9

Exposure: Full Sun

Width: 7-9'

Heat Zone: 9

Habit: Rounded

- Vibrant, lavender flowers bloom in mid-June and are adored by pollinators
- Low-maintenance shrub with impressive drought, heat, and cold tolerance
- Ideal colorful hedge or focal point in warm climate gardens

NEW FOR

Zone: 5-8

Heat Zone: 8

Exposure: Full Sun

Habit: Upright

- Charming pink buds give way to semi double flowers
- Long lasting blooms from July to September
- Excellent choice for privacy and container plantings

TAHITI™ HIBISCUS-TREE FORM

Hibiscus syriacus 'Mineru'

Height: 5-8'

Width: 4-7'

Zone: 5-8

Heat Zone: 8

Exposure: Full Sun

Habit: Upright

- Beautiful semi-double flowers bloom from July through October
- Exceptional heat and drought tolerance
- Compact size is perfect for privacy and container plantings

TREES

FRENCH CABARET™ BLUSH HIBISCUS-TREE FORM

Hibiscus syriacus 'Mindoub1' PP27,840

Height: 5-8'

Zone: 5-8

Exposure: Full Sun

Width: 4-7'

Heat Zone: 8

Habit: Upright

- Blooms profusely from July to October
- Dark pink flower buds open to blush pink double flowers
- Tree form is perfect for containers

BERRY WHITE® HYDRANGEA-TREE FORM

Hydrangea paniculata 'Renba' PP28,509

Height: 6-7'

Zone: 4-8

Exposure: Full Sun to Part Shade

Width: 4-5'

Heat Zone: 8

Habit: Upright

- Elegant white flowers progress to dark pink and cranberry red
- Compact size is perfect for gardens or containers
- Sturdy, upright stems hold cone-shaped panicles to form a crown of color

VANILLA STRAWBERRY™-TREE FORM

Hydrangea paniculata 'Renhy' PP20,670

Height: 6-7'

Zone: 4-8

Exposure: Full Sun to Part Shade

Width: 5-6'

Heat Zone: 8

Habit: Upright

- Loads of red flower clusters on upright stems
- Blooms emerge white, change to pink, then progress to red
- New blooms combine with old blooms to create unique contrast

ROCK STAR PLANT

CENTENNIAL BLUSH STAR MAGNOLIA

Magnolia stellata 'Centennial Blush' PP22,248

Height: 12-18'

Zone: 4-9

Exposure: Full Sun

Width: 10-15'

Heat Zone: 9

Habit: Upright oval

- Delicate pink flowers cover the entire plant in spring
- Green leaves eventually turn yellow and bronze in autumn
- Perfect for small urban gardens as it is well adapted to most soil types
