

Teak Care and Maintenance

Teak has been well known for centuries for its quality, durability and beauty. Teak is a very hard, densely grained wood with a very high oil content. The unique combination of these characteristics makes teakwood naturally resistant to moisture, rot, warping, shrinking, splintering, insects, fungus, marine borers and termites making it the ideal wood for the production of outdoor furniture.

Teak is often misunderstood as a “high-maintenance” material, when in fact it requires virtually no maintenance whatsoever and will last for generations to come. Three Birds recommends DO NOTHING, and allow your teak furniture to weather naturally. In less than a year of exposure to the elements, Teak will naturally weather to a beautiful silver-gray patina. The only maintenance needed for your furniture is an occasional cleaning. We recommend using liquid dish detergent (approximately 5 tablespoons per gallon of water) and a soft bristle brush.

During the weathering process you may notice a slight “checking”, or opening of the grain. You may even notice a few small cracks, especially at the top edges of arms and legs. This is completely normal as the wood expands and contracts due to changes in temperature and humidity, and will not affect the structural integrity of the furniture.

If you prefer to preserve the color of your new or cleaned teak furniture, or would like to “revive” already weathered teak to “like new” condition, then we suggest using our Three Birds Teak Care Products.

TEAK CLEANER #TC10

For the restoration of weathered, gray teak to its original color.

- 2-in-1 cleaner and brightener
- 1-step process
- Highly concentrated
- Deep penetrating cleaning for longer lasting results
- Restores weathered teak to original color
- Water-based
- Non-flammable
- Environmentally friendly

TEAK PROTECTOR #TC20

To maintain the original color of teak for a longer period of time.

- Quick & Easy to apply
- Fast drying
- Lasts four times longer than teak oil
- Prevents black spots
- Resist mold & mildew growth
- Water-based
- Non-flammable
- Solvent and VOC free

TEAK SHIELD #TC30

An almost invisible shield to prevent food stains (coffee, ketchup, red wine, olive oil, etc.) from penetrating into teak.

STAINLESS STEEL CLEANER #SS10

Heavy duty cleaner & rust remover. Fast acting and easy to use. Bio-degradable, non-toxic and non-flammable

STAINLESS STEEL PROTECTOR #SS20

Helps to keep Stainless Steel free from rust. Helps to maintain the new look of Stainless Steel for longer

FABRIC CLEANER #FB10

Fabric Cleaner removes stains and dirt. Restores the new look of fabric & sling. For cushions, seatings, rope & parasols.

FABRIC PROTECTOR #FB20

Helps to prevent stains. Maintains the new look of fabrics & sling for longer time. Makes surfaces water repellent. For cushions, seatings, rope & parasols.
