

Cool Roof & Sustainability

Using DaVinci roof tiles ensures enduring beauty and low life cycle costs... and that's just part of the story

ENDURING BEAUTY

The choice to use our tiles over natural cedar shake results in a roof that saves trees and resists fire, hail and wind damage. The quarrying process of natural slate tiles consumes large amounts of fuel and is especially destructive to local ecosystems. Our tiles reduce waste with less breakage, keeping products out of landfills. A DaVinci roof represents sustainability for the building as well as for the environment.

Perhaps the most sustainable aspect of DaVinci tiles is their enduring beauty and low life cycle costs. Roofs that need frequent maintenance and replacement after as little as 15 years consume energy every step of the way, whereas DaVinci tiles have a Limited Lifetime Warranty. Our roofing systems assure that our products will stand the test of time ... providing beauty and durability for decades.

SUSTAINABILITY

- Reduces waste with less breakage
- Keeps products out of landfills
- Low life cycle costs

COOL ROOFS

- Meets Title 24 requirements for California
- Our products contribute to LEED points

Recycling Programs

Scraps and cuttings from a project may be returned to our plant for recycling, as well as, the tiles after the life expectancy (50 years) of the roof. The tiles will be recycled keeping waste from the landfill.

At DaVinci Roofscapes we manufacture tiles with engineered composite material, organic fire retardants and inorganic pigments that are safe for the environment. Any materials that fail to meet finished specs are re-purposed as starter tiles. All DaVinci tiles are 100% recyclable.

DaVinci tiles must be returned to the manufacturing plant in Lenexa, KS, to be recycled. Two programs are offered to recycle DaVinci tiles. [Download our recycle program PDF.](#)

PROGRAM 1: WASTE FROM A JOB SITE

Scraps and cuttings from a project may be returned to our plant in Lenexa, KS; the cuttings can be recycled keeping waste from the landfill. Prior to the job shipping you should inform your DaVinci Inside Sales Representative that you would like to participate in the recycling program.

DaVinci will send boxes with the order that should be used to return tiles and scraps clean of nails and other debris.

If job site is within 500 miles of Lenexa, KS DaVinci will send prepaid FedEx Ground labels to return scraps (limit 4 boxes). If job site lies outside of the 500 mile radius you are responsible for scheduling and paying for shipment to the DaVinci plant.

PROGRAM 2: EXPIRED TILES

After the life expectancy (50 years) of the roof DaVinci tiles may be returned to the manufacturing plant. Tiles must be clean of nails or other roofing accessories to be accepted.

Job sites within 500 miles of Lenexa, KS will be returned free of charge. All other locations must schedule freight to DaVinci in order to recycle. Contact DaVinci Roofscapes, 800-328-4624, to schedule return.

13890 West 101st Street | Lenexa, Kansas 66215 | 800-328-4624
