

GEOCELL AND PERMEABLE PAVING GRID FOR: EROSION CONTROL, AGGREGATE RETAINMENT, AND LOAD SUPPORT

Vodaland Canada specializes in providing top-quality geocell and permeable paving products which can provide erosion control, aggregate retention, and load support. In this brochure, we will explore the benefits of using Vodaland Canada's TERRA products in your project.

OUR PRODUCTS

We design our landscaping products to find the perfect balance between reliability and cost-effectiveness. Our TERRA series products include multiple heights of geo-cell and permeable paving grids, so that there is at least one of our products that fits the needs of your project.

GEOCELL

Our geocell products are available in a 2", 4", and 8" height. This is so that our customers can pick one that is most compatible with their load needs, slope requirements, and depth limitations. These geocells are made of a high-quality plastic to provide superior hold to your aggregate and are flexible enough to conform to any terrain.

PERMEABLE PAVING PRODUCTS

Our permeable paving products are available in a 1" height (HEXpave) and a 2" height (EasyPave & EasyPave Pro). These grids are made of a durable plastic to provide load support to any type of fill (soil, sand, gravel, etc). They come in small 3sqft sections and can be connected together to fit any design and shape that you require.

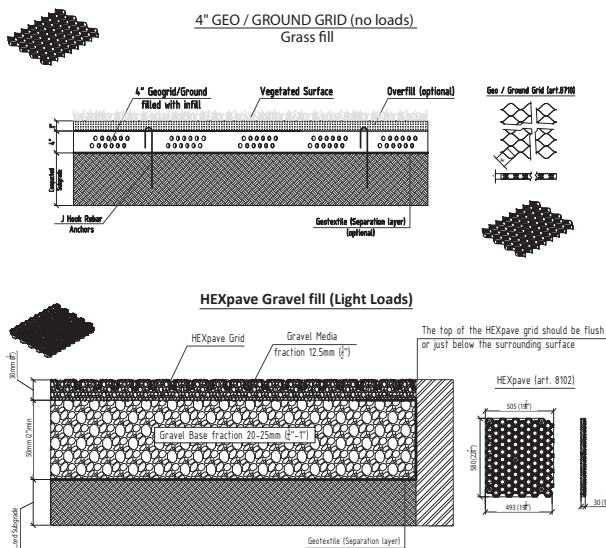

Quality and dedication from design to construction.

Vodaland Canada has its own engineer specialists that offer free advising to engineers supported with high quality documentation and technical information. With our dedicated professionals, we strive to ease the mechanical project design process and construction phase as much as we can.

ENGINEER SUPPORT AND SERVICES:

We understand the importance of accurate technical information and guidance provided in a timely manner. What we do:

- Project requirement analysis and product recommendation that meets site requirements.
- We provide:
 - Specification sheets
 - Installation specs
 - Product drawings
 - CAD files
- Layering schematics and detailed product breakdown unique to each project.

CONTRACTORS:

As a contractor, Vodaland provides you with services that other brands won't. The structure of our business means that you are receiving your product on time and at the lowest price. Our customer service representatives will help you every step of the way: from design, to delivery, to installation.
