

TRENCH DRAINS FOR: PARKING LOTS AND UNDERGROUND GARAGES

Vodaland Canada specializes in providing top-quality trench drains with compatible options for parking lots and underground garages. Our trench drains are known for their durability against frequent traffic and efficiency in managing water flow. In this brochure, we will explore the benefits of using Vodaland Canada's trench drains in your project.

OUR PRODUCTS

We design our drains to find the perfect balance between reliability and cost-effectiveness. The most commonly purchased products for this type of application are our BASE series trench drains, PRO series trench drains, and Open Slot drain.

BASE SERIES

PP **PC** **FC**

BASE series trench drains feature a wide variety of sizes and grates types to meet any project requirements. We designed these drains to simplify the installation process and save your budget from high labor and material costs.

PRO SERIES

PP **PC** **FC**

PRO series trench drains are designed to withstand more demanding environments where frequent and heavy traffic is common. These drains feature heavy-duty cast iron grates, and large volume channels to remove any flooding or pooling hazards.

OPEN SLOT SERIES

PC

Our Open Slot drains are a great option for those working with minimal depth. The drain itself is shallow and designed to reliably move liquids without needing to take up as much space as the deeper commercial trench drains. It is also the easiest channel type to clean due to its comb-shape.

CHANNEL MATERIALS:

PP – Polypropylene
PC – Polymer concrete
FC – Fiber concrete

Quality and dedication from design to construction.

Vodaland Canada has its own engineer specialists that offer free advising to engineers supported with high quality documentation and technical information. With our dedicated professionals, we strive to ease the mechanical project design process and construction phase as much as we can.

ENGINEER SUPPORT AND SERVICES:

We understand the importance of accurate technical information and guidance provided in a timely manner. What we do:

- Project requirement analysis and product recommendation that meets site requirements.
- We provide:
 - Specification sheets
 - Installation specs
 - Product drawings
 - CAD files
- Trench drain run schematics and detailed product breakdown unique to each project.

CONTRACTORS:

As a contractor, Vodaland provides you with services that other brands won't. The structure of our business means that you are receiving your product on time and at the lowest price. Our customer service representatives will help you every step of the way: from design, to delivery, to installation.
