Complimentary services

Vodaland Canada has its own engineer specialists that offer free advising to engineers supported with high quality documentation and technical information. With our professionals, we strive to ease the mechanical project design process as much as we can.

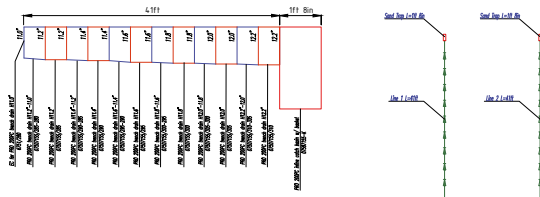

ENGINEER SUPPORT AND SERVICE

We understand the importance of accurate technical information and guidance provided in a timely manner. What we do:

- Project requirement analysis and product recommendation that meets site requirements.
- Load class advice.
- We keep individual design preferences in mind when assisting engineers with specification process. Because of our large selection of surface drainage systems, we can meet any specific requests or preferences.

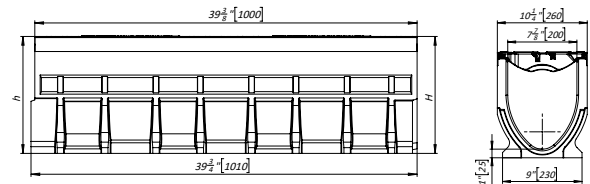

- We provide specification sheets, installation specs, product drawings, and CAD files.
- Trench drain run layout and detailed product breakdown unique for each project.

CUSTOM PRODUCTS AND DESIGN

At Vodaland, we have our own department of product designers with years of experience who can bring your custom products to life.

- Flexible manufacturing allows speed and assured quality of custom solutions.
- In-house design, project management, and production - there are no intermediaries which means time and money saved.
