WE BUILD ADVENTURES

WHY ADVENTURE PLAYGROUND SYSTEMS?

Adventure Playground Systems has been a leading commercial playground equipment manufacturer for over 25 years. We take pride in providing a safe environment for all children to grow and nurture their natural sense of adventure through play. Adventure Playground Systems delivers on all levels regarding quality commercial outdoor playground manufacturers. We achieve this by offering innovative products at attractive prices, backed by excellent warranty and customer service.

Adventure Playground System's products are manufactured in Houston, Texas, at our state-of-the-art facilities that span over 2.3 acres. Our commercial-grade outdoor recreational products are known for their quality, durability, and innovation. Our user-friendly website was designed to offer our customers the convenience of selecting from various fun and exciting commercial play structures with the peace of mind that you are purchasing quality products made in the USA!

1. Made in the USA

2. Attention to Detail & Design

Every piece of playground equipment we create and install should be as unique and one of a kind as the children who enjoy it. That's why all our play systems and components are fully customizable and offered in various colors, which are sure to please any palate. Our friendly design team loves what they do and is committed to creating smiles and spreading happiness one park at a time. Need help making a decision? Allow our team of play experts to create design layouts, generate 3D renderings, and suggest modifications to accommodate the needs of every playground adventurer.

3. Play with Peace of Mind

Our team members are passionate about creating fun and exciting play products while maintaining the quality, compliance, and safety that will always be our highest priorities. Our CPSI-certified team members oversee the design and manufacturing process to ensure all of our equipment meets or exceeds standards created by the CPSC (Consumer Product Safety Commission), ADA (Americans with Disabilities Act), and ASTM (American Society for Testing and Materials).

4. One Stop Play Shop

Our goal at Adventure Playground Systems is to make your next play project experience as easy as possible. We strive to be a turnkey, one-stop-shop resource for all of your playground projects! To help facilitate all of our customer's outdoor recreational needs, we are now offering a vastly extended line of park and recreation products from our industry-leading manufacturing partners. We are committed to providing our customers with the highest quality products from other leading playground manufacturers we know and trust. Should you need additional information about any of our Manufacturing Partners or their product lines, an Adventure Play Expert is here to help. Whether you're looking for dog park equipment, play structures, splash pad components, outdoor fitness equipment, site amenities, or other park accessories, we have it all. You can count on us for shades, surfacing, and everything in between.

Adventure Playground Systems offers complete playground installation services. We are one of only a few companies that provide turn-key manufacturing and installation services on all commercial playgrounds. This means we will handle everything from initial consultation, playground design and layout, product manufacturing, permitting, and turn key installation with safety surfacing. All of our installations are inspected by one of our in-house certified playground safety inspectors to ensure that every playground we offer exceeds all required state and federal standards for safety and durability. We have the experience and expertise to create and install playground equipment that is unmatched within the playground industry.

5. Adventure Installation Experts

6. Building Customer Relationships to Last

We start with a promise to uphold the very highest standards of quality and safety. We back this promise with comprehensive quality, excellent customer service, and one of the best warranties on the market. Our extensive customer service program ensures you'll never have to worry if you encounter challenges while planning, installing, and maintaining your playground products or during safety inspections at your playground. When it comes time to purchase your next playground, we want you to rely on the friendly Play Experts at Adventure Playground Systems for all your sales, service, and installation needs. Together, we can enhance our children's learning through the love of play. After all, putting adventure into playgrounds is what we are all about!

THE APS PLAY PROCESS

Based on your inspiration, APS Play's experienced designers will create custom playground and outdoor recreation designs tailored to your needs. They'll incorporate your feedback while considering safety standards, accessibility guidelines, and your wish list for park and play features. The result? Unique playground and park layouts that capture your vision.

2

Design with
Your Input

From Vision to Vibrant Play Space

Creating a commercial playground or park that sparks joy, encourages exploration, and serves your community or business for years is more than just choosing equipment. It's a collaborative journey, and Adventure Playground Systems is the perfect partner to guide you every step of the way. Here's how our play process works:

1

Inspiration
and
Consultation

It all begins with sharing your vision. Contact our friendly team of Adventure Play Experts to discuss your project's goals, whether it's a schoolyard revamp, a community park addition, or a brand-new daycare play space. They'll discuss your site, the children who'll use the area, and your budget to start shaping the possibilities.

3

The Power
of Choice

Adventure Playground Systems offers a vast selection of high-quality commercial grade park and recreation equipment, surfacing options, aquatic playgrounds, shade structures, site amenities and more. Explore the possibilities and select elements that best fit your design and budget. Our team of Adventure Play Experts will provide expert guidance ensuring your selections create a cohesive, functional, and exciting play environment.

Once your selections are finalized, you'll receive a detailed proposal outlining the project scope, costs, and timeline. Adventure Playground Systems prides itself on transparency, so you'll have complete clarity before the project begins.

4

Making It Official

Adventure Playground Systems is unique in offering in-house installation services in Texas. Our team of installation experts handles everything, ensuring your park or playground is constructed correctly and meets all safety guidelines. They'll even handle permits and inspections if desired!

6

Installation:
Transformation
Takes Shape

5

Manufacturing
with
Excellence

Adventure Playground Systems places a high emphasis on quality craftsmanship. Our systems are manufactured using only the highest quality materials such as commercial grade steel posts, vinyl coated perforated steel decking, and high-density polyethylene plastic. All of which provide maximum safety, durability and corrosion resistance protection. Powder-coated and UV stabilized finishes ensure they remain as colorful and vivid as the imaginations of the children that play on them.

7

Grand
Opening and
Beyond

Now, it's time to let the adventures begin! Celebrate the opening of your new playground, a vibrant community hub that will bring smiles for years to come. Adventure Playground Systems remains your partner, offering ongoing support and maintenance services if needed.

AGE APPROPRIATE PLAY

Child development experts and parents agree play is an essential part of childhood. Outdoor play areas can help children develop physically, emotionally, socially, and intellectually. However children of different ages have dramatically different needs for developmentally appropriate play experiences. Having separate play areas marked by signage indicating each age-appropriate area is strongly recommended by industry standards. Guidelines have been created by organizations such as the Consumer Product Safety Commission (CPSC) and the National Program for Playground Safety (NPPS) to help make America's play areas developmentally appropriate, more enjoyable, and safer for all children.

AGES: 6-23 MONTHS

Play areas for children 6 to 23 months should offer places where children can have space to move and explore. Children of this age group are largely influenced by sensory development. They will explore their environment with their eyes, hands, feet, torsos and mouths. They are predominantly at ground or floor level during this stage and will need space to explore their area away from older peers. Appropriate play areas for this group should provide places to crawl, sit-up, pull-up, stand, and walk. Some examples of age appropriate equipment for a 6 to 23 month old child are:

- Ramps
- Spring Rockers
- Stairways
- Low Crawl Tunnels
- Activity Panels
- Pull-Up Handles
- Single File Step Ladders
- Slides of Modest Height
- Swings with Full Bucket Seats
- Climbing Equipment Under 32" high

AGES: 2-5 YEARS

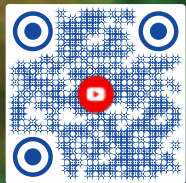

Preschool aged children are new to the playground and will require an area of their own that is physically challenging but sized appropriately. Play areas for children ages 2-5 should offer challenges such as climbing over and under play elements. Their play area should have play activities that promote socialization and fine motor skills. Play areas for children ages 2 - 5 could include areas to crawl; low platforms with multiple access such as ramps and ladders; ramps with pieces attached for grasping; low tables for sand, water and manipulation of materials; tricycle paths with various textures; flexible spring rockers; sand areas with covers; and shorter slides. As dramatic play and imitation of older children begins at this stage, an area with adult supervision is extremely important for safe play. Some examples of age appropriate equipment for a 2 to 5 year old child are:

- Certain Climbers
- Ramps
- Rung ladders
- Slides
- Spring Riders
- Crawl Tunnels
- Stairways
- Spiral Slides up to 360°
- Single file step ladders
- Activity panels that promote fine motor skills
- Themed activity panels
- Swings – belt seats, rotating tire swings, and full bucket seats (2-4 years)
- Horizontal ladders less than or equal to 60° high for ages 4 and 5 only

AGES: 5-12 YEARS

School-age children range from 5-12 years old, and at this stage they are rapidly learning and building their skills. Developmentally they are moving towards more complex play and seek increased levels of physical challenges to remain occupied. They are constantly refining their fine and gross motor skills, coordination, balance and strength. They will also now have highly developed socialization skills and in turn they start to find creative ways to incorporate play elements into activities such as competitions, or elaborate imaginative games. Developmentally appropriate play areas could include: rope or chain climbers on angles; climbing pieces; cooperative pieces such as tire swings, slides and sliding poles; and open spaces to run and play ball. Their space should provide both physical and mental challenges to keep the older children occupied, engaged and out of trouble. Some examples of age appropriate equipment for a 5 to 12 year old child are:

- Monkey Bars
- Slides
- Rope Climbers
- Arch Climbers
- Spinners
- Fitness Equipment
- Overhead Rings
- Merry-go-rounds
- Track rides
- Vertical sliding poles
- Sports Equipment
- Chain or cable walks
- Swings – belt seats and rotating tire swings
- Ladders – Horizontal, Rung, and Step
- Spiral slides more than one 360° turn
- Freestanding climbing events with flexible parts

THE BENEFITS OF PLAY

Laughter. Running. Jumping. Climbing. Swinging. Sliding. When you think of a playground, you think of a happy, carefree environment. But there's much more going on than just fun. Our partner organization, IPEMA, is the leading resource for research development in the playground industry. They have shared their insights on how children are at their highest level of development when they are at play. Research shows that outdoor free play gives kids many valuable benefits, including the development of physical, emotional, social, and cognitive skills.

EMOTIONAL

Outdoor play encourages children to develop positive emotional skills that build self-confidence and self-esteem, such as risk analysis, conflict resolution, and imaginative dramatic play. During free play, kids can use imaginative or pretend play to experience different feelings or outcomes.

PHYSICAL

The physical benefits of play influence a child's ability to learn reflexes and movement control, develop fine and gross motor skills, and increase flexibility and balance. Play is an integral part of children's learning to crawl, walk, run, and jump. Each of these activities leads to improved physical health and fitness.

COGNITIVE

Play helps children develop language and reasoning skills and encourages critical thinking and problem-solving. It also helps their ability to focus and control their behavior. Experts from neuroscientists to child development researchers agree that play is essential for brain development.

CREATIVE

Allowing children to participate in child-directed play encourages creativity. Here, they're able to role-play, create, and participate in dramatic plays, where they can experiment and understand social roles. Play helps develop each child's unique style of creative expression.

SOCIAL

Outdoor play areas may be some children's first social experiences. Social skills development plays an essential role in a child's maturation process. The valuable lessons they learn on the playground will provide a foundation for socially adjusted, well-adapted adults.

LANGUAGE

Communication is an integral part of our lives. Through play, children learn language comprehension, productive expression, and nonverbal cues.

Understanding and using language is an important first step in literacy and is the foundation for learning other subjects. We design well-rounded playscapes that include a variety of play elements such as music, games, and imaginative play areas. We ensure that all children can enhance their language through play.

PICK YOUR PLAY

CLASSIC STEEL SERIES

Our Commercial Playground Equipment is designed and manufactured to encourage creativity, imagination and development of fine and gross motor skills.

41

ACTIVE AGILITY STRUCTURES

Our Active Agility helps kids develop flexibility and cardiovascular health while building coordination, balance, and endurance.

94

TOWER SERIES

Soaring to towering heights, our Tower Series features 5" steel posts and our tallest deck heights.

74

THEMED PLAY SERIES

Themed Play spaces inspire imaginative role play and social cooperation. Just let us know what you have in mind - castles, trains, nature, ships, and more.

79

RECYCLED PLAY SERIES

Our Recycled Series is an ideal option for natural play or coastal environments. The decks, posts, and barriers utilize 100% recycled material.

86

QUICK SHIP STRUCTURES

Our Quick Ship Play Structures come ready to install with everything a good playground needs! We also offer expedited delivery so we can get it to you as soon as possible.

99

PLAYGROUND PACKAGES

Adventure offers the full package for children to play. A bundle on a playground, including slides, ladders, swings, safety surfacing and more.

104

DISCOVERY CENTERS

These structures encourage outdoor multi-sensory learning as children play and interact with components designed to build key developmental skills.

ADVENTURE QUEST BUNDLE

Age Range: 5-12

Fall Height: 84"

Capacity: 11-16 Kids

Use Zone: 36'2" x 59'1"

DISCOVERY CENTERS

112 | 2-5 Years

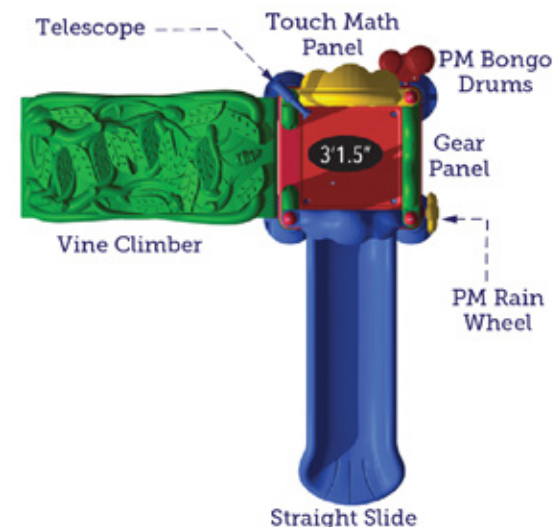

115 | 6-23 Months

DISCOVERY HILLTOP

The Discovery Hilltop is a single-deck design ideal for home early childhood centers, as it can be used indoors or outdoors. Children will develop object recognition as they discover ladybugs, ants, and caterpillars while climbing up the vine climber to the deck. Children can also engage in five elevated activities before they descend down the straight slide to ground level!

DISCOVERY HILLTOP

Age Range: 2-5

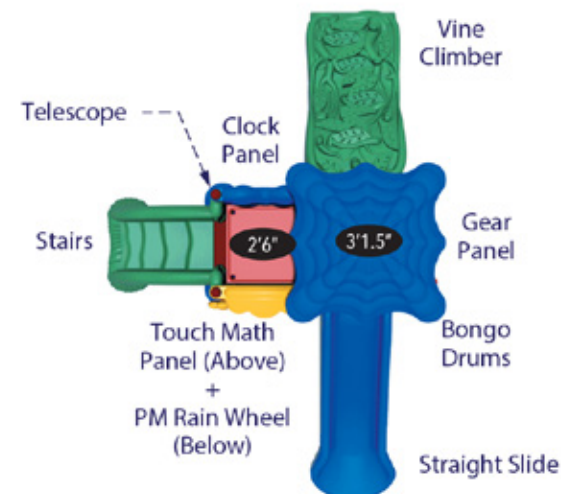

Fall Height: 37.5"

Capacity: 5 to 10 Kids

Use Zone: 21'8" x 21'10"

DISCOVERY RIDGE

The Discovery Ridge offers maximum play value packed into a compact design that can easily fit into your play space. The two-deck structure has various developmental and educational activities encouraging children to learn, grow, and lead healthy lifestyles. This structure provides music and movement opportunities as children play the rain wheel and bongo drums, encouraging self-expression. The roof also offers comfortable shade and visual appeal with the leafy canopy underside.

DISCOVERY RIDGE

Age Range: 2-5

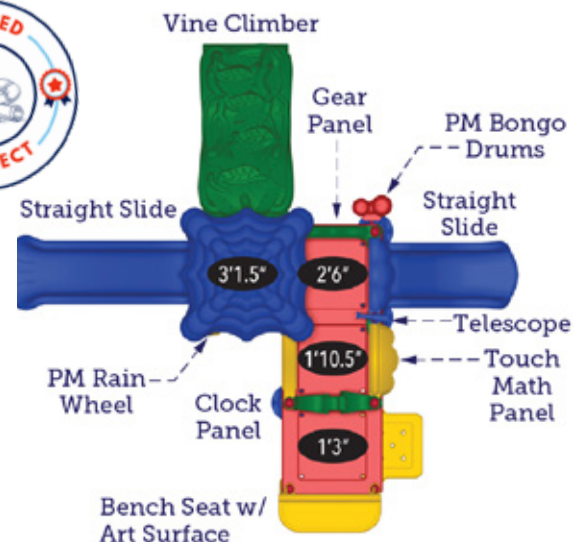

Fall Height: 37.5"

Capacity: 10-15 Kids

Use Zone: 22' x 27'

DISCOVERY MOUNTAIN

The Discovery Mountain is a perfect solution for multiple classrooms to play together by accommodating up to 20 children! This four deck structure offers a variety of developmental and educational activities at both ground and elevated levels that encourages continuous play for children to stay active. Children will enjoy being the lookout as they peer through the telescope, which provides a rich multi-sensory experience. The structure also features a bench seat where children can relax and interact with their peers.

DISCOVERY MOUNTAIN

Age Range: 2-5

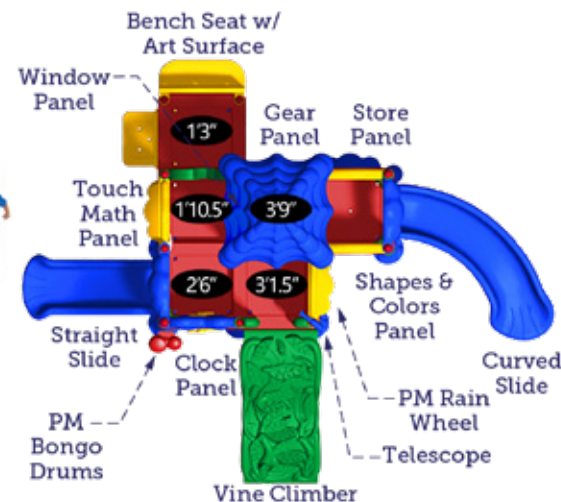

Fall Height: 37.5"

Capacity: 13-25 Kids

Use Zone: 27'3" x 28'1"

DISCOVERY RANGE

The Discovery Range features the longest slide in the Discovery Center product line for the most adventurous 2-5 year olds. While robust, this structure also allows for increased teacher interaction with the transparent barrier and window panels. This structure encourages outdoor multi-sensory learning as children play and interact with components designed to build key developmental skills such as: fine and gross motor, science, dramatic play, music and math!

DISCOVERY RANGE

Age Range: 2-5

Fall Height: 45"

Capacity: 20-25 Kids

Use Zone: 27'3" x 32' 4"

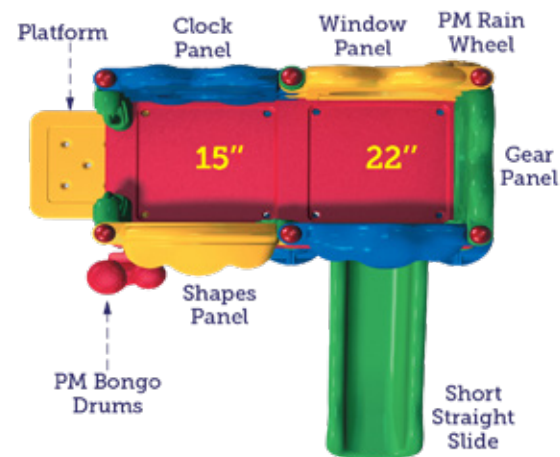

EARLY CHILDHOOD

130 | Tot Trek Systems

DISCOVERY SEEDLING

This two-deck structure comes with a Clock Panel, Shapes and Objects Panel, Window Panel, Gear Panel, Bongo Drums, Rain Wheel, 1-2-3 Step, and a slide. This equipment is commercially compliant with CPSC and ASTM standards and IPEMA certified.

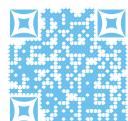

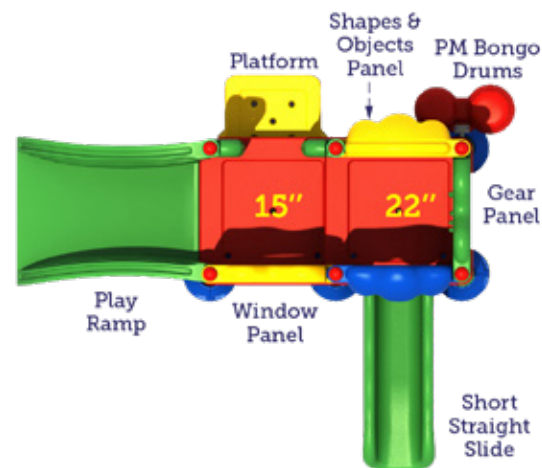

DISCOVERY SEEDLING

Age Range:	6-23 months	Fall Height:	22"
Capacity:	8-10 Kids	Use Zone:	13'4" x 13'7"

DISCOVERY SPRING

This two-deck structure features multitudes of activities for the youngest 6 month old to the busiest 23 month old. The Window Panel allows children to peek at their friends below while the Bongo Drums and Gear Panel offer experiences related to cause and effect and sound. Additionally, embedded animal images, shapes, numbers and the alphabet offer creative learning opportunities.

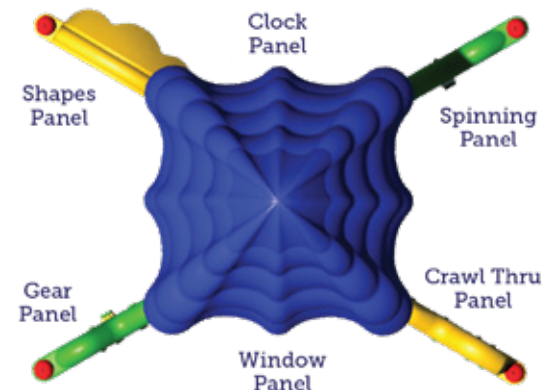

DISCOVERY SPRING

Age Range:	6-23 months	Fall Height:	22"
Capacity:	8-10 Kids	Use Zone:	14'5" x 16'1"

DISCOVERY PLAYHOUSE

The Discovery Center Playhouse is 100% ground level, making it easy for children of various abilities to access. The structure's open design allows caregivers to access all areas easily. The Playhouse features six play panels, specifically selected to encourage skills children ages 6 to 23 months are developing.

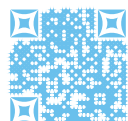

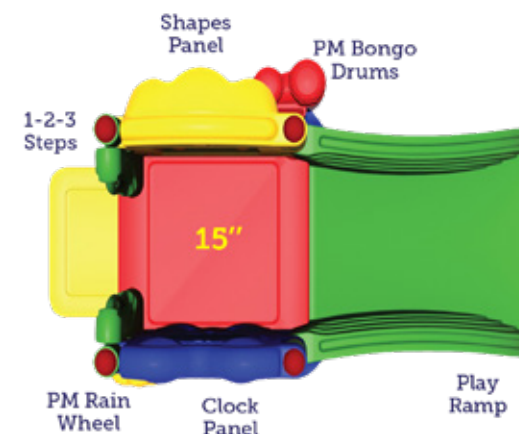

DISCOVERY PLAYHOUSE

Age Range:	6-23 months	Fall Height:	0"
Capacity:	13-25 Kids	Use Zone:	11'9" x 13'8"

DISCOVERY SUPER SPROUT

The Discovery Center Super Sprout features a multi functional play ramp that was designed to help infants and toddlers meet developmental milestones. The gentle curved design encourages progression from scooting to crawling and to walking. The sides feature animals, shapes, ABC's and numbers 1-10 to encourage language development and counting skills.

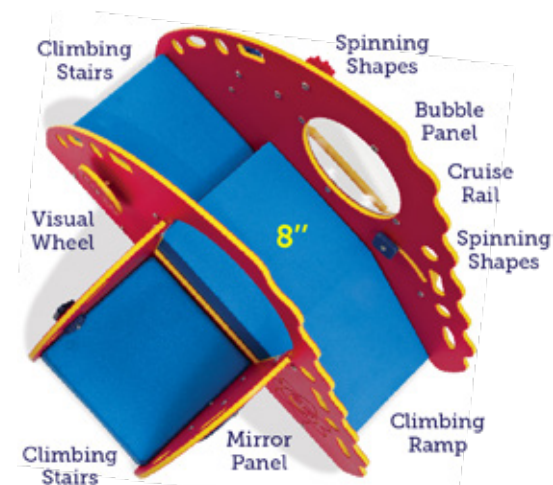

DISCOVERY SUPER SPROUT

Age Range:	6-23 months	Fall Height:	15"
Capacity:	6-8 Kids	Use Zone:	10'5" x 14'2"

CRAWL & TODDLE

The Crawl & Toddle combines creative and fun elements of development for children 6 to 23 months old. It is available with Comfy Tuff or Coated Steel Decks and features a cruise rail, bubble panel, visual wheel, spinning shapes, and tree climbing activities. This exciting structure can accommodate up to 8 children and is perfect for the littles of adventurers.

CRAWL & TODDLE

Age Range: 6-23 months

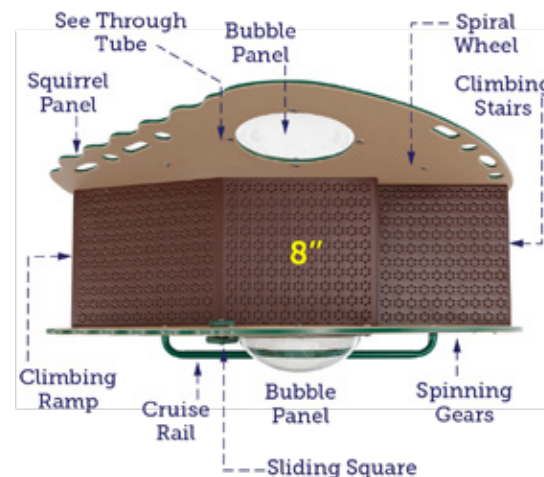

Fall Height: 8"

Capacity: 8 Kids

Use Zone: 9'8" x 11'2" - Coated Steel Deck / 9'6" x 10'8" - Comfy Tuff Platform

CRUISE-A-LONG

The Cruise-A-Long carries the same great benefits as the Crawl & Toddle, but with two climbing access points instead of three. Perfect for children 6 to 23 months and slightly smaller spaces, it will accommodate up to 6 children. The Cruise-A-Long is available with Comfy Tuff Platforms or Coated Steel Decks.

CRUISE-A-LONG

Age Range: 6-23 months

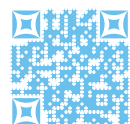

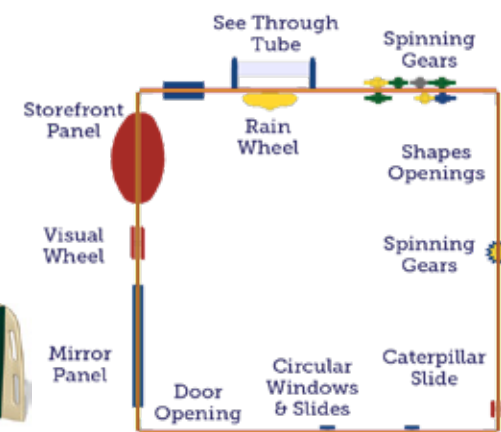

Fall Height: 8"

Capacity: 6 Kids

Use Zone: 8'1" x 11'2" - Coated Steel Deck / 8' x 10'6" - Comfy Tuff Platform

LEARN-A-LOT PLAYSTATION

The Learn-a-Lot Play Station is perfect for indoor or outdoor use and provides a versatile addition to any play space. It is designed for children 6 to 23 months old and is available in a 2 or 4 panel option. Depending on your preference, it can also be configured in a square or zig-zag layout.

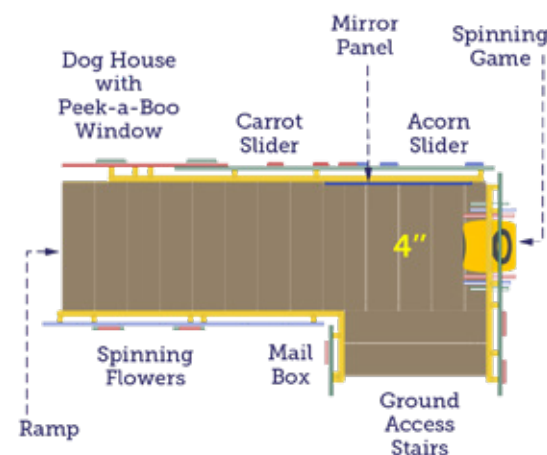

LEARN-A-LOT PLAYSTATION

Age Range: 6-23 months **Fall Height:** N/A
Capacity: 4 Panel - 16 Kids / 2 Panel - 12 Kids **Use Zone:** 4 Panel - 12'9" x 12'9" / 2 Panel - 12'6" x 12'6"

THE BIG OUTDOORS

The Big Outdoors allows young tots to recognize familiar objects from their own backyards while promoting dramatic play and fine and gross motor skills. With recycled deck slats for flooring, It provides a unique venue for exploring.

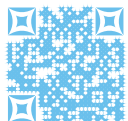

THE BIG OUTDOORS

Age Range: 6-23 months **Fall Height:** 4"
Capacity: 16 Kids **Use Zone:** 9'4" x 12'9"

HAPPY HOLLOW

Whimsy and wonder await infants, toddlers and preschoolers in Happy Hollow! Kids will squeal with delight as they point out all of the forest friends resting on vines, hiding under leaves and even hanging on the side of this colorful and cheerful infant tree playhouse. Each feature of this toddler tree playhouse is designed to foster children's development while they play.

HAPPY HOLLOW

Age Range: 6-23 months

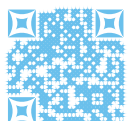

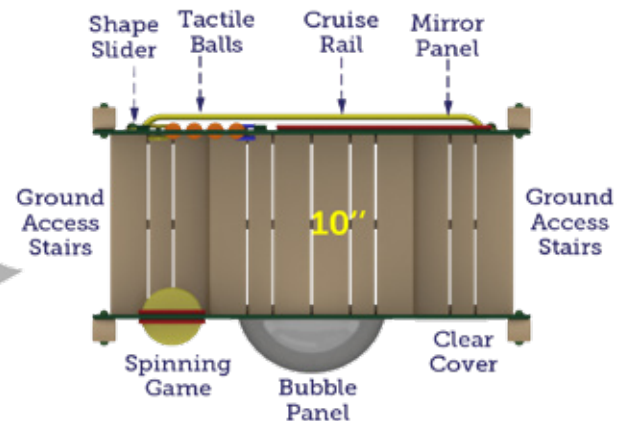

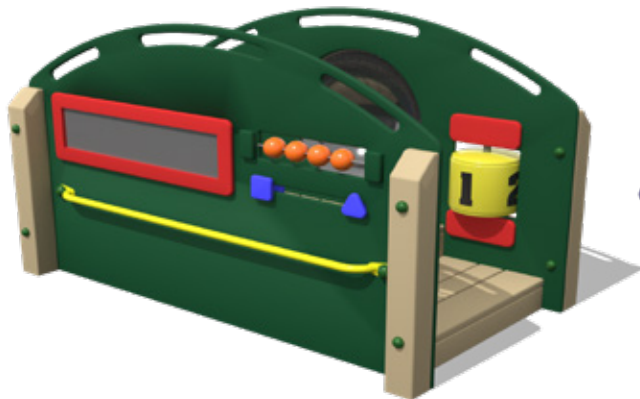

Capacity: 8-11 Kids

Fall Height: 18"

Use Zone: 11' 7" x 11' 11"

KINDER CROSSING

Children will explore shapes, colors, motion and interact with their friends through the bubble panel on the Kinder Crossing Bridge. Seven diverse activities encourage developmental benefits including: standing and walking along the cruise rail, counting, dramatic play, social and emotional development.

KINDER CROSSING

Age Range: 6-23 months

Capacity: 5-8 Kids

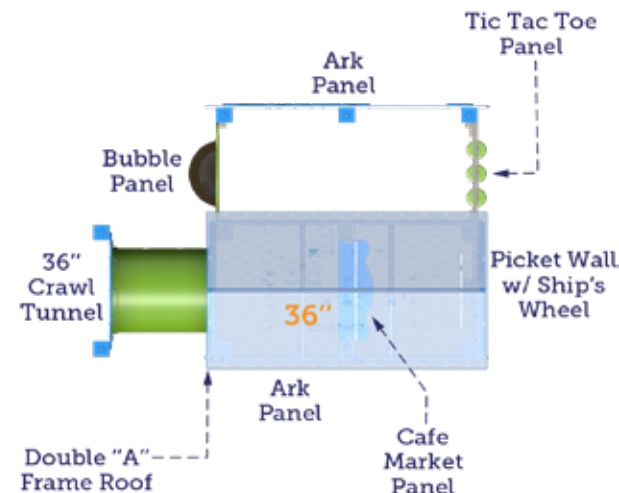

Fall Height: 10"

Use Zone: 17'6" x 15'6"

AQUA ARK

Children will explore shapes, colors, motion and interact with their friends through the bubble panel on the Kinder Crossing Bridge.

Seven diverse activities encourage developmental benefits including: standing and walking along the cruise rail, counting, dramatic play, social and emotional development.

AQUA ARK

Age Range: 6-23 months

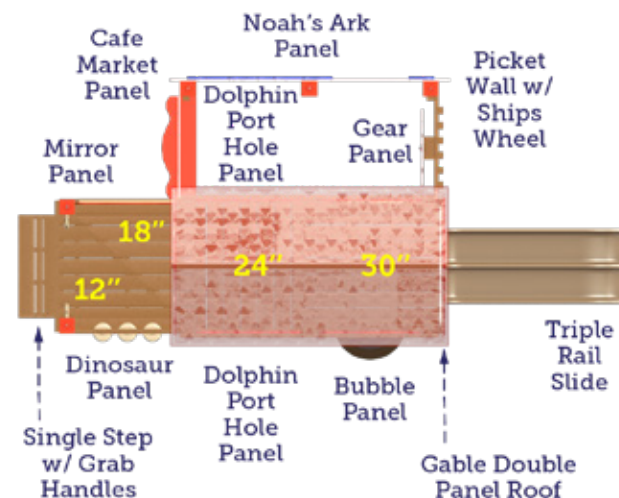

Fall Height: 36"

Capacity: 8-13 Kids

Use Zone: 20' x 24'

SS GIGGLES

This distinctive and activity-packed structure provides children 6 to 23 months with hours of interactive, kinetic fun. Youngsters will play for hours with the elements of dramatic and physical play that this recycled commercial structure offers. The structure features various panels for imaginative and dramatic play experiences where infants can let their imaginations run wild!

SS GIGGLES

Age Range: 6-23 months

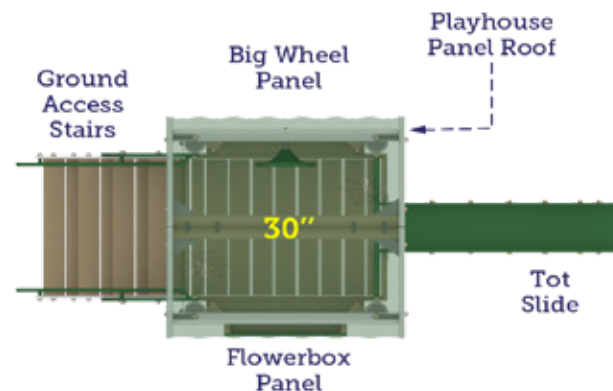

Fall Height: 30"

Capacity: 20 Kids

Use Zone: 20' x 30'

TOT TOWN

The Tot Town is a traditional post and deck structure that meets all standards for both 2-5 year and 6-23 month age groups. The roof will feature a leaf pattern in the natural color option and star pattern in the playful color option. The structure features a BigWheel panel, flowerbox panel, tot slide and ground access stairs.

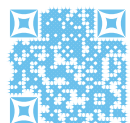

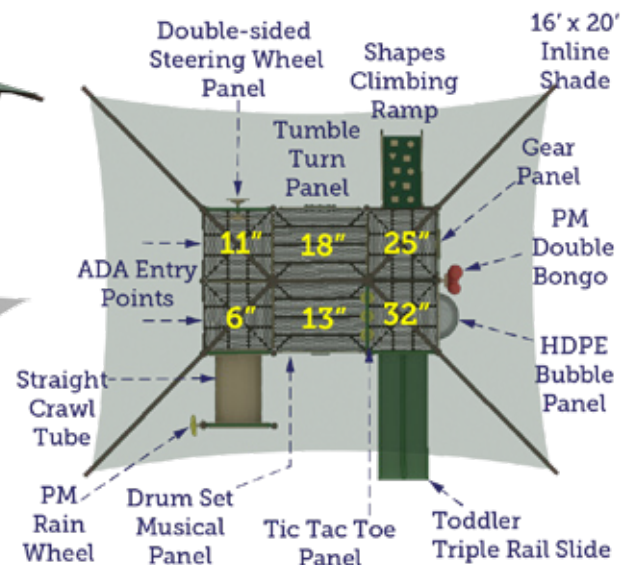

TOT TOWN

Age Range:	6-23 months	Fall Height:	30"
Capacity:	10-12 Kids	Use Zone:	17' x 24'6"

GIGGLE GROVE

Your smallest adventurers aged 6 to 23 months will play all day under the shade of this interactive system. Tiny tots will enjoy climbing up the Shapes Climber, through a crawl tube and down a double slide with their friends on this exciting play system. Featuring a Gear Panel, Steering Wheel, Bubble Panel, Bongo Drums and more!

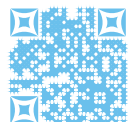

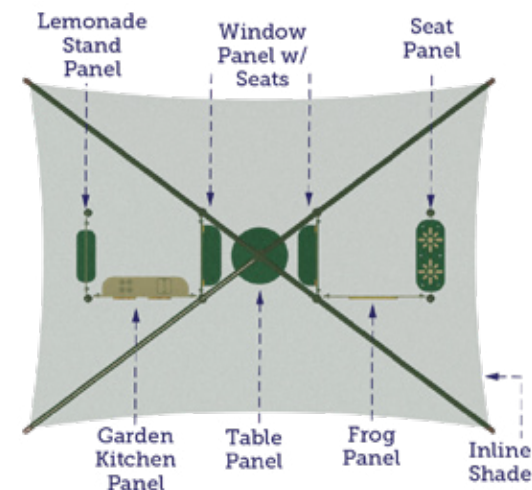

GIGGLE GROVE

Age Range:	6-23 months	Fall Height:	32"
Capacity:	40-50 Kids	Use Zone:	22'8" x 26'6"

EPS LILY GARDEN

The Lily Garden play system is an ideal option for any daycare center or small park. Featuring several imagination panels including; a Lemonade Stand Panel, Kitchen Panel, Frog Panel, Window Panel, Cafe Table and Seat Panel. This system promotes both social interactions and creative learning.

EPS LILY GARDEN

Age Range: 6-23 months

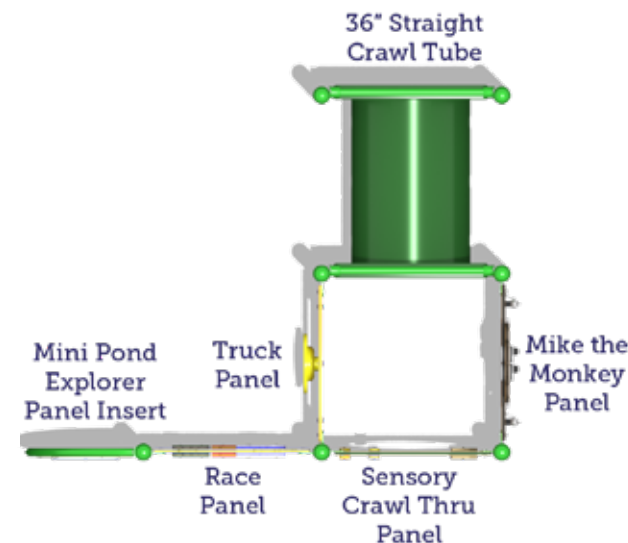

Fall Height: 24"

Capacity: 8-14 Kids

Use Zone: 15'5" x 24'6"

CATERPILLAR CORNER

The Caterpillar Corner may be smaller in size but is overflowing with fun. This crawl thru style system is comprised of a variety of activity panels that serpentine into an "S" shaped design. This creates alcoves that kids can make their hideout while playing. Each panel brings something different to the playground.

CATERPILLAR CORNER

Age Range: 6-23 months

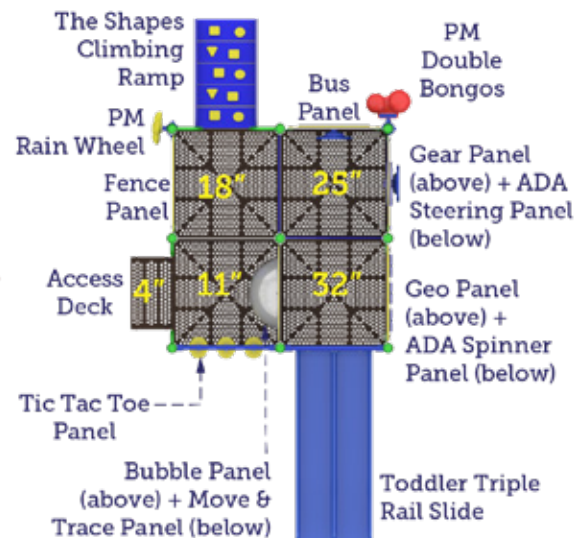

Fall Height: 6"

Capacity: 5-10 Kids

Use Zone: 18'4" x 20'2"

SUNSHINE STATION

Play for hours with your little ones aged 6 to 23 months on the engaging Sunshine Station. They will enjoy climbing up the Shape Climber through this wonderful interactive play system and down the Triple Rail Slide. Featuring a Bubble Panel, Bongos, Gear Panel, Steering Panel, Tic-Tac-Toe Panel and more. All of which promote physical and imaginative development.

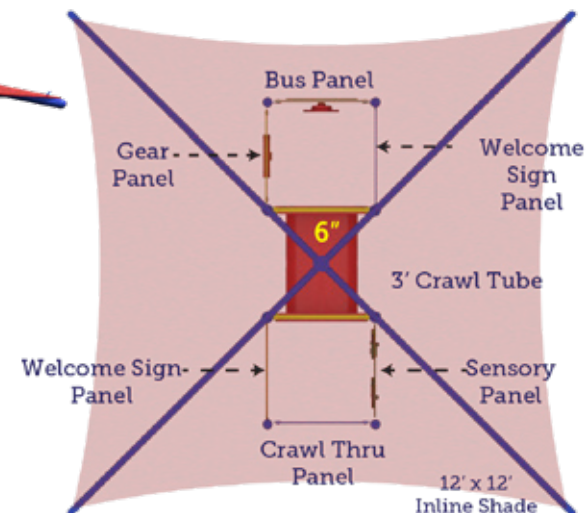

SUNSHINE STATION

Age Range:	6-23 months	Fall Height:	32"
Capacity:	15-25 Kids	Use Zone:	20'1" x 26'4"

HAPPY FEET

Your little adventurers aged 6 to 23 months will enjoy playtime under this shade protected Happy Feet play system. Perfect for daycare facilities or faith centers. This crawl thru style system is comprised of a variety of interactive play components such as the Gear Panel, Bus Panel, Crawl Tube and Sensory Panel.

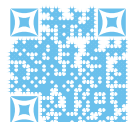

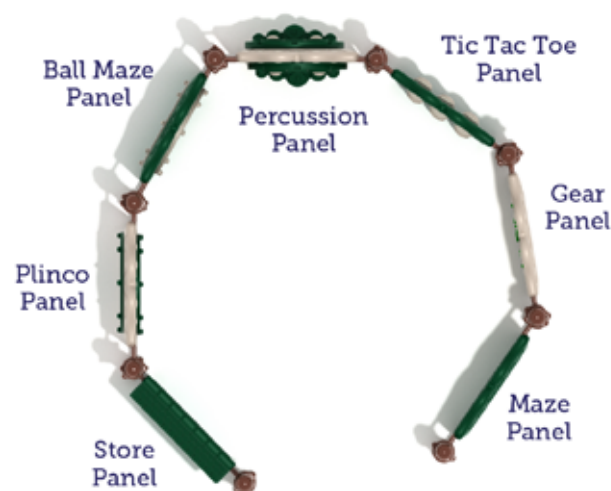

HAPPY FEET

Age Range:	6-23 months	Fall Height:	6"
Capacity:	10-15 Kids	Use Zone:	15'4" x 21'5"

CAMP WALDEN

Camp Walden is the perfect retreat for kids who want an escape from the hullabaloo of the playground. This corral of seven of our best activity panels has options for every child to enjoy while stimulating their creative and imaginative minds, regardless of their age or level of physical ability.

CAMP WALDEN

Age Range: 6-23 months

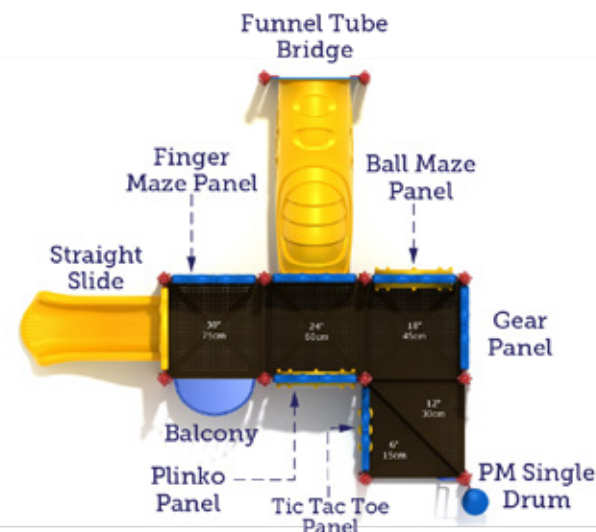

Capacity: 14-23 Kids

Fall Height: 0"

Use Zone: 15'4" x 15'4"

HOBART BAY

Playground-goers will like climbing up to the elevated level, either by the easy to access stairs or the exciting Funnel Tube Bridge, which will make children feel like they're in a brand new world. On the elevated level, children will have the opportunity to stimulate their creative and imaginative minds with a variety of panels including the Finger Maze Panel, Ball Maze Panel, Gear Panel and the Plinko Panel.

HOBART BAY

Age Range: 6-23 months

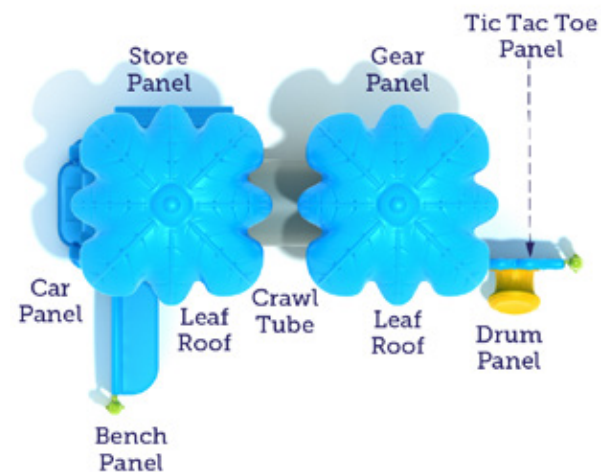

Capacity: 20-25 Kids

Fall Height: 30"

Use Zone: 18'5" x 20'

BOZEMAN

The Bozeman play structure is a collection of activity panels which offer children an endless supply of stimulating playground fun. There are panels which are designed to promote imagination, such as the Store Panel with a square window, and the Car Panel, with a steering wheel that actually spins. Children can orchestrate their own imaginary adventures using these panels as backdrops.

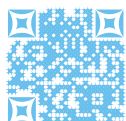

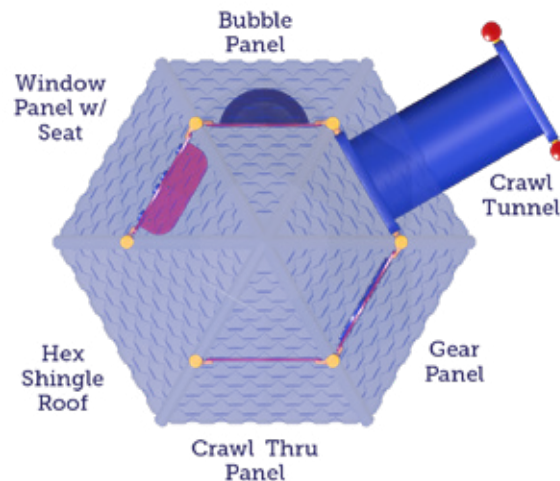

BOZEMAN

Age Range:	6-23 months	Fall Height:	12"
Capacity:	12-14 Kids	Use Zone:	13'9" x 19'10"

BABY BUNGALOW

Keep your little ones aged 6 to 23 months happy, healthy and on the go with the Baby Bungalow. This shade protected play system comes to life with a Crawl Thru Panel, Gear Panel and Bubble panel all of which promote physical and imaginative development.

BABY BUNGALOW

Age Range:	6-23 months	Fall Height:	0"
Capacity:	6-10 Kids	Use Zone:	9' x 12'

KNOXVILLE

Jump into a safe and whimsical fortress of play with the Knoxville structure. On the ground floor, children will engage with many charming pretend "sets" and activities, including a Drum Panel, Bench Panel, Elephant Crawl Thru, a Store Panel and a Car Panel, which all facilitate dramatic and creative play.

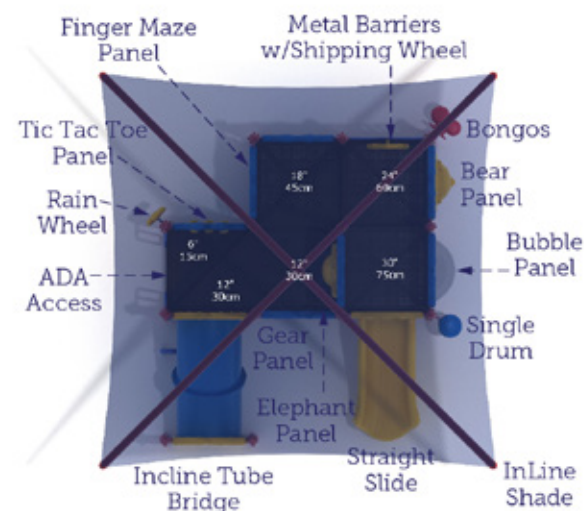

KNOXVILLE

Age Range:	6-23 months	Fall Height:	12"
Capacity:	22-26 Kids	Use Zone:	16'10" x 18'7"

MONUMENT VIEWS

This all-in-one play structure is designed to encourage physical and mental engagement. Children can mosey on up the structure's stairs or crawl up through the Incline Tube Bridge. But before that, their attention will likely be drawn to the various ground-level amenities, including the Single Drum, the Bongos, and the Rain Wheel, all of which enable creative play designed to spark children's imaginations.

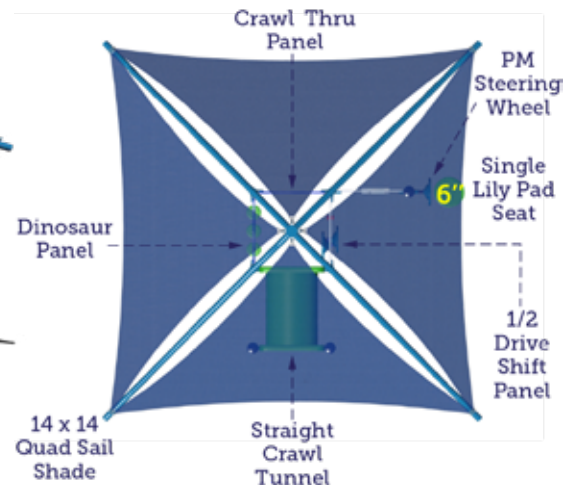

MONUMENT VIEWS

Age Range:	6-23 months	Fall Height:	30"
Capacity:	29-34 Kids	Use Zone:	21'6" x 23'9"

SHORT STACK

Enjoy playtime under the shade of this covered Short Stack. Play for hours with your little ones aged 6 to 23 months. They will enjoy climbing up, over and through this wonderful interactive play system. Featuring a Dinosaur Panel, Steering Wheel, Drive Shift Panel, Crawl Thru Panel and Tunnel, all of which promote physical and imaginative development.

SHORT STACK

Age Range: 6-23 months

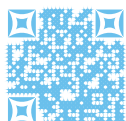

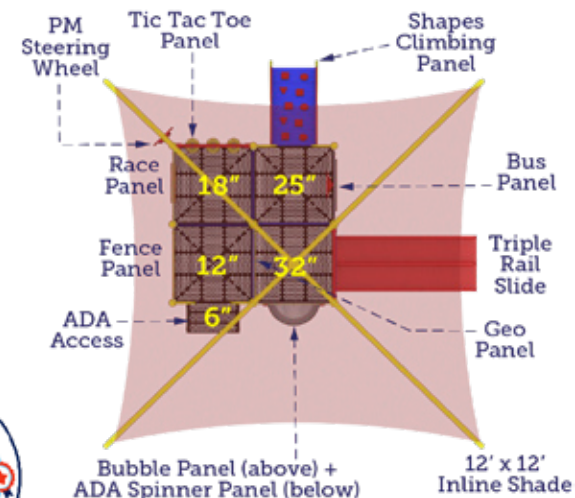

Fall Height: 6"

Capacity: 5-10 Kids

Use Zone: 12' x 12'

LITTLE LEARNER'S LOOKOUT

Play in the shade with your little adventurers aged 6 to 23 months on the engaging play structure. They will enjoy traversing up the Shape Climber while engaging with interactive play components and going down the Triple Rail Slide. Featuring a Bubble Panel, ADA Spinners, Geo Panel, Tic-Tac-Toe and more. All of which promote physical and imaginative development.

LITTLE LEARNER'S LOOKOUT

Age Range: 6-23 months

Fall Height: 32"

Capacity: 25-30 Kids

Use Zone: 22'1" x 24'2"

Adventures in Growing™

These panel-based units for children ages 6-23 months allow for exploration of texture, shapes, sound, and more! Available in a primary or natural color scheme.

Educational & Interactive!

Tot-Trek™ Modular Structures

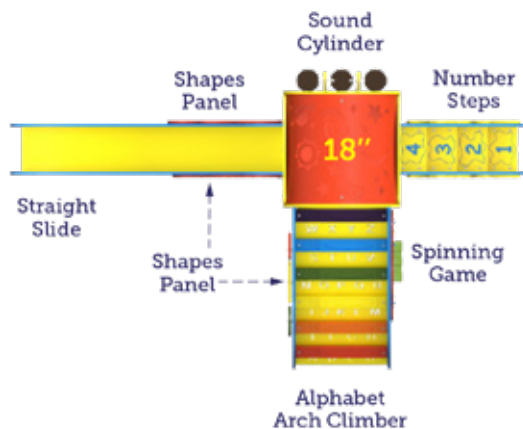

Start with the Tot-Trek base unit and add on different play components based on the phases to the right (or start with the largest!) Available in a primary or natural color scheme.

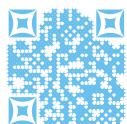

Endless Configurations!

COMPLETE YOUR SPACE

DOG PARK EQUIPMENT

Adventure Play Systems' commercial dog park equipment is a great option if you want to create a community destination for pet owners and dogs alike. Our equipment can help you set up a fun and secure pet recreation area in a park, near a playground, or anywhere your community values pet play.

OUTDOOR FITNESS

APS Play provides outdoor fitness equipment solutions for communities and businesses seeking to provide a resource for healthy lifestyles at any age or ability level. An outdoor fitness destination is perfect for apartment complexes, municipalities, community parks, senior living centers, and beyond.

SAFETY SURFACING

Commercial safety surfacing provides a wide variety of benefits including visual aesthetics, safety, accessibility, and long term usability. We offer a wide variety of surfacing solutions for playgrounds, sports venues, aquatic facilities, recreational spaces and more.

SITE AMENITIES

Commercial site amenities are essential to the usability of any recreational area, playground, or business. No recreational space is complete without a bench to relax on, a picnic table, or a waste receptacle that allows you to leave nothing but footprints.

SHADE & SHELTER

Adventure Shade offers innovative shade solutions to protect you from Mother Nature's harsh outdoor elements, including harmful UV Rays, extreme heat, wind, and rain. Shade structures protect not only your children and community members but also your outdoor recreation investment for years to come.

SPLASH PADS

An aquatic playground is a recreational area designed specifically for interactive water play. Splash pads typically contain a combination of ground sprays and above-ground water features like misters, dump buckets, and water slides. These refreshing spots are the hit of every park and recreation facility frequented in warmer months as they add value and excitement to any outdoor destination.

SHADE & SHELTER

185 | Beat the Heat: Shade Benefits
187 | Types of Shade Structures
189 | Hip Roof Shades
190 | Hypar & Triangle Sails
191 | Cantilever Shades
192 | Umbrella Shades
193 | Metal Shelters

SHADE STRUCTURES

Our shade cloth fabrics are crafted from premium UV-stabilized high-density polyethylene, offering maximum sun protection, durability, and strength. We offer standard shapes and custom-designed structures in various color options for the frame powder coating and fabric shades. Shade structures allow for extended use and increased play, pool, and outdoor area usability. At Adventure Shade, we are committed to providing the perfect shade or shelter structure to meet the needs of your playground or park.

- Adventure shade canopies block up to 97% of the sun's harmful UV rays.
- Reduced exposure to elements extends the life of play and park equipment.
- Breathable fabric allows hot air to rise, resulting in a cooling temperature of up to 25°
- Protect your community from Mother Nature's many elements, such as sun, heat, hail, and UV Rays.
- Knitted lock-stitch construction of shade fabric for fray and tear resistance.
- Durable HDPE fabric will not absorb moisture, is mildew, and is rot-resistant.
- 100% recyclable shade fabric is lead and phthalate-free for a healthier environment.
- Structural Steel frame is powder coated to prevent corrosion & increase durability.
- Hardware is stainless steel to prevent corrosion.

METAL SHELTERS

At Adventure Playground Systems, we offer a full spectrum of shelter designs that create community spaces while protecting patrons from many of nature's elements. We offer designed metal shelters in various color options for the frame powder coating and metal roofing color panels. Long Term Benefits Include:

- Standard framework is engineered to withstand wind gusts up to 90 mph and snow loads of 20 lbs. per sq. ft.
- All fasteners are concealed at connection points.
- All steel tubing and bolts meet or exceed ASTM standards.
- Structures are free of sharp edges and corners.

BEAT The HEAT

The Power of Commercial Shade Structures

Sweltering summer days can deter people from enjoying the outdoors. Commercial shade structures provide a much needed oasis, transforming parks, playgrounds, pools, restaurants, and other outdoor spaces into comfortable havens even during peak sunshine hours. Let's explore the compelling benefits of incorporating shade structures into your commercial property.

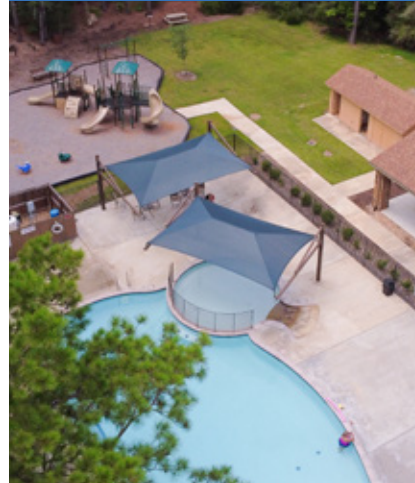

PROTECTION FROM THE SUN

The most obvious advantage of shade structures and metal shelters are their ability to block harmful UV rays. This provides a shield against sunburns, skin damage, and reduces the risk of heat related illnesses. Shade makes outdoor activities safer and encourages people to spend more time outside.

Shade Structures and Metal Shelters dramatically reduce temperatures in the covered area. This creates a more pleasant environment, especially during hot weather, and can even reduce the heat radiating from surfaces like pool decks and playgrounds.

COOLER TEMPS

ENHANCED COMFORT & EXTENDED USE

With ample shade, people are more likely to linger and enjoy a space. Whether it's a playground, a picnic area, or outdoor seating for a restaurant, shaded areas encourage longer visits and promote overall comfort. This creates a more pleasant and inviting atmosphere for both patrons and staff.

Harsh sunlight doesn't just impact people – it can also damage outdoor furniture, playground equipment, and other assets. Shade Structures and Metal Shelters extend the lifespan of these investments by reducing fading, cracking, and sun degradation.

PROTECTION OF EQUIPMENT

IMPROVED AESTHETICS

Shade structures and metal shelters aren't just functional; they can be visually stunning additions to any space. With various styles, colors, and materials, shade structures enhance the overall aesthetics of a property, adding architectural interest and a sense of sophistication.

Shaded spaces promote a sense of well-being and demonstrate care for visitors. Whether it's a public park or a business establishment, providing shade shows an investment in creating a hospitable environment.

This attracts more users, boosts customer satisfaction, and even adds to the property's value.

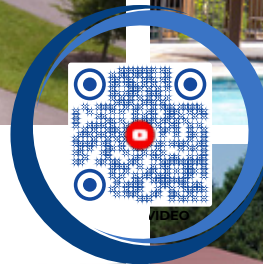

COMMUNITY & CUSTOMER ATTRACTION

INVEST IN COMFORT & WELL-BEING

Commercial shade structures and metal shelters are a smart investment, delivering health benefits, improving the user experience, and maximizing outdoor spaces. By providing refuge from the sun, they enhance every aspect of a space, making it more enjoyable, functional, and attractive.

HIP ROOF SHADE STRUCTURES

Hip Roof Shades are our most popular option; they are cost-effective and visually appealing. This versatile design style comes in several different size options to help accommodate all of your shade needs. The custom possibilities are endless, making this an ideal shade solution for a wide variety of outdoor areas. Our hip roof shades will offer shade protection while accenting the existing surroundings, perfect for covering a playground, outdoor seating area, swimming pool, automotive facility, or any other sunny site.

CANTILEVER SHADE STRUCTURES

Cantilever Shade Structures are ideal for areas requiring shade but with limited space for columns or posts. A cantilever post provides structure using vertical supports instead of additional horizontal posts. These designs are popular in the automotive industry, residential areas, and recreational facilities. Our various designs, styles, and size options make this a perfect shade solution for various outdoor areas.

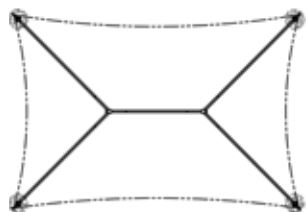

SAIL SHADE STRUCTURES

Sail Shade Structures are our most unique and visually distinct design options available. Perfect for those looking to add shade protection and statement-making design aesthetics to their outdoor spaces. This versatile design style comes in various shapes and size options to help accommodate all of your shade needs. Whether you want to cover a playground, picnic area, swimming pool, hospitality venue, or any other outdoor commercial space, our sail shades will offer shade protection while visually enhancing the existing surroundings.

UMBRELLA SHADE STRUCTURES

Umbrella Shade Structures are both aesthetically simple and stylish. This design utilizes a single center-mounted structural post to support a commercial-grade shade net. They are the perfect shade for outdoor dining areas, swimming pools, restaurants, or any other sunny site. As an essential component of overall design and usability, umbrella shades protect not only the community in which it is placed but also your outdoor recreation investment for years to come.

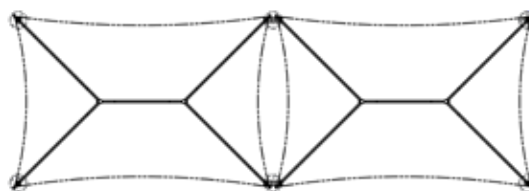

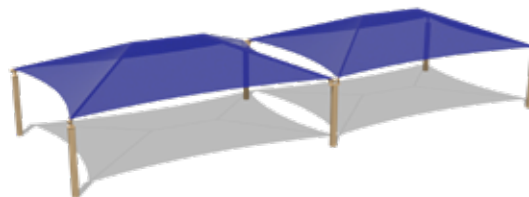

RECTANGLE HIP ROOF

Our most popular, cost-effective and versatile design option. Available as surface or in-ground mount with eave heights ranging from 8' to 16' high.

Applications:

- Playgrounds
- Picnic Areas
- Pools
- Bleachers

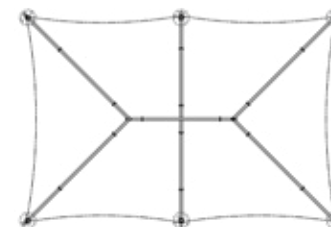

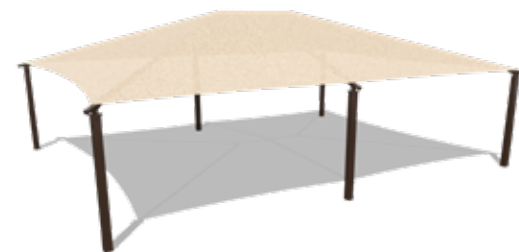

MULTI-FRAME HIP ROOF

A series of hip-end shades that are connected by shared posts. Available as in-ground or surface mount with eave heights ranging from 8' to 16' high.

Applications:

- Schools
- Parking Lots
- Playgrounds
- Outdoor Seating Areas

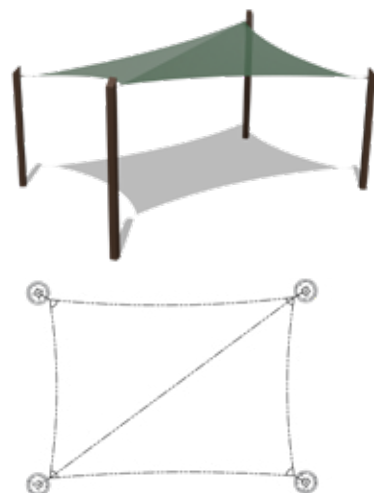

SUPER SPAN

These custom designs are perfect for larger spaces requiring a shaded area. Available as surface or inground mount with eave heights ranging from 10' to 16' high.

Applications:

- Sports Facilities
- Picnic Area
- Large Playgrounds
- Parking Lots

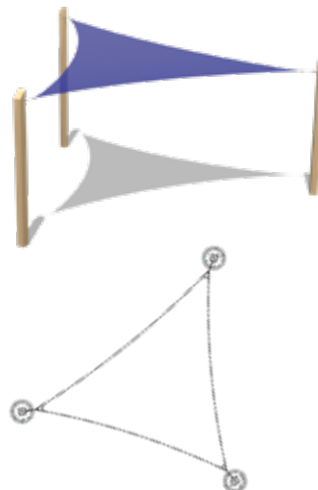

HYPAR SAIL

Hypar sails are fantastic options for spaces looking for maximum shade coverage and distinctive design capabilities. Available as surface or in-ground mount with eave heights ranging from 9' to 16' high.

Applications:

- Playgrounds
- Pools
- Picnic Areas
- Hospitality Venues

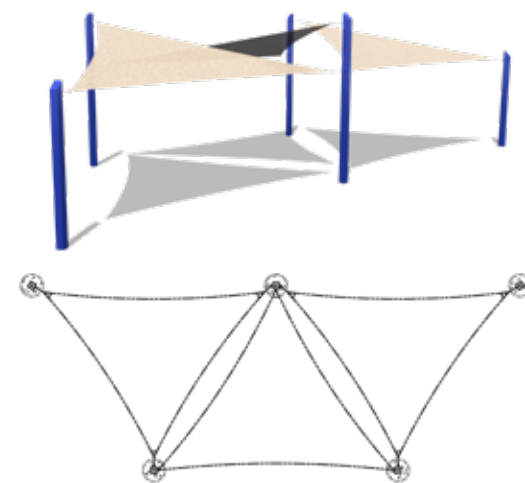

TRIANGULAR SAIL

These unique structures will offer shade and statement making design aesthetics to any venue. Available as surface or in-ground mount with eave heights ranging from 9' to 16' high.

Applications:

- Playgrounds
- Picnic Areas
- Pools
- Restaurants

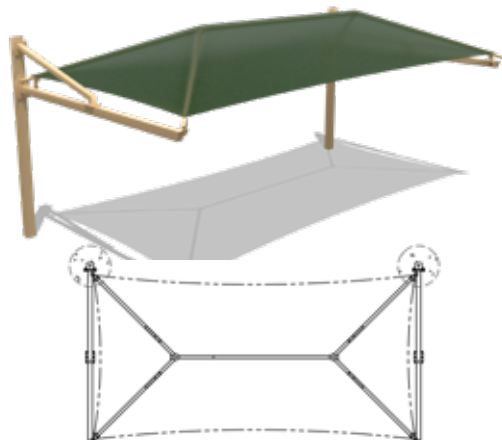

MULTI SAIL

These custom designs are perfect for larger spaces requiring a shaded area with design appeal. Available as surface or in-ground mount with eave heights ranging from 10' to 16' high.

Applications:

- Outdoor Auditoriums
- Hospitality Venues
- Picnic Areas
- Pools

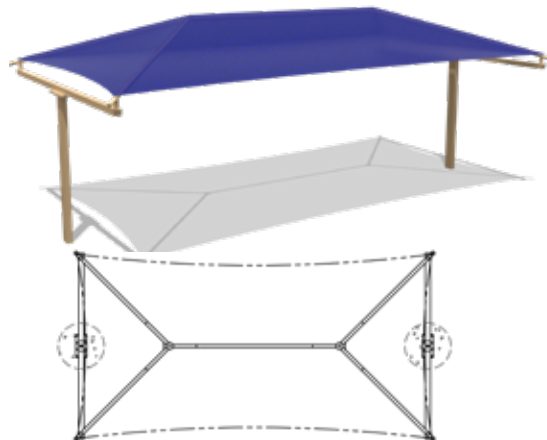

FULL CANTILEVER

The Full Cantilever features suspension beams at the top of the structure to support the extended shade canopy. This clean design utilizes two upright structural posts. Available as surface or in-ground mount with eave heights ranging from 9' to 16' high.

Applications:

- Automotive Facilities
- Walkways
- Pools
- Bleachers

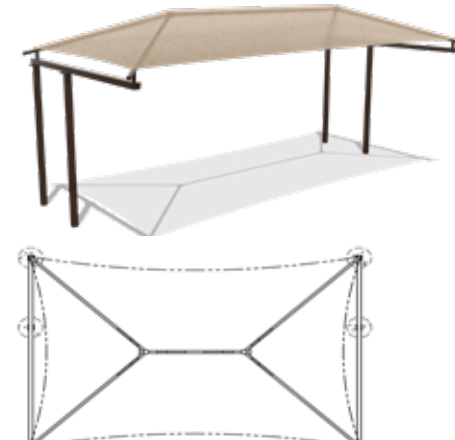

T-BAR CANTILEVER

The T-Bar Cantilever design features support beams at the center of the structure. This design utilizes two upright structural posts to support the shade canopy. Available as surface or in-ground mount with eave heights ranging from 9' to 16' high.

Applications:

- Gas Stations
- Outdoor Seating Areas
- Parking Lots
- Automotive Facilities

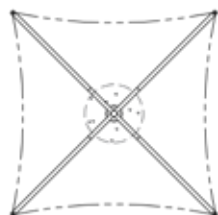

SEMI-CANTILEVER

The Semi-Cantilever utilizes four upright posts, two per side on the back portion of the structure, providing support for an extended shade canopy. Available as surface or in-ground mount with eave heights ranging from 9' to 16' high.

Applications:

- Automotive Facilities
- Picnic Areas
- Pools
- Bleachers

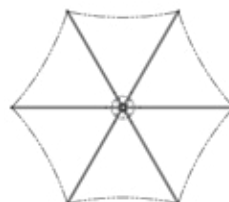

SQUARE UMBRELLA

Our Square Umbrella Shade is both aesthetically simple and stylish. This design utilizes a single center-mounted structural post to support a commercial-grade shade net. Available as surface or in-ground mount with eave-heights ranging from 8' to 12' high.

Applications:

- Hotels and Resorts
- Parks
- Outdoor Seating Areas
- Pools

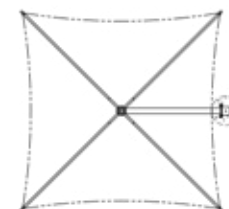

HEXAGON UMBRELLA

Our Hexagon Umbrella adds a stylish cabana like design aesthetic to any sunny outdoor area. It features a single center-mounted structural post that supports a commercial-grade hexagon shade. Surface or in-ground mount options with eave heights ranging from 8' to 12' high.

Applications:

- Outdoor Picnic Areas
- Pools
- Hotels and Resorts
- Splash Pads

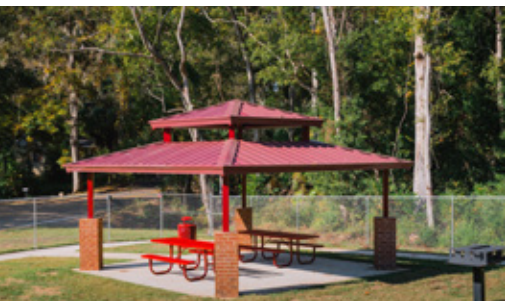

CANTILEVER UMBRELLA

The Cantilever Umbrella utilizes a single post angled towards the center of the structure to support a pyramid shade net. This design allows for a more open covered area that is unobstructed using a standard center column. In-ground or surface mount options with eave heights ranging from 8' to 12' high.

Applications:

- Car Wash
- Outdoor Seating Areas
- Pools
- Driveways

SQUARE

Simplest shelter solution

Suggested applications include picnic shelter, cluster mailbox shelter, and rest area shelter.

Maximum Size: 50'

Roof Pitches:

6:12 (Standard 7'6" Entry Height)

+/- 2:12 (Optional)

DOG PARK BENEFITS

At Adventure Playground Systems, play should extend to all walks of life, especially our four-legged best friends! With our extensive selection of dog park elements, we can help you build a community destination that allows exercise and interaction between dogs in a fun and secure environment. Designs are based on popular agility obstacles and developed for dogs of all abilities and confidence levels. Most of all, we unite people and communities by building attractive and fun places for pets and their families to exercise and socialize! Selections range from our pre-planned agility course packages to pick and choose individual play elements. Visit our website at www.apsplay.com to view the full line of products, or ask your Adventure Play Expert for a copy of our dog park catalog.

PETS ARE GOOD FOR YOUR HEALTH

Love, companionship, and sloppy kisses are just a few reasons people own pets. Pets have proven to be good for your health in many ways.

STRESS REDUCTION

Pet owners have less stress and recover more quickly from it.

HEART HEALTH

Studies show that people with pets have healthier heart rates and blood pressure.

WEIGHT MANAGEMENT

Dog owners are less likely to be obese, due to being more physically active when walking their pets.

CHOLESTEROL LEVEL

Studies show that owning a pet can decrease cholesterol, triglycerides, and blood pressure.

ENGINEERED WOOD FIBER

Engineered Wood Fiber is the most popular and economical choice for playground surfacing, and it is used in almost 75% of surfacing installations. Its popularity stems from its low initial cost, natural look, and high shock attenuation properties. Also known as Kiddie Cushion, this ADA-compliant surfacing material is made from natural wood fibers and engineered specifically for the needs and safety specifications of the playground industry. However, maintenance is critical to keeping engineered wood fiber ADA-compliant. It requires ongoing raking and an occasional top-off during its lifetime due to compaction and natural decomposition.

BENEFITS:

- Lowest initial installation cost
- Attractive, natural aesthetic
- ADA compliant

LOOSE FILL RUBBER MULCH

Also known as Kiddie Nuggets, this loose-filled shredded rubber material is made of clean, recycled rubber tires. It is ADA-compliant and offers the best impact-absorbing properties of all loose-fill surfaces. However, maintenance is critical to keeping this loose-fill surfacing option ADA-compliant. Recycled Rubber Mulch can be more economical in the long run than Engineered Wood Fiber as it drains well and does not decompose or blow away. This non-porous material is also animal, insect, and fungus-resistant. All of these factors contribute to saving money and maintenance over time.

BENEFITS:

- One of the highest impact attenuation ratings
- Green environmentally friendly option for playground surfacing
- Drains well and does not decompose

EPDM POUR IN PLACE RUBBER

EPDM Poured in Place Rubber is a popular safety surfacing material with several advantages over traditional surfacing systems such as mulch. EPDM offers a wide range of design capabilities as it comes in many color options that can be used to create artistic patterns, creative designs, and themed graphics. The process consists of two layers, and it must start over a secure concrete base. This is then topped with a low-density rubber base as a cushioning impact layer. Lastly, the EPDM-colored granules are mixed with a polyurethane binder, and the design is poured into place on-site. The rubberized surface can fit almost any area and forms one primarily continuous layer without seams or edges. This process is why EPDM is the best surface option for accessibility and ADA-compliant playgrounds. Pour-in-place rubber is one of the most expensive surfacing options available, but lower maintenance requirements for the product's life usually offset this cost. With proper maintenance, it can provide years of fun, safe, accessible play opportunities for your kids.

BENEFITS:

- One of the best ADA-accessible surfacing options on the market
- Wide range of color options and creative design capabilities
- Low maintenance requirements

RECYCLED RUBBER TILES

We offer a full selection of tiles to meet your site-specific needs, including Interlocking and Standard Tiles. Featuring a porous surface for easy drainage, our Rubber Tiles eliminate potential health risks, minimize maintenance, and sustain your investment in safety. They are available in various colors and in your choice of pigmented rubber or EPDM top. Rubber Tiles provide the ultimate safety and affordability as they offer superior shock absorption, low maintenance, extended wear, and accessibility.

BENEFITS:

- Low maintenance and easy to repair
- Use indoors or outdoors
- Superior shock absorption
- Highly accessible safe surfacing option

Pet Turf

SYNTHETIC GRASS

Synthetic Grass is rapidly gaining popularity as a safe, clean, and durable surface option that puts the natural look back into a play environment. Our artificial grass options offer children a contemporary, clean, soft surface. They are designed to outlast regular grass and withstand the roughest and most challenging play while exceeding all industry quality and safety standards. It is installed over a foam pad cushion layer that has maintained GMax scores to protect against impact injuries. Our padding can cushion falls from six feet to over 8 feet and meets American Society for Testing and Materials standards. No DuraFill Needed! Your playground will look brand new and maintain a fun, safe environment for children for years!

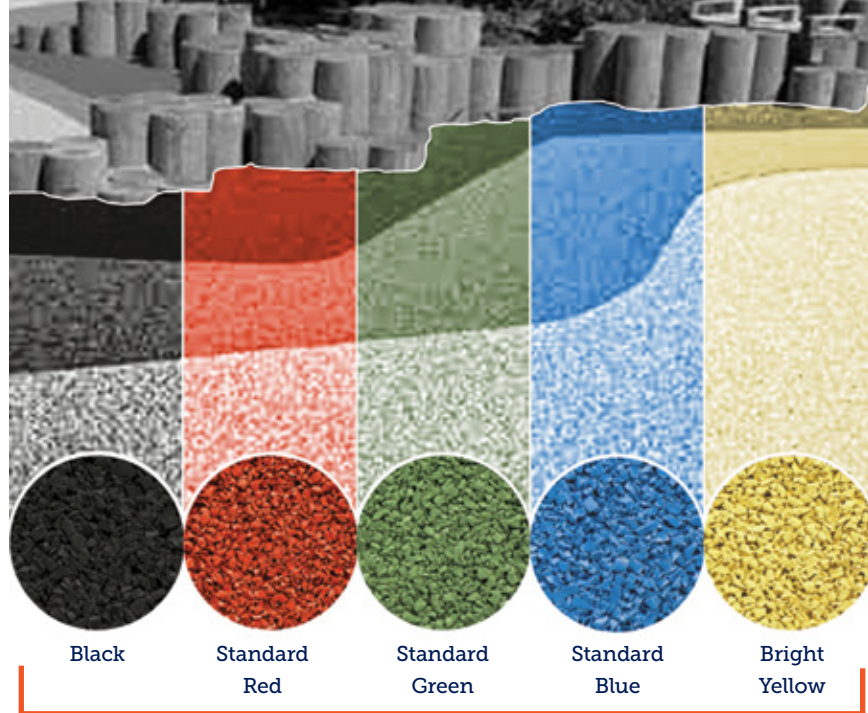

IPEMA CERTIFIED GRASS SURFACING

To verify product certification visit www.ipema.org.

BENEFITS:

- Provides a clean, safe, allergen and insect-free environment
- Cooler surface temperature than many other surface options
- Excellent drainage, cushioning, extended wear, and ADA accessibility
- Once installed, it requires little in the way of maintenance – no watering or mowing is required

TPV RUBBER

Thermo Plastic Vulcanized Rubber, also known as TPV, combined with our chlorine resistant aliphatic binder, makes TPV the most durable, long-lasting water play surface available. For use on pool decks, zero entry pools and spray grounds, this non-slip surface is ADA compliant and easy to maintain. TPV comes in a wide array of fun colors and endless design options, adding play value and excitement to any aquatic area!

BENEFITS:

- Slip-resistant
- Endless Design Options
- UV and Chlorine Resistant
- Low Maintenance
- Proven Durability

CONCRETE COLOR SEAL & PROTECTOR

Concrete Color Seal & Protector is a spray-textured acrylic coating that is sprayed and not troweled. thus leaving an "orange peel" effect. Concrete Color Seal & Protector can be applied directly to an existing concrete surface or depending upon the condition of the concrete, an optional base coat can be applied. A water-based acrylic finish coat is applied to provide the final color and create a non-porous surface. Concrete Color Seal & Protector will provide a safe, durable, attractive, and maintenance-friendly coating as one of the most economical investments you can find. The acrylic finish will make maintenance a snap!

BENEFITS:

- Cost Effective
- UV & Chlorine Resistant
- Low Maintenance
- Proven Durability

WATER FLECKS

Our Water Flecks® system comprises our UV-resistant thermoplastic rubber granules mixed with our two-part chlorine-resistant, aliphatic urethane, designed to withstand long-term exposure to chlorinated water. Flecks Systems are safe for children and the environment. Our systems do not leak out harmful chemicals, contain no VOC carcinogens, and are metal-free. Due to its unique non-slip properties when wet, Water Flecks® is the ideal safety surface for aquatic play areas.

BENEFITS:

- Applied at an average 3/8" thickness
- Excellent Chlorine & UV Resistance
- Non-slip when wet
- Safety Cushion base for added fall protection
- 100% Recyclable
- Long-term color stability in the harshest of climates
- Resistant to fungal attack
- Available in 15 colors & unlimited blended patterns

Splash Pads & Aquatic Playgrounds:

**Where Fun and
Benefits Collide**

Splash pads and aquatic playgrounds offer more than just a way to cool off on hot days. They're vibrant centers of fun, development, and community connection. Let's dive into the benefits they bring.

Inclusive Play for all Ages

Splash pads, with their zero-depth water features, are inherently accessible to children of all ages and abilities. Toddlers can safely explore gentle sprays, while older kids revel in the excitement of water cannons and dumping buckets. Aquatic playgrounds expand the fun with slides, climbing structures, and interactive elements .

Developmental Powerhouses

Splash play subtly supports a child's development on multiple levels:

Physical: Running, dodging, and splashing build coordination, balance, and gross motor skills.

Sensory: Experiencing different water textures, temperatures, and sensations provides rich sensory input.

Cognitive: Anticipation of water effects and problem-solving how to play with features strengthens cognitive skills.

Social: Cooperation, sharing water toys, and imaginative games develop crucial social skills.

ADVENTURE

BENEFITS OF AQUATIC PLAY

What is an Aquatic Playground?

An aquatic playground is a recreational area designed specifically for interactive water play. Also known as commercial splash pads, these refreshing spots are the hit of every park and recreation facility frequented in warmer months.

Splash Pads and Aquatic Playgrounds become neighborhood gathering spots. They offer a relaxed, playful atmosphere for families to mingle, make new friends, and strengthen community bonds. These spaces break down social barriers and create a sense of belonging.

COMMUNITY HUBS

COST EFFECTIVE & SAFE

Unlike pools, splash pads don't require lifeguards or the same level of maintenance. The minimal standing water significantly reduces safety risks. They're a cost-effective way for cities and businesses to provide a fantastic recreational amenity.

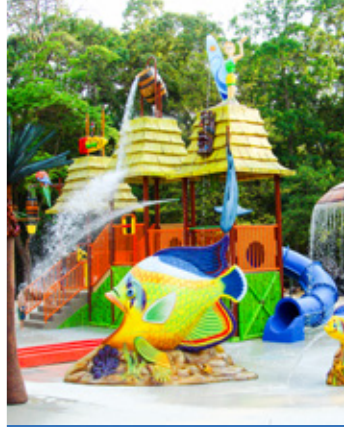

Playful water activity is an excellent energy outlet and encourages exercise in a fun way, which fosters a positive relationship with physical activity from a young age. This is essential in combating childhood obesity and promoting lifelong healthy habits.

PROMOTE HEALTHY HABITS

Many splash pads utilize recirculating water systems, minimizing water waste and making them an ecologically friendly option for aquatic play.

Adding a splash pad or aquatic playground to a community, park, or business can enhance its overall appeal and increase property values in the surrounding area.

DEVELOP SKILLS & REDUCE STRESS

The sound of water, the fresh air, and the pure joy of play create a natural stress reliever for children and adults. Aquatic Play is essential for a child's sensory integration and fine and gross motor skills development.

ECO FRIENDLY

CUSTOM AQUATIC APPEAL

Modern splash pads and aquatic playgrounds come in fantastic themes, sizes, and features, offering something for every space and budget. They inject color and visual excitement into a landscape.

BOOST PROPERTY VALUE

LET THE SPASHES BEGIN!

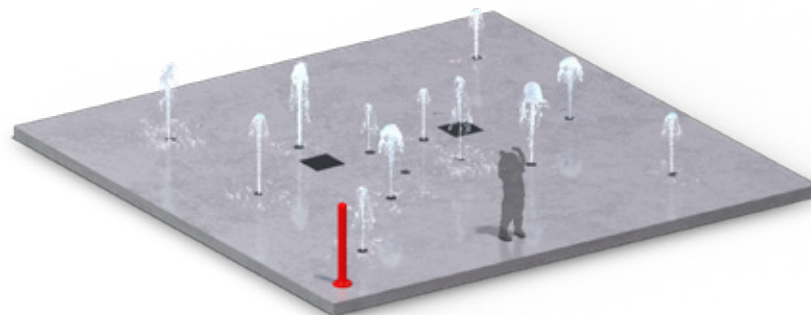

Whether you're a community leader or business owner, consider the incredible value of a splash pad. They provide a safe, inclusive, and endlessly entertaining environment where kids (and adults!) can thrive, play, and create lasting memories.

WATER MANAGEMENT SOLUTIONS

RECYCLING WATER SYSTEMS

Recirculation is a closed-circuit system that recycles and disinfects the water to and from the play area through the advanced water quality management system. Manufactured for the highest efficiency in water recirculation, this system provides the highest quality water filtration and disinfection for busy aquatic play areas. Recirculation Systems' underground tanks feature auto-fill capabilities, a filtration system pump, a filter, and a chemical controller. Though these systems have a higher initial cost, they are more cost-effective long-term than drain-away systems and standard commercial pools.

FEATURED

- Treated Water
- Fits Into Any Space
- Engineering and Permitting Required
- Eco-Friendly Option that Continuously Recycles Water Supply

Water management is a vital component to the success of every splash pad installation. With options of any size, our water management solutions are specifically engineered for your project. Adventure Aquatic Play offers a range of sustainable water management solutions with the best operating efficiency and the highest standards of water quality in the industry. Need help deciding which option is best for you? We have created a helpful guide to the features, benefits, and requirements of each.

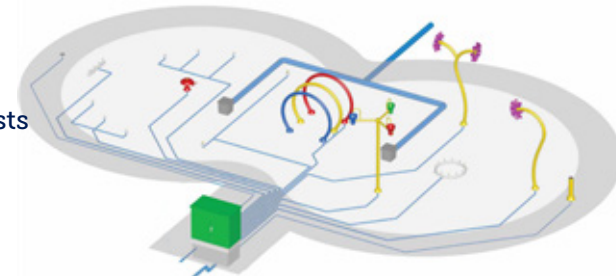

DRAIN AWAY SYSTEMS

Drain Away systems make easy-to-operate and low-maintenance Splash Pads. These systems use potable water that goes through the aquatic play area. Effluent water is then returned to the municipal wastewater system or percolated back to the water table. Consideration should be given to monthly fees associated with public water.

FEATURED

- Low Initial Capital Investment
- Low Maintenance Costs
- Drains Into Storm or Sanitation System
- Engineering and Permitting Required

ADVENTURE WARRANTY

Adventure Warranty

Adventure Playground Systems, Inc. warrants its products to be free from defect in materials or workmanship, subject to normal use and installation, for a period of 1 year from the date of delivery.

Within 1 year from date of delivery, Adventure Playground Systems, Inc. will repair or replace defective components free of charge. If merchandise was installed by Adventure Playground Systems, Inc. or an authorized agent, such repairs or replacements shall be performed free of charge.

If the merchandise was installed by the purchaser, the defective components must be returned to Adventure Playground Systems, Inc. or a service will be charged to cover labor. All warranties are void on equipment that has been vandalized or where the defects are the result of installation, modification or maintenance not controlled by Adventure Playground Systems, Inc. or an authorized agent.

This warranty does not cover cosmetic items such as scratches, dents, discolorations, weathering, normal wear and tear, or damage due to vandalism.

Adventure Playground Systems, Inc. reserves the right to make changes in designs, materials and price without prior notice. Previous purchasers shall have no recourse to such changes.

Warranty on Site and Park Products

- **7 Year** limited warranty on all site amenities (excluding dog park items) against structural failure due to defects in materials or workmanship.
- **5 Year** limited warranty on specialty dog park site amenities and play events.
- **5 Year** limited warranty on outdoor fitness equipment.
- **5 Year** limited warranty on athletic equipment.

Warranty on Shade and Shelter Products

- **10 Year** warranty on all shade fabrics.
- **10 Year** limited warranty on all metal shelters.
- **15 Year** limited warranty on steel frame, posts, clamps, and hardware.

Warranty on Splash Pads & Components Products

- **2 Year** limited warranty against peeling or fading on all finish coatings.
- **10 Year** limited warranty on all UHMW, PVC or Delrin spray jet housings and nozzles.
- **15 Year** limited warranty on perforated steel decks.
- **5 Year** limited warranty on all tanks and cisterns.
- **2 Year** limited warranty on commercial pumps, filters, electronic controllers, solenoids, timer boxes, and activators/sensors.
- **2 Year** limited warranty on all commercial sanitation equipment.
- **3 Year** limited warranty on TPV Rubber and Water Flecks aquatic surfacing.

Warranty on Surfacing Products

- **15 Year** limited warranty on synthetic grass.
- **10 Year** limited warranty on foam pads.
- **3 Year** prorated warranty on EPDM surfacing material.
- **3 Year** limited warranty on TPV Rubber aquatic surfacing material.
- **3 Year** limited warranty on Water Flecks aquatic surfacing material.

Warranty on Playground Products

- **15 Year** limited warranty on steel posts, clamps, and hardware.
- **15 Year** limited warranty on steel components including pipes, rungs, rails, loops, climbers and overhead ladders.
- **15 Year** limited warranty on perforated steel decks.
- **10 Year** limited warranty on rotationally molded plastic components including rotomolded roofs, slides, and climbers.
- **10 Year** limited warranty on HDPE plastic sheet components including all HDPE panels and climbers.
- **5 Year** limited warranty on all Freenotes musical items.
- **3 Year** limited warranty on all electronic music panels.
- **1 Year** limited warranty on spring riders.

CERTIFICATIONS & AFFILIATIONS

INTERNATIONAL PLAY EQUIPMENT MANUFACTURERS ASSOCIATION

In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA) provides a Third Party Certification Service whereby a designated independent laboratory, TÜV SÜD America Inc., (TÜV), validates an equipment manufacturer's certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use, except sections 7.1.1, 10, 12.6.1, 13.2, and 13.3; to CAN/CSA Z614, Children's Playspaces and Equipment, except clauses 9.8, 10 & 11; or both. The use of the corresponding logo in Adventure Playground System's catalog signifies that Adventure has received written validation from the independent laboratory that the product(s) associated with the logo conforms to the requirements of the indicated standard. Check the IPEMA website (www.ipema.org) to confirm product validation.

AMERICAN SOCIETY FOR TESTING AND MATERIALS

ASTM is an independent developer of technical standards utilized in testing a wide range of products. ASTM developed F1487-17 which covers consumer safety performance specifications and provides safety and performance standards for various types of public playground equipment. All of our products meet or exceed the safety standards set forth by this organization.

U.S. CONSUMER PRODUCT SAFETY COMMISSION

The U.S. Consumer Product Safety Commission (CPSC) has created guidelines for public and home playground equipment. The CPSC Public Playground Safety Handbook presents safety information for public playground equipment in the form of guidelines. The guidelines were first published in 1981, with revisions in 1991, 1994, 1997, 2008, and 2010. All of our products meet or exceed the safety standards set forth by this organization. To access the handbook, visit the CPSC website at cpsc.gov.

PURCHASING NETWORKS & FINANCING

CHOICE PARTNERS

Adventure Playground Systems is a proud vendor of Choice Partners' purchasing cooperative, which offers quality, legal procurement and contract solutions to meet government purchasing requirements. Colleges and universities, counties, municipalities, school districts, other governmental agencies and political subdivisions, and nonprofits within or outside of Texas may access Choice Partners' national cooperative legal, competitively bid facilities contracts under Intergovernmental Code 791 after signing an interstate participating contract or interlocal agreement.

**NAVITAS
CREDIT CORP.**

NAVITAS CREDIT CORPORATION

Adventure Playground Systems partners with Navitas Credit Corp to offer our clients the option to finance their equipment. Navitas is a direct lender that specializes in working with small to mid-size businesses so they can acquire new equipment and technology to further the success of their business.
