

Adventure Shade, by Adventure Playground Systems offers high quality engineered shade structures to accommodate a wide variety of outdoor venues. With over 20 years of experience, our designs offer aesthetically pleasing options to extend the life of your equipment while providing superior protection from the sun's harmful UV rays. Our shade cloth fabrics are crafted from premium quality, UV-stabilized, high density polyethylene.

Which provide the ultimate combination of maximum sun protection, durability, and strength. At Adventure Shade we offer many standard and custom designed structures. With a large selection of color options for the powder coated frame and fabric canopies, we can customize your structure to perfectly accent the existing surroundings. At Adventure Shade we are committed to providing the perfect shade structure to meet all of your facility, park, and playground needs.

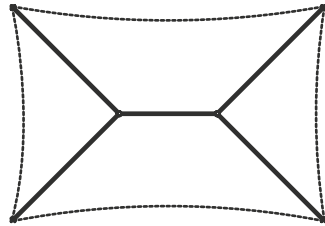

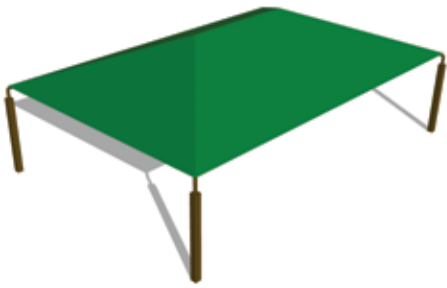

- Adventure shade canopies block up to 97% of the sun's harmful UV rays.
- Reduced exposure to elements extends the life of play and park equipment.
- Breathable fabric allows for hot air to rise resulting in a cooling temperature difference up to 20 degrees.
- Protect your community from Mother Nature's many elements such as sun, heat, hail and UV Rays.
- Knitted lock-stitch construction of shade fabric for fray and tear resistance.
- Durable HDPE fabric will not absorb moisture, and is mildew and rot resistant.
- 100% recyclable shade fabric is lead and phthalate free for a healthier environment.
- Structural steel frame is powder coated to prevent corrosion and increase durability.
- Hardware is stainless steel to prevent corrosion.
- Framework is structurally engineered to withstand windload of 90 mph with 3 second gusts at 110 mph.

HIP ROOF SHADE STRUCTURES

RECTANGLE HIP ROOF

Our most cost effective and versatile design. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12', 14' to 16' high.

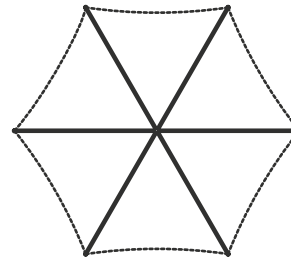

Applications:

Playgrounds • Picnic Areas • Pools • Bleachers

HEXAGON HIP ROOF

Featuring a clean peak roof design and six structural posts. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12', 14' to 16' high.

Applications:

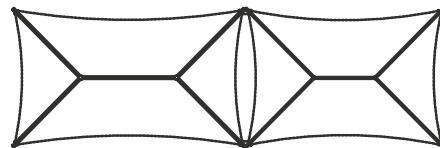

Schools • Picnic Areas • Camps • Restaurants

Hip Roof Shade Structures are our most popular option as they are both cost effective and visually appealing. This versatile design style comes in a number of different shapes and size options to help accommodate all of your shade needs. The custom possibilities are endless, making this an ideal shade solution for a wide variety of outdoor areas. Whether you are looking to cover a playground, outdoor seating area, swimming pool, automotive facility or any other sunny site. Our hip roof shades will offer shade protection while accenting the existing surroundings.

MULTI-FRAME HIP ROOF

A series of hip end shades that are connected by shared posts. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12', 14' to 16' high.

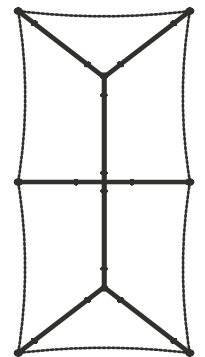

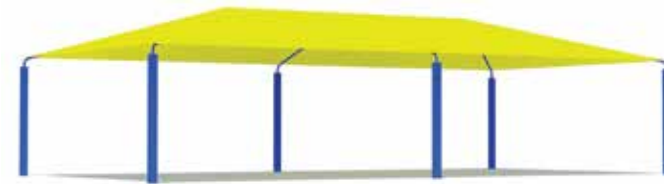

Applications:

Schools • Outdoor Seating Areas • Parking Lots • Playgrounds

SUPER SPAN

These custom designs are perfect for larger spaces requiring a shaded area. Available as surface or in-ground mount with eave heights ranging from 10', 12', 14' to 16' high.

Applications:

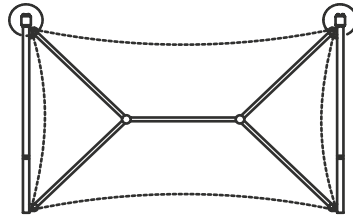

Sports Facilities • Picnic Areas • Parking Lots
Large Playgrounds

CANTILEVER SHADE STRUCTURES

FULL CANTILEVER

The Full Cantilever features suspension beams at the top of the structure to support the extended shade canopy. This clean design utilizes two upright structural posts. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12', 14' to 16' high.

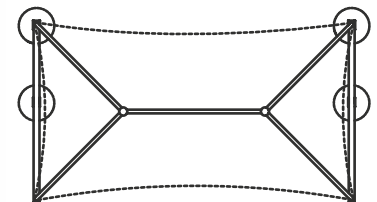

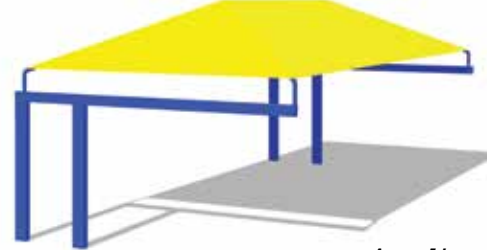

Applications:

Automotive Facilities • Walkways • Pools • Bleachers

SEMI-CANTILEVER

The Semi-Cantilever utilizes four upright posts, two per side on the back portion of the structure which provides support for an extended shade canopy. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12', 14' to 16' high.

Applications:

Automotive Facilities • Picnic Areas • Pools • Bleachers

Cantilever Shade Structures are ideal for areas requiring shade but with limited space for columns or posts. A cantilever post is used to provide support using horizontal arms as opposed to additional vertical posts. These designs are widely popular in the automotive industry, residential areas and in recreational facilities. Our wide variety of design styles and size options make this a perfect shade solution for outdoor areas.

T-BAR CANTILEVER

The T-Bar Cantilever design features support beams at the center of the structure. This design utilizes two upright structural posts to support the shade canopy. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12', 14' to 16' high.

Applications:

Gas Stations • Outdoor Seating Areas • Parking Lots
Automotive Facilities

CANTILEVER UMBRELLA

The Cantilever Umbrella's design utilizes a single support post angled towards the center of the structure to support a pyramid shade net. This design allows for a more open covered area that is unobstructed by the use of a standard center column. Available as surface or in-ground mount with eave heights ranging from 8', 10', to 12' high.

Applications:

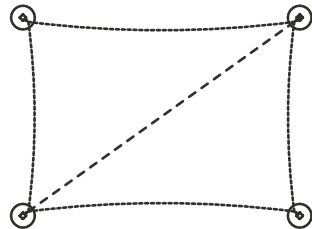

Car Wash • Pools • Driveways • Outdoor Seating Areas

SAIL SHADE STRUCTURES

HYPAR SAIL

Hypar sails are fantastic options for spaces looking for maximum shade coverage and distinctive design capabilities. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12', 14' to 16' high.

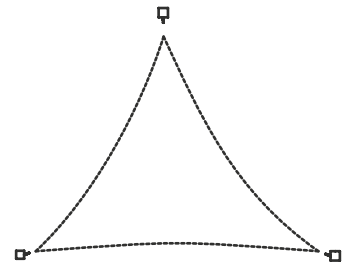

Applications:

Playgrounds • Picnic Areas • Pools • Hospitality Venues

TRIANGULAR SAIL

These unique structures will offer shade and statement making design aesthetics to any venue. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12' 14' to 16' high.

Applications:

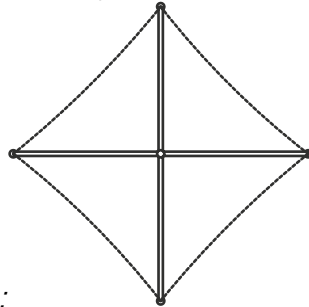

Playgrounds • Picnic Areas • Pools • Restaurants

Sail Shade Structures are our most unique and visually distinct design options available. Perfect for those looking to add shade protection and statement making design aesthetics to their outdoor spaces. This versatile design style comes in a number of different shapes and size options to help accommodate all of your shade needs. Whether you are looking to cover a playground, picnic area, swimming pool, water park, hospitality venue or any other commercial business outdoor area. Our sail shades will offer shade protection while visually enhancing the existing surroundings.

KITE SAIL

Widely popular in aquatics facilities, this design offers unique configuration options for those hard to fit spaces still requiring shade coverage. Available as surface or in-ground mount with eave heights ranging from 8', 10', 12', 14' to 16' high.

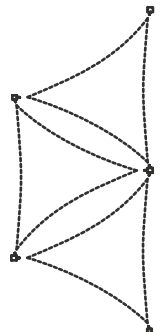

Applications:

Pools • Picnic Areas • Splash Pads • Amusement Parks

MULTI SAIL

These custom designs are perfect for larger spaces requiring a shaded area with design appeal. Available as surface or in-ground mount with eave heights ranging from 10', 12', 14' to 16' high.

Applications:

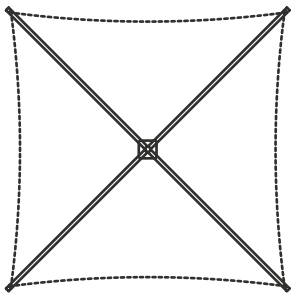

Outdoor Auditoriums • Picnic Areas • Pools
Hospitality Venues

UMBRELLA SHADE STRUCTURES

SQUARE UMBRELLA

Our Square Umbrella Shade is both aesthetically simple and stylish. This design utilizes a single center mounted structural post to support a commercial grade shade net. Available as surface or in-ground mount with eave heights ranging from 8', 10', to 12' high.

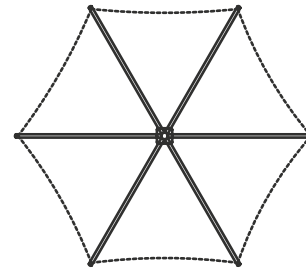

Applications:

Pools • Parks • Hotels and Resorts • Outdoor Seating Areas

HEXAGON UMBRELLA

Our Hexagon Umbrella Shade adds a stylish cabana like design aesthetic to any sunny outdoor area. It features a single center mounted structural post that supports a commercial grade hexagon shade. Available as surface or in-ground mount with eave heights ranging from 8', 10', to 12' high.

Applications:

Pools • Outdoor Picnic Areas • Hotels and Resorts
Splash Pads

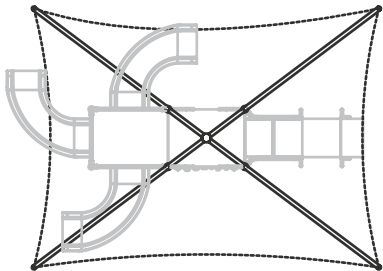

INLINE SHADE STRUCTURES

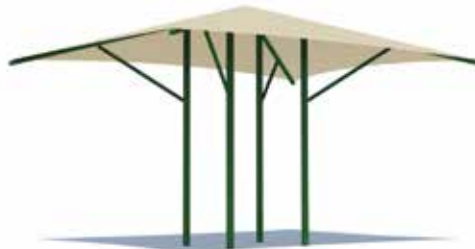

INLINE RECTANGLE

Inline Rectangle Shades are the perfect addition to any large commercial play structure in lieu of a traditional rotomolded plastic roof top. Available for our APS and EPS Play Lines.

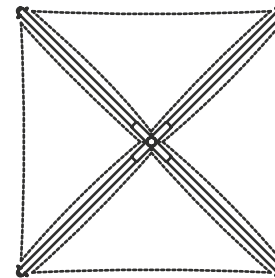

Applications:
• Playgrounds

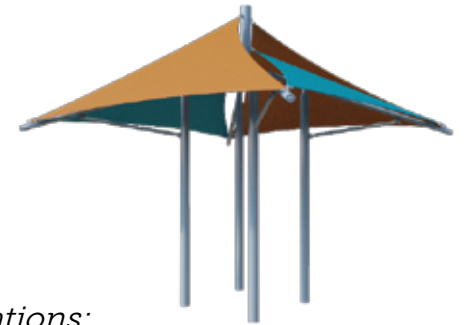

INLINE QUAD SAIL

The Inline Quad Sail Shade is a fantastic option for those looking to add statement making design aesthetics to a traditional commercial playground space. Available for our APS and EPS Play Lines.

Applications:
• Playgrounds
