HOW TO CHOOSE

Follow these simple steps to find the right solution for your project.

01

Choose where the fence will be used

Residential • Commercial • Institutional • High-Security

02

Choose the level of strength you need

Each series is engineered differently for performance and durability

03

Choose the style you like

Styles change the look of the fence.
The structure and strength stay the same.

04

Choose your options

Height • Finish • Gates • Hardware

One engineered fence system, configured to fit your project.

LIMITED LIFETIME WARRANTY

THE MEDALLION ADVANTAGE

Custom-built gate systems designed to match every fence series and meet access, security, and site requirements.

ARMOUR-SHIELD™ STEEL FINISH

Setting New Standards in Corrosion Protection

Armor-Shield™ combines advanced materials and manufacturing for unmatched strength and durability. It starts with a zinc-aluminum-magnesium alloy steel base and is finished with a premium powder coat, offering exceptional corrosion resistance and long-lasting paint adhesion — even in tough Canadian climates.

ALU-TUFF™ ALUMINUM FINISH

Rust-free Performance With a Premium Look

Alu-Tuff™ is built from high-tensile marine-grade aluminum and pre-treated for superior bonding. It's finished with a Super Durable Polyester Powder Coat for a clean, corrosion-free finish that lasts. Lightweight, strong, and low-maintenance — perfect for waterfront, poolside, and modern residential designs.

MEDALLION

- ☒ Full tube rails
- ☒ Interior welded seam zinc coated
- ☒ Chromate conversion coating
- ☒ Organic clear coat sealer/primer
- ☒ JS1000™ plating on bracket fasteners

ENGINEERED GATE SOLUTIONS

Medallion’s ornamental gates are engineered as integrated access solutions for residential, commercial, and institutional properties. Each gate is designed to match the fence style structurally and visually, delivering controlled access, long-term reliability, and a refined architectural presence.

- ▶ Fully welded construction for structural integrity
- ▶ Precision-fabricated frames and infill panels
- ▶ Industry-leading corrosion protection systems
- ▶ Consistent alignment with matching fence series
- ▶ Designed for frequent use and demanding environments

GATE CONFIGURATIONS

Swing Gates

Single or double leaf configurations
Ideal for pedestrian and vehicle access
Suitable for residential and commercial sites

Slide & Cantilever Gates

Automation-ready gate construction
Compatible with commercial gate operators
Designed for access control and security systems

Custom & Architectural Gates

Arch tops and custom dimensions
Decorative inserts and design variations
Project-specific fabrication available

Gate Type	Standard Heights	Standard Widths	Applications
Single Swing Gates	36"–96"	36"–72"	Pedestrian / Light Vehicle
Double Swing Gates	36"–96"	96"–120"	Vehicle Access
Slide / Cantilever Gates	48"–96"	Up to 45'	Commercial / Industrial

RAILSPAN™ SERIES

The Railspan™ Series is designed for commercial and civil applications where railings must mount directly to concrete structures rather than into the ground. Railspan delivers safety, strength, and clean architectural lines for elevated environments, including stairs, platforms, retaining walls, and elevated slabs.

Key Features

- ▶ Designed for surface-mounted and concrete-embedded installations
- ▶ Compatible with site-specific post spacing, height, and mounting conditions
- ▶ Fully welded railing construction
- ▶ Powder-coated for long-term durability and corrosion resistance
- ▶ Available in styles matching Medallion fence series

Railspan™ systems are railing solutions and are not intended for in-ground fence installations. Post height, spacing, and mounting method vary based on site conditions and project requirements.

LIMITED LIFETIME WARRANTY

IRONCREST™ SERIES

Decorative Iron Toppers for Wood & Masonry Fences

The Ironcrest™ Series adds architectural detail and visual height to traditional wood fencing and masonry walls. Designed to mount cleanly on new or existing structures, Ironcrest toppers create a refined transition between privacy fencing and ornamental metalwork. Ideal for residential properties and upscale developments, Ironcrest delivers enhanced curb appeal with optional security benefits.

- ▶ Designed to install on wood fences, masonry walls, and between columns
- ▶ Fully welded steel construction
- ▶ Powder-coated for long-term durability
- ▶ Available in multiple Medallion fence styles
- ▶ Pairs seamlessly with matching gates and post caps
