

BIKE SHELTERS & PARKING

SPACES IN HARMONY

Our core purpose is to inspire and enable more sustainable communities. We're committed to change the way we think about bike parking and infrastructure. Bike parking is highly visible and a reflection of your commitment to a greener environment. Designated parking is more orderly for buildings, prevents damage to trees and street furniture and prevents bikes from blocking walkways. Our products serve to encourage alternative transportation while enhancing the appearance of your grounds and your image.

THE BIKE STOPS HERE.

COMPLIMENTARY SPACE PLANNING

Space is at a premium. As demand for bike parking grows, it's vital to plan expertly and efficiently. We can help. We listen to your requirements and apply our knowledge to develop parking layouts, determine capacities and suggest products that make sense. Our recommendations are based on APBP guidelines and best practices from around the world.

We specialize in Bike Rooms & Indoor Parking
Bike Shelters | Bike Racks | Clothes Lockers
Bike Lockers | Benches | Bike Cages | Repair Stations
Scooter & Skateboard Racks | Racks for Home

SHOW YOUR COMMITMENT

- Reduce your carbon footprint
- Support alternative transportation
- Promote exercise & healthy living
- Work toward LEED certification
- Protect expensive equipment
- Provide safety & security to cyclists
- Make an architectural statement

TEAM WITH AN INDUSTRY LEADER

- Shelter innovation since 1984
- 250+ bike parking products offered
- Open, partially or fully enclosed
- Custom glazing & framing colors
- Standard lighting or solar LEDs/PVs
- Engineer-stamped designs available
- Design, engineer, manufacture, install

ACTIVE, INVOLVED, KNOWLEDGABLE

We continually seek education - new products, commuter and industry trends, bike parking guidelines - anything that relates to or affects your planning. We then apply our knowledge to help you execute your project. We provide project pricing, specifications, CAD drawings and bike parking layouts and capacities.

STANDARD OR CUSTOM MODEL?

We investigate, evaluate and integrate technologies and innovations to ensure the very best for our customers, partners and the environment. We've applied our knowledge and experience to develop a variety of standard models including architecturally designed shelters. If you'd like to go in a different direction, we're happy to collaborate with you to create any conceivable size, shape and look you desire.

STANDARD SHELTER FEATURES

- Fourteen standard models
- Wide variety of designs
- Integrated bike racks on selected models
- Designed to address specific bike parking needs
- Pre-engineered
- Constructed with readily available, standard materials
- In-house aluminum & steel fabrication
- Cost effective

WE'VE RAISED THE BAR

Functionality, aesthetics and making your project a long-term success are our priorities. We're not afraid to set new standards of performance and accountability. Our shelters are engineered for your wind and snow loads. Our polycarbonate panels can provide UV protection, 100% recyclability and can be up to 20% recycled content. We offer over 250 bike parking and infrastructure products - the industry's broadest range of solutions. Combining all of these features helps you implement a bicycle friendly environment and work toward LEED certification.
