PRODUCTS IN STOCK AND READY TO SHIP

SST TORPEDO™ BURNERS

The commercial-grade SST Torpedo™ burner, available in Penta, Linear and H configurations, is our newly designed nozzle which creates the biggest flame and is targeting those customers seeking an aesthetic and experience more like a bonfire. The goal is to give customers yet another option that is inspired by safety, innovated for their lifestyle. This is a great addition to our product offerings, providing customers with an array of flame options.

SST Torpedo Penta Burner
Is the largest CSA Certified flame on the market

ALUMINUM FIRE PIT BOWLS

These bowls come in two finishes, concrete and walnut as well as two burner options, standard or SST Torpedo. They are Hydro Dipped for the best finish possible and have each and every unit has been hand-inspected to ensure the highest quality product.

Aluminum Fire Pit Bowl
With a concrete finish

SPORT PIT

The HPC Sport Pit Series is a camper's, tailgaters, and backyard hangers dream. With a lid that spins on with the twist of a wrist keeping the glass media in place and providing a handle for easy transport it's the fire pit for anyone on the go. There is a quick LP Tank hookup that allows for easy setup and tear-down so you never miss a moment.

NEW PRODUCT FEATURES

A large, vibrant fire burns in a stone fire pit. The fire is composed of many bright orange and yellow flames that rise from a bed of dark, charred wood. The fire pit is constructed from large, rough-hewn stones. In the background, there are trees with green foliage, suggesting a forest or park setting. The overall scene is illuminated by the fire, creating a warm and inviting atmosphere.

HPC Fire Smoker

The HPC Fire Drum Smoker utilizes vortex technology to evenly smoke and cook food to perfection. This unique feature also keeps temp and burns wood slower allowing for up to an 18 hour cook time on 1 bag of lump charcoal saving time and money all while accomplishing that mouth watering smoke flavor you want. With this design you can hang roasts or whole chickens from the cooking surface and also smoke anything you would like above it allowing for more food to be smoked at once, but with its fuel saving design it can be used for small amounts of food with no issues.

This design has a custom vortex plate in the bottom of the smoker as well as the unique way it draws air in allowing for a cyclone effect of smoke that touches every inch of the food you are smoking. This unique design allows for more smoke and more flavor without sacrificing cooking time and quality.

With continued Innovation comes regular change!

At HPC Fire Inspired™ we are working on new products daily! We will keep you updated via e-mail blasts, social media and a web page that will have all new products as they are released. Sign up for the newsletter at HPCfire.com/contact.

FLAME CONTROL

THE GREATEST FLEXIBILITY IN THE INDUSTRY

Three certified technologies to choose from:

ELECTRONIC IGNITION

PUSH-BUTTON /
FLAME SENSING

MATCH-LIT

Our electronic ignition is now available with Bluetooth® and our new, easy-to-use HPC Fire One app available now.

Improved remote control electronic ignition

HPC has taken our electronic control module with thermocouple sensing to a higher performance level.

- Hot surface igniter – for natural gas or propane – provides stronger, more reliable ignition with longer life
- Internal temperature monitoring automatically shuts off to prevent overheating damage to the unit
- Flame sensing – automatically relights if flame blows out
- Remote control unit – optional with on / off model – offers high / low flame height adjustment and LED fire pit performance feedback

- Meets 2020 ANSI standards for safety redundant system and humidity.

- New smaller electronic ignition box allows for easier installation

On / Off Models: Provide on / off operation via a wall switch or optional handheld remote

High / Low Flame Models: Includes new remote with on / off functions, diagnostic fire pit feedback and high / low flame adjustment. Available with Bluetooth® control and our new, easy-to-use app for Apple® and Android™ devices

Match-Lit Kits

For LP and NG applications. Includes burner, valve and key, flange, flex-line hose and fittings.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc.

Apple® is registered trademarks of Apple Inc.

Android™ is a trademark of Google Inc.

CERTIFIED FOR SAFETY

Fire Pit Inserts

The proven leader in outdoor fire technology, HPC offers:

- More CSA-certified inserts than any other company
- Inserts in assorted sizes and shapes, including 36" and 42" square and 54" round inserts, as well as Penta burner, H-burner and linear designs
- Three CSA-certified technologies for all inserts: Match-Lit, Push-Button / Flame Sensing, and Remote Electronic Ignition
- Inserts that come complete with burner, pan and related electronics

NEW The SST Torpedo Burners yield an enhanced bonfire like aesthetic and the largest CSA Certified flame on the market.

Square Bowl Pan Insert

Square Flat Insert

*Rectangle Insert
larger size
up to 90" x 16"*

Penta Insert

Linear Trough Insert

Patented Penta Burners

Blowout box protects from wind and rain. Newly designed vents for proper combustion, whatever the weather.

Innovative raised hub design – reduces unwanted water

Patented five-lob design creates a taller center flame for a campfire effect

More Penta advantages:

- Uses less fuel to attain same flame height as fire ring
- Burner holes engineered to give NO distinct burner pattern on low flame setting
- Low profile design requires less media
- Available with CSA-certified Electronic Ignition stainless steel flex line for easier, faster installation
- Designed to shed water – no clogging or valve damage

HPC FIRE ONE APP

EVERYTHING YOU NEED IN ONE APP

The new HPC One App will hold all the information from HPC Fire Inspired that you would ever need. The 3 apps we will be starting with from HPC are the Augmented Reality app, the HITS app and the In Connect app.

①

HPC AR

The Augmented Reality app allows you to see our finished products in real-time to make sure the aesthetic and look are exactly what you need for the project. This app has been a big hit in the DIY community as well as contractors that want to make sure they are getting the correct fire pit or fire feature that they need.

②

HITS

The HITS app is a building instruction, tools needed, clearance given, troubleshooting beast for anyone that has an HPC Fire feature or fire pit. Simply choose the product you are working with and let the app do the rest with step-by-step instructions for any fire pit build. It starts with tools and clearances needed and goes into the step-by-step instructions of how to properly install any HPC Fire fire pit or fire feature.

③

HPC FIRE

The HPC FIRE app allows you to control the electronic ignition-High-Low models. This app allows for the kind of control you would find on a high-end sports car on your fire pit. The HPC FIRE app does a lot more than just light your fire, it allows you to change the flame height from high to low and capitalize on the ambiance you want, it allows for parental controls by password protecting the fire feature.

DOWNLOAD THE APP TODAY

FIND THE RIGHT PRODUCT IN LESS THAN 1 MIN...

AND KNOW THE QUESTIONS THAT WILL BE ASKED BY YOUR INSTALLER

Our fire pit selector and the pizza oven selector will eliminate your questions or at a least let you know the main questions to consider when looking for a fire product. It will take you through every option available on any fire pit or oven that we make and give you the exact SKU you are looking for.

LIFETIME WARRANTY BURNERS

OUR BURNERS ARE UNIQUE – NOT TO MENTION BUILT TOUGH
